Dr. Allan Accepts Boeing Gift

## Boeing Donates Bus for Science

The Boeing Company recently donated a surplus Aero-Space Division bus to the Highline College Science Club to be used as a vehicle for scientific displays and possible science tours. Fred Huleen, corporate director of personnel for Boeing, is shown above talking to Mr. John Barton, advisor for the Science Club, Dr. M. A. Allen, president of Highline, and Clem Finlayson, president of the club.

Mr. Barton said the bus will be used as a portable lab for individual experimentation and to help supplement class lab sessions. A traveling science exhibit was also proposed which could be used to try and influence high school students to enter into fields of science offered at Highline College. The bus could also be used to perform community services such as locating and eliminating T. V. I. or amateur radio interference.

In February of this year, the Science Club visited the Boeing Scientific Research Laboratory and was able to see first hand some of the research and development work carried on by Boeing. A trip to the Dominion Observatory, where the third largest telescope in the world is located, as well as a trip to the University of Washington Cyclotron is planned for the near future.

One of the experiments in the planning stage is the use of surplus weather balloons to take aloft a simple telemetering device which would measure how the temperature varies with the altitude. The club would also like to experiment in the field of electromagnetic radiation and astronomy. The money for these projects is being partly raised by students doing radio and television repairs in their spare time.

Mr. Barton said that although the club is primarily experimenting in the field of physics and its application, they would

## Pat Berude Is Annual Editor

Pat Berude, graduating sophomore, has been appointed editor of Highline College's first annual. She is being aided by Bill Kawahara, art editor; Gerry Julian, chief photographer, and a staff of fourteen. Miss Betty Strehlau is the advisor.

Staff members are Dick Peterson, Ron Siegel, Gary Kallio, Roy Schaefer, Guna Purvinskis, Susan Humphrey, Linda Bray, Tom Oakley, Bruce Morris, Jim Langston, Victor Weigend, Maris Benson, Jim Squires, Pam Wood.

Faced with a short deadline, the staff has been working night and day to meet the goal. Final paste-ups were sent to the printer on Wednesday, April 10, to guarantee an early June delivery.

The hard-back cover is green with white lettering and a Thunderbird design.

Orders will be accepted soon (watch the Daily Bulletin) and a priority will be given to those who signed an intent-to-purchase list Winter quarter. The price, to be determined this week, will be the lowest of any junior college annual in the state.

## Students Serve As Speech Judges

Ten Highline College students served as judges in the district tournament of the National Forensic League held at Evergreen High School April 4, 5, and 6.

Events included Interpretation, Extemporaneous Speaking, Oratory and Debate.

Student judges included Gary Curtis, Mark Edelbrock, Bob Hurd, Jerry Ball, Dave Elliott, Ken Adams, Doug Gorman, Harvey Morris, Howard Hauser, Treana Tober.

also like to add the fields of chemistry and biology as soon as the space and facilities are available.

## Dr. George Pleases Students

A Communist delegate at the XV General Assembly of the United Nations walked to the Ambassador James J. Wadsworth, Chairman of the U. S. Delegation, and offered, "I see you have a rebel in your ranks." He was speaking of Dr. Zelma George, Sociologist and Diplomat, who spoke at Highline College April 8.

Ambassador Wadsworth replied, "Yes, I guess we do. But in America we accept differences of opinion. In your country, she probably would have been shot."

What caused the Communist delegate to comment as he did was Dr. George's feeling on the "Speedy and unconditional end of colonialism." Dr. George was appointed by President Eisenhower in 1960 on her qualifications of a six-months' tour of Southeast Asia, Europe and West Africa, under the auspices of the State Department. Although the official United States position was to abstain on the voting of the resolution as did other nations, she could not restrain her feelings. She rose and applauded. Thus a Communist delegate saw a "rebel in the ranks."

Human welfare is a keyword in her life. On her tour, she had a capacity for making friends. Besides being a humanitarian she is a former Dean of Women at Tennessee State University. She holds a Ph.D. in Sociology from New York University; and she is a singer, as seen by her experience in the title role of "The Medium," an opera by Gian-Carlo Menotti.

As one college president said: "Dr. George is an extraordinary woman, a scholar, an artist and a human being. She is at once a message, a challenge and an inspiration."

## Freshman Class Holds Dance at Space Needle

On April 5, 1963 the Freshman Class of Highline College held its first dance at the top of the Space Needle from 9 to 12 with music provided by the Indigos.

The theme of the dance was "Spring on the Needle" and the cost of admission was \$1.25 per person which included a round trip ride to the top of the needle and back. President Steve Lough, Secretary Linda Kirschner, Glen Clark, Jennifer Thompson, Stephanie Dotson, Judy Stepper, Carol Marshall, Pam Salzmann and Linda Bray all worked extremely hard making programs and posters to make this first freshman class dance a success.

## Sophomore Class Planning Cruise

Sophomore Class President Doug Gorman has announced that the Sophomore Class is planning a cruise for students with 45 credits or more on a Sunday later in the quarter.

The boat will take them up north and the students will spend an enjoyable Sunday at one of the islands around Victoria or Vancouver. Helping Doug on this excursion is Howard Hauser, Harvey Morris, Moe Haymaker, and Pat Berude.

The Sophomore Class also has purchased a gift to be presented to the student body and faculty later in the year as a token of their appreciation for two wonderful years at Highline College.

Excuse me, I'm looking for a new frontier, and I was wondering if...

Addition to Staff

## Data Processing Program Approved

A two year program in Data Processing will be offered at Highline College starting September of 1963 following authorization by the Highline School Board, according to Dr. M. A. Allen, president.

This is a broad scale program preparing students for business applications of data processing as well as engineering and research approaches.

Dr. Allen said, "I think this two-pronged approach is particularly appropriate for our area because there is need for both kinds of service to business, industry and the community."

The college is completing arrangements for leasing a computer 1620 and its auxiliary equipment and is now considering applications for instructors.

This is a high grade, intensive two year program including the theoretical as well as the practical background to data processing.

Presently enrolled students who are interested should watch the Daily Bulletin for further information. The college is now considering methods of student selection.

## Cartoon Character Joins Thunder-Word

Dr. S. P. Patterson, Dean of Correction at Lowline College, will be appearing in The Thunder-Word starting with this issue. Dr. Patterson is a conglomeration of various people spotted around campus by our witty staff cartoonist (?) Ken Adams.

The Dr. Patterson series will continue as long as the student body and the faculty do not recognize themselves in the cartoon ideas and/or do not tar and feather the cartoonist.

The Dr. Patterson series there will be no international, national, state, local or personal problems solved; however, if there is a light side to anything you may expect good natured fun to be poked at it.

## Shakespeare Play Planned for May

The play The Taming of the Shrew by William Shakespeare is being produced by the night class in beginning drama (Drama 110) in conjunction with the Burien Workshop Theater. Spiced in Italian language, it is a complex of three stories directed by Wally Clark, drama and debate instructor at Evergreen High School. It will be staged at Evergreen May 22 through the 25.

## HIGHLINE COLLEGE THUNDER-WORD

Official newspaper of Highline College. Printed monthly and produced by the Journalism class. Address: 2634 S. 142nd Street, Seattle 98, Wash.

Editor: Sherry LaCombe  
Sports Editor: Dick Peterson  
Photographer: Tom Oakley  
Advertising Manager: Larry Knutsen  
Business Manager: Suzanne Berg  
Reporters: Betty Berg, Tom Carlson, Linda Coe, Elizabeth Donofrio, Tom Fordham, Susan Humphrey, Gary Kallio, Joyce Dortero, Joe Mirante, Larry Knutsen, Eva Otteson, Charles Ponder, Charles See, George Stephens, Guna Purvinskis, James Wendfeldt, Ron Siegel, Joan Emery, Roy Schaefer.

### We're Proud of You

There are many reasons why Highline College has risen from the immature infant it was to the educated adult which is now about ready to graduate its first graduating class. One of the most important reasons for this growth and maturity is the group of students who are about ready to graduate in June.

When these graduating students first came to Highline, there were no established forms of student government, there were no clubs, and there were no social activities in which one could leisurely participate. These new students had before them the challenge of establishing and starting these activities. It was with these students' great effort and enthusiasm, along with their advisors, that we now have the student government and activities that many new students take for granted when they enter Highline College.

Although there may be some faults with our present form of student government and at times an unwarranted lack of activities, the following years will be easier for our future leaders because of the ground work laid down by our graduating class.

We of the Thunder-Word would like to salute the graduating class of Highline College, and say to them in a most humble and appreciative way, "well done."

### Don't Let Spring Lower Grades

Spring is here once again bringing beauty and warm weather. It is a time when we like to think about summer and all the fun we're going to have. Spring is also the time when we like to begin our outdoor activities and it's a time when we begin to be careless about attending class and making sure our homework gets done.

Just because summer is getting closer doesn't mean school work is less important and that we can take an early vacation from this work. Remember, going to school is our job.

Spring quarter like every quarter is very important to the career minded student, for the grades obtained this quarter count just as much in your grade point average. In fact, this may be a good time to bring up that low grade point so that when vacation comes you can leave school with a feeling of accomplishment and satisfaction.

So let's get busy and attend class, do our home work and then have our fun. Our goal is 4.0 grade average.

### LETTER TO THE EDITOR

It has happened! There is now forming on campus an opposition group . . . a group to oppose the Young Democrats, who will not find such easy going, when the dedicated Republicans challenge the college's one party system.

The Young Republicans, once on their way, will provide for interesting campus politics. That is the politics will be interesting if the young Democrats can meet a challenge. The campus Democrats will have to give up the monopoly that they have held over the rest of the students, and make room for what should be the most "democratic" group on campus.

The Young Democrats have been sitting with nothing to do, and it appears that they have wanted nothing to do; but now that there is a group which will challenge them on their own ground, we shall be most interested to see what the Democrats "party of the future" has to offer.

#### FOR SALE

Have portable electric typewriter. Less than a year old. \$90 or best offer. CH. 4-4628 evenings

### The Sea of Life

by Susan Dansenburg

The sea. All day she could hear it as it roared and slashed against the rocks. When she was young, she had played in the sea, along its sandy beaches, in the pounding surf. She had grown up by that same sea, seeing it in all its moods and seeing in it herself as well, reflected in its changing patterns.

When she married, it was in a church overlooking this sea. She remembered how calm and serene it had been that day—with the blue sky overhead and the gulls, white specks against that sky, screaming as they gracefully winged their way over the harbor, occasionally dipping downward to catch in their beaks a silvery, flapping fish. How tall her husband had been that day—how straight. He made his living from that sea—which would now support them both.

Her two sons—slim, ruddy, handsome lads—had been born in a house by this sea. They, too, had frolicked in the same surf, examined the wings of the gulls which were found dead on the beach, collected rocks and driftwood, and angered the crabs just to see them run sideways over the sand to hide beneath a rock, leaving a funny path behind them.

The sea. It had given her birth and happiness. It had also brought sorrow—the sorrow only felt when those we love are removed from our sides in the bloom of health. So it happened. When the storm clouds had piled up that day, she hadn't worried. But as the storm mounted and grew and still no sign was seen, she prayed, as never before, that they might return. Their bodies were swept ashore a few hours later, to be buried by the sea that had given them birth, and death.

Now she sat, day in and day out, looking out at the sea—her sea. For that sea—that calm, quiet, riotous, wild, angry sea—belonged to her. She knew it as no one else could. She sensed its every mood, for she was merely an extension of the sea itself.

She closed her eyes and reclined, her now-frail body relaxed, in her chair. Even then she could sense the sea—feel it, hate it, love it. The cloud of Sleep hovered over her, then fell and she was engulfed.

The sea was calm once again.

### Drama Program

Miss Shirley Robertson's Drama 110 Theater class is busily engaged in preparing a program to be presented this quarter. The program will illustrate the different stages and training of an actor. The class is learning acting techniques, make-up, costuming, lighting procedures, and scene construction, in preparation for their program, "A Play Is Born."

### Activities Council Salute

Highline College has a somewhat unrecognized but quite obvious organization on its campus. It is the Highline College Activities Council under the advisement of Mr. William Shawl, who has been doing an excellent job.

This organization is one of the most important on campus for it plans and ok's all the events which the various organizations of the school want to sponsor.

The Council takes great pains in "oking" only the highest selected events planned for the school. It is the voice of the school and its students and run by the students.

This organization deserves a lot of credit so let's give them the due credit they deserve for the excellent job that they have done in bettering our school in many ways.

Mr. Perry Mitchell, Director of Institutional Research, Central Washington State College, Ellensburg, Washington, will be on the campus April 15, 1963, at 9:00 A.M. to meet with students who are interested in attending Central during the next year. The meeting will be held in the Glacier High School Multi-Purpose room.

Dr. Frederic T. Giles, Professor of Higher Education at the University of Washington, will be on the campus April 17, 1963, at 9:30 A.M. to meet with students who are planning to transfer to the U of W in the future. The meeting will be held in the Glacier High School Multi-Purpose room.

Advice to young men in love: never tell the girl you are unworthy of her. Let that come later as a complete surprise.

Genius is the ability to evade work by doing something right the first time.

### CAMPUS CROWD

Alice Nikula is a very industrious student and along with this quality has a bubbly personality.

This will be her third quarter at Highline and she says she enjoys it. She likes the personal relationship here, not only with the students, but also with the teachers.

Alice is going into the field of psychology and her minor is English. Her future plans include going to the University of Washington where she plans to get a doctorate in psychology. She carries an above average amount of credits and will become a sophomore next fall.

She is employed part-time at the Marilyn Hotel as a receptionist and hopes to be employed at a mental hospital this summer.

Alice has many hobbies which include: painting, sewing, reading, water skiing and tennis.

She is a graduate of West Seattle High School in '62.

This issue "Campus Crowd" is interviewing Jim Halte. Jim, who stands 6'3", was a great help to this year's Highline basketball.

Jim graduated from Kent High School with the class of '61. He also played basketball for Kent where he also did a fine job.

He enjoys Highline and thinks it eventually will be a well known junior college. He said he thinks the faculty is excellent.

Jim has a part-time job at Highline College as a custodian and also another job at a local drive-in theater.

He has many hobbies including swimming and other water activities.

He enjoyed being on Highline's first basketball team. He joined the team in Winter Quarter. He transferred to Highline from the University of Idaho.

He plans to return to Idaho either next year or the following year.

## SPORTS GAB

By DICK PETERSON

Sports Editor, Highline College Thunder-Word  
The Highline College Thunderbirds, opened their 1963 track season, with a decisive 68-41 victory over Centralia Junior College. Dick Layzell and Fred Miller, who were standouts on the

Highline: Jim Schuppel, former Sealth track star, who won the ¼ mile run and the 660, Morrie Williams, who captured the 100 and 200 yd. dashes.

Well, the Columbia Basin Hawks have won another state junior college conference championship. It is only their sixth basketball title in the last seven years, not too bad for a college. That makes two trophies the Hawks have already put away this year. Columbia Basin also won the state junior college football title, and appears to have a good chance of winning the baseball title, too. They beat the University of Idaho varsity baseball team two weeks ago and have whipped some other major colleges also this season. (Highline College has not yet reached the stage where they could sponsor a baseball team).

Columbia Basin won the hoop title by winning the third game in the best two-out-of-three games against Olympic. Columbia Basin won the first game, then dropped the second game, but they came back to score a victory in the third game and thus captured the title.

Terry Easter almost put on a one-man show for Olympic by scoring 36 points in one game and 41 in another. Bob Antulov was the big gun for Columbia Basin in the playoffs and for the season, and in the process broke the Columbia Basin scoring record which was set by Waverly Davis in the 60-61 season. This is the same Davis who played for Seattle University this season. Incidentally, chances are very good that Bob Antulov will be wearing a Seattle uniform next hoop season.

Going back to basketball, the Washington Junior College Conference all-star team was announced recently with two players from Columbia Basin on the first five. Highline did not place any players on the first two teams.

The Basin boys on the first team were Bob Antulov, 6-7 sophomore, and Jerry Skafte, a 5-10 freshman. Others on the first team were Chuck Hepworth, a 6-6 sophomore from Grays Harbor; Jim Hunter, a 6-0 sophomore from Olympic, and Lowell Scott, a 6-6 sophomore from Skagit Valley who may be headed back to the U of W next year.

The second team consisted of Mike Havener, 6-4 sophomore from Yakima; Terry Easter, 6-3 sophomore from Olympic; Steve Strojna, 6-4 sophomore from Everett; Mike Smith, 5-11 freshman from Centralia, and Howard Nagle, 5-11 freshman from Clark.

### Highline Track And Field Schedule

April 11—Yakima Invitational at Yakima.

April 20—At Olympia J. C. (South Kitsap High School Track).

April 25—Everett J. C. Relays

at Everett.  
May 2—Open (to be scheduled).  
May 9—Open (to be scheduled).  
May 18—Northern Division at Everett, 1:00.  
May 25—Washington State Junior College Conference Meet, Highline Memorial Field.

### Thunderbirds Win Opening Track Meet

Between hail and rain storms the high-flying Thunderbirds beat the Centralia Trailblazers, in the opening track meet of the season, by a score of 68 to 41.

Highline had three double winners. They were Morrie Williams in the 100 and 220-yard dashes, Dick Layzell in the shot put and the discus, and Jim Schuppel in the three-quarter mile run and the 660-yard run.

The outstanding event for the Trailblazers was Steve Turnow in the high jump. He won the event with a jump of 6'1".

Highline vs. Centralia  
First three places. First place 5 points, 2nd 3 points and 3rd 1 point. Winning figures.

## Bowling Tourney Ends in Tie

Intramural Bowling for the winter quarter came to a dramatic and exciting end as the final standings showed a three-way tie for first-place honors. The first two places were finally determined by a sudden-death extra game.

The "Finks Inc." endured the onslaught and finished in first place while the "Alley Oops!" edged out the "Playboy's" for the second-place standing by a mere six pins.

The "Finks Inc." team was lead by Wally Wheatman and had Jo Ann Stocker, John Thomas, and Len Florito as team members. Bonnie Smith was the captain of the "Alley Oops!" and had Ira Falkin, Tom Colello, and Bob Dierst as team members.

Donna Lamoreaux finished as the high woman bowler with an average of 146. This was the second time in a row that Donna has taken the high women's average bowling trophy.

Tom Carlson took home the men's high average trophy after outlasting the threat of John Thomas who had bowled a two-game series of 411 to come within five pins of tying Tom for the trophy. Tom Carlson and John Thomas both finished the season with a 181 average.

The final standings for the Intramural Bowling League for the winter were as follows:

Team	Won	Lost
"Finks Inc."	18	9
"Alley Oops!"	18	9
"Playboy's"	18	9
"Strikeouts"	17	10
"Dairies Berries"	16	11
"Untouchables"	13	14
"The Worms"	12	15
"Come Back Wahines"	10	17
Team No. 6	7	20
"The Egheds"	6	21

The "Playboy's" held the honors of having the high game and high series scores of 1337 pins for the high series and 710 pins for the high single game.

Tom Carlson held the high two-game series of 428 pins while John Thomas held the high single game of 242 pins.

### Highline Coeds Place Sixth in Pin Tournament

Five girls from Highline College attended the Fifth Annual Northwest District Women's Intercollegiate Bowling Tournament which was held in Ellensburg on March 29 and 30.

The girls, Donna Lamoreaux, Joan Emery, Bonnie Morissette, Bonnie Smith and Nancy McIntosh, were chosen to represent Highline by having the five highest women's averages in the Highline College Bowling League.

In the final standings, Highline placed sixth in the all-events finals. Columbia Basin Junior College placed first.

High doubles was won by two girls from the University of Oregon and high singles was won by a girl from Washington State University.

Twelve schools participated in the tournament. They were Wenatchee Junior College, Columbia Basin Junior College, Central Washington State, Washington State University, University of Washington, University of Idaho, Holy Names, Highline Junior College, Montana State College, University of Oregon, Oregon State University and Portland State.

Next year the tournament will be held in Oregon.

### Golf Season

#### Features 8 Teams

The intramural golf season was launched last week with fourteen students and two faculty participants. They will play at Foster Golf Links on Fridays.

Norman Metcalfe is student manager and Robert Powell, faculty advisor.

The intramural teams include Gerry Stanford and Norm Metcalfe; Larry Tarpley and Dave Dotten; Gene Barnett and Steve Squires; Bob Noble and Mike Nolan; Dan Salway and Ken Martin; Wally Wheatman and Len Florito; Eddie Dean and Dave Michelson; Grant McAlexander and Robert Powell.

### Spring Bowling Has Ten Teams

Intramural Bowling got off to a fast and blistering pace as the spring quarter bowling league got under way on April 1st at Olympic Bowling Lanes. Although many of the old faces were missing, enough new students enrolled so that there is a full schedule of ten four-man teams.

The men set up a fast pace as four bowlers bowled games of over 200. Gerald Julian was high with a 222, followed by John Thomas's 212, Tom Carlson's 207, and Wally Wheatman's 203.

Donna Lamoreaux set the pace for the women to follow by bowling a 334 series which will give her a 187 average. It looks like she wants to get that high-average trophy for the third time in a row.

The "Egheds" (alias "the Teachers") have started out the season by challenging the "Finks Inc." and the "Come Back Wahines" for first place.

The Highline College Chorus has been chosen to sing for the Community's Easter sunrise services at Riverfront Crest Cemetery at 6 a.m. Easter Sunday, according to Dr. Paul Oncley, conductor. They will sing two selections from Handel's Messiah: "Since by Man Cometh Death" and the "Halleluia Chorus."

### Education Club Sends Delegates

On April 6, Highline College's Student Washington Education Association club sent a chapter delegation to attend the 1963 Student WEA State Convention which was held this year at Seattle Pacific College. The main theme of the convention was the question "What is the Destiny of the Liberal Arts?"

Delegates to the convention considered the immediate effect on the liberal arts in education and teacher training, and the trend towards specialization and technology. They also listened to the opinions of prominent speakers concerning the various aspects of this question. Other important business conducted at the convention included the election of the 1963-64 state officers and discussion on several WEA constitution revisions.

Don't go to extremes; stay in the middle of the road. Always be optimistic.

### Five Faculty Given New Posts

Five divisional chairmen have been appointed for Highline College, according to Dr. M. A. Allan, president. These chairmen will head the instructional divisions of the college under a plan of organization approved by the Highline School District board of directors.

Heading the Division of Humanities is Robert Neuen-schwander. He was coordinator of communications. Larry Blake heads the Division of Applied Sciences. Blake will also coordinate activities of all divisions which relate to occupa-

### U of W Offers Fresh Scholarship

The School of Communications, University of Washington, is again announcing its annual \$1400 scholarship for an incoming freshman who wishes to major in editorial journalism.

The scholarship winner receives a \$1400 grant which covers four years of college work. He will receive \$200 his first year, \$300 the second year, \$400 the third year and \$500 the fourth year. All the money which goes into this scholarship grant has come from newspaper sources.

Any young man graduating from high school, who will be entering the University of Washington as a freshman in the fall of 1963, is eligible to compete for the \$1400 scholarship award. Students applying must have maintained a 3.5 grade point during their high school career and plan to make a career in editorial journalism.

The five finalists selected from the applicants will be invited to Seattle for personal interviews before a panel representing the School of Communications, Allied Daily Newspapers and the Washington Newspaper Publishers Association.

Scholarship applications are available only at newspapers throughout the state. Notices of this scholarship will be sent to all high schools in the state.

Applications must be received at the University of Washington no later than May 15. They must be forwarded to:

Communications Scholarships School of Communications at the University of Washington Seattle 5, Washington

Last year's winners were Timothy Innes of Puyallup sponsored by the Tacoma News Tribune and David Fields of Mountlake Terrace sponsored by the Edmonds Tribune-Review.

tional programs now being developed in the college. Dr. Paul Jacobson is chairman of the Division of Natural Sciences. Wendell Phillips is chairman of the Division of Social Sciences. The Division of Health and Physical Education will be headed by Everett Woodward.

An intellectual person is one who is so smart that he doesn't understand the obvious.

### Begin Your Plans For Spring Ball

Now is the time to begin making your plans for the biggest dance of the year, the Spring Ball, which will be held in the Olympic Bowl at the Olympic Hotel. The Ball will be held from 8:00 p. m. to 12:30 on Saturday, May 18. Students are invited to wear either formal or semi-formal dress.

Tickets will cost \$11 which will include a dinner of meats, toast, French rolls, dungeness crack cocktail supreme, celery en branche, roast prime rib of beef au jus, new garden peas, coquille potato, mixed green salad, strawberry parfait and coffee, tea and milk.

A before-dinner punch will be served from 8:30 to 9:00. The dinner will be served from 9:00 to 10:00.

After the dinner hour students will dance the rest of the evening to the music of the Tempos.

A photographer will be present to take pictures if so desired.

Heading the decoration committee is Jim Hunter and the publicity is being handled by Connie Crawford. Donna Lamoneaux is taking care of invitations.

### Mrs. Hall Joins Panel

Mrs. Carol Hall, Highline College English instructor and author of *Portrait of Your Niece*; Nelson Bently, professor at the University of Washington and editor of *Poetry Northwest*; and Phillip Dunlap, visiting lecturer at the University of Washington and poet from England will appear in a panel discussion on Channel 9 (live television) on April 16 at 9:30 p.m.

The panel will be a part of the Champions of Literature series sponsored by the Seattle Public Library.

"Traveling Through the Dark," William Stafford's National Award winning book of poetry, will be the subject of discussion. The panel plans to go over this book in quite close detail.

### Young Republicans Form a Club

A new club was born—The Young Republicans' Club is now a part of Highline College. Mr. Forrest Price is the advisor.

Bill Rudd and Bundy Clausen have been nominated for temporary chairman and secretary. The main objective of the organization is to be educational. Projects will include speakers, debates with the Highline College Young Democrats, and an opportunity for everyone to learn more about the party.

The constitution committee includes Bill Rudd, Bob Loe, Gerry DeLorenzo, Larry Cobb and Sid Stern.

The club hopes to get Dick Christiansen soon for a speaker. He has been rumored to be a possible candidate for governor. Tentative plans call for a meeting on April 18.

### Boeing Guests Provide Program

"Have fun and enjoy doing exciting things." The preceding idea was expressed by Mr. Ken Parker and Mr. Bob Yoeman while discussing Electrical Engineering before the Future Engineers Club at Highline College April 3.

Mr. Bob Yoeman, a graduate from the University of Washington, did research work at MIT during World War II and is presently employed by Boeing. Mr. Ken Parker is also a graduate from the University of Washington. He now works for Pacific Northwest Bell.

How Electrical Engineering is involved with computing machines, educational TV and defense were discussed. It was also pointed out that this phase of engineering is very abstract which means there is much research work. Mr. Parker said, "Electrical Engineering has had an impact on our standard of living . . . and is a rapidly expanding field." English is very basic in Electrical Engineering because much paper work is done while doing research work.

After the discussion the regular meeting of the Future Engineers was held. A tour of Ross Dam will be held on April 27. The group will be taken on a personally-directed tour through the powerhouse.

### Magazine Started For High School Writings

Approximately ten professional writers around the area, including Mrs. Carol Hall, Highline College English instructor and Miss Betty Strehlau, journalism instructor, have been asked to participate in selecting writings for a magazine.

The magazine, to be published by the Highline Public School District, will contain the best writings of the junior and senior high school students. There will be short stories, poems, essays, paragraphs, book reviews—and any and all literary work that will demonstrate the students' facility with the written word. The district wants the parents and total community to know that the students can and do write with beauty, clarity, and imagination.

Each grade will be judged as a separate unit. Approximately 100 writings have been selected from preliminary screenings, probably 40 writings will be published in the magazine. Final selection time should not exceed four hours.

### Orientation Held for 105 New Students

College is a place to have fun, find a husband, and to learn. To learn what? —a way to make a living, to live better, and about oneself.

This is a part of the philosophy of a junior college as expressed by President M. A. Allan in his opening address to 105 students gathered in the multi-purpose room on Monday, March 25. These students are attending Highline College for the first time this quarter.

"By 1964 there should be 2,000 full time students," predicted Carl Jensen, Superintendent of the Highline School District. He said that he was pleased by the way in which the students have been accepting limitations.

Mr. Charles Carpenter, Dean of Instruction, urged them not to be misled by the casual appearance of the portables and facilities. The instructors are good in their respective fields and anxious to teach. Each instructor has office hours posted. Feel free to make use of these hours.

He warned them not to bite off more than they could chew. "Two hours of preparation should be used for each hour in class."

"Two heads are better than one, except when they are on one pair of shoulders," said Mrs. Carol Hall, referring, of course, to the counselling system. "We are prepared for those that have no plans or for those that know what they want."

### New Students Meet Activities Council

Mr. William Shawl, coordinator of student activities introduced the Activities Council who then conducted a mock meeting before the assemblage.

Among those introduced were A.S.B. President Bob Noble, A.S.B. Vice-President Dan Ursino, and A.S.B. Secretary JonAnn Stecker. A.S.B. Treasurer Steve Conner was not present. Steve Lough, freshman president, was on hand to initiate talk on the April 5 Space Needle Dance, but no other freshman or sophomore officers showed up. The standing committees were represented by Doreene Quealey, Social Committee, and Pat Berude, Publicity Committee. The cheer staff, consisting of two girls and one boy, was not represented.

Each club may send one delegate to the Activities Council. Clubs present for this meeting were:

(1) The Foreign Language Club—one of two clubs formed last year and represented by Elicia White.

(2) The Young Democrats Club—also formed last year and in affiliation with the Democratic Party. Representative for this club was Diane Huddleston.

(3) The Ski Club—Represented by Bud Wilder and specializing in spaghetti dinners and ski trips.

(4) W.E.A.—the teachers club represented by Pat Huttenmaier.

(5) Intramurals—a quickly expanding field represented by George Valison.

(6) Newspaper Staff—in connection with the journalism class and represented by Sherry LaCombe.

Clubs not represented were the Engineering Club, Science Club, Creative Writing Club, and the Co-arts Club.

The purpose of the Activities Council as an organization is to coordinate student functions and to make recommendations to the Executive Council.

It is made up of 25 or 26 members when all are present.
