ANGRY! What I think was brought on more by guilty conscience than bulletin-reader board. It is a good idea, but we will have to wait.

Let's Grow Up

The greatest lack yet of communication is with the night student. One of the biggest improvements in communications is the night student lounge. The A.W. president, wrote a letter to the editor in a strong retort to remarks that he, the student, could do such a thing. Teenagers and young people everywhere suffer for acts as dumb as this.

I C. C. Decision Valid?

We, the members of the board of directors of the Inter-Council Council, decided to pass a motion that a sportsmanship trophy would be given to the winning team of each event. The motion was passed. As it then stands, a sportsmanship trophy would be given and the referees would judge the participants on the basis of conduct, language, and the giving of a sportsmanship trophy. The motion was passed.

Are You the Kind of Person...

...who can watch the news on TV and not be affected by what is happening? Who can hear the news but not be upset by the actions of others? Who can listen to the news but not be moved by the events that are taking place? If you are, then you are not a true American. You are not someone who cares about the world around you. You are not someone who wants to make a difference. You are not someone who wants to help others. You are not a true American. You are not someone who is concerned about the well-being of others. You are not a true American. You are not someone who wants to be part of a community. You are not a true American. You are not someone who wants to contribute to society. You are not a true American.

Nursing Program Starts in 1964
At Our College

The demand for registered nurses far exceeds the ability of local and national education institutions to prepare both men and women for careers as registered nurses. The purpose of the associate degree nursing program was given of the program of studies, the theory obtained in the classroom, practical experience acquired through supervised clinical practice in hospitals, clinics, doctors' offices, and nursing homes.

The new program leading to an Associate Degree will be in- stalled at the beginning of the fall semester, and the practical application will be completed by the end of the following spring term. The program will take approximately two years.

For more information about the program, interested students are invited to call Mrs. Brown at the college.

The ski club which is open to all students, held its first meeting of the year last Monday night in the Student Union. According to President Clausen, the ski club members are planning a Ski Trip to Snowbird Park during February.

With the ski club's plans in mind, President Clausen announced that there will be no ski trip to Snowbird Park during the summer months.

In order to maintain the club's goals of promoting the sport of skiing and providing opportunities for students to enjoy the outdoors, the ski club has decided to cancel the summer trip.

President Clausen expressed his disappointment with the decision, saying that the club had planned extensively for the summer ski trip and had received support from the community.

However, he praised the ski club members for their hard work and dedication to promoting skiing. He encouraged them to continue their efforts to promote the sport and to consider alternative ways to engage with the community, such as through community service projects or other outdoor activities.

President Clausen also emphasized the need for the ski club to focus on building a strong foundation for the club's future, rather than setting unrealistic expectations for the summer trip.

He encouraged the club members to continue their efforts to promote skiing and to consider alternative ways to engage with the community, such as through community service projects or other outdoor activities.
