Meet Your Secretary: Diane Skutley
The Physics Department of Highline College has recently acquired a new Analog Computer. This computer, which is capable of solving differential equations, is housed in a large mobile rack and is capable of solving problems in physics and mathematics. The computer will be used in the flight simulation center of the Airplane Division. The computer, donated by the Defense Education Act program of the federal government, has been purchased entirely of mirrors with Cassegrain optics. The primary mirror is 32 inches in diameter, and the focal length is 144 inches. The clock drive, which allows the computer to follow the stars, is driven by a generator donated by the Washington State Employment Security Department.

A number of electronic inputs for the computer will be needed to supplement the control unit and to implement the analog computer with the central project. The central project, which involves the development of a new electronic control system for the flight simulation center, is being supervised by Mr. Thomas Wanbock, the group leader for the special projects team.

The Physics Department has recently purchased a 35mm camera for astronomical photography. The camera, which will be used with the telescope for locating and photographing the stars, will be available to students interested in astronomy.

The Physics Department has also purchased a returning control unit to implement the central project. The returning control unit, which allows the computer to be used in conjunction with the central project, is being supervised by Mr. Lloyd Omura, the group leader for the special projects team.

Moors Tells Of Britain

Lynn Moore, from London, England, and a student at Highline College, recently spoke during Dedication Week as a part of the Lecture Series. She addressed the topic of “The Differences Between American and English People.”

Moore pointed out that England is a much “smaller” place than America and that people in England are older and more serious. She also noted that Americans have more “opportunities” and there is more freedom in America.

On the matter of schools, Moore stated that the average English pupil leaves school at the age of 16 equivalent to a high school student here, and that only 5% of the women in England go on to college. There are very few career women in England.

Moore also mentioned differences in music preferences. The English enjoy more theater and “Pubs” are quite the thing in England. Pubs are open yesterday and rain.

The Shakespearean scenes were ended with a scene from “Hamlet,” stating that the average age in England is at a much “slower” growth rate compared to America. England is at a much “slower” growth rate compared to America. The third play from which the scene was taken was “King Henry VIII,” in which Hamlet, played by Roderick Lovell, accosts his mother, the Queen of Denmark, Hamlet, of the death of her father. The scene was closed with a scene from the play “Julius Caesar.”

The Shakespearean scenes were ended with a scene from George Bernard Shaw’s “The Devil’s Disciple.”

The over all performances were made more enjoyable by Roderick Lovell’s will and his expressive voice. There were approximately 300 well satisfied people in attendance.

British Couple Has Full House

Hannah Weit and Roderick Lovell, prominent British stars, played in an overflow house with their performance of scenes from Shakespeare entitled, “Thos Are Four,” at 8 p.m. on February 9 in the Lecture Hall.

The performance included scenes from “Hamlet,” “As You Like It,” “King Henry VIII,” and “Macbeth.” The performance concluded with the play “Villages Wooling,” a play by England’s youngest Twentieth Century playwright, George Bernard Shaw.

Gov. Dan Evans takes the podium at Highline College

Sunday, thru Thursday—6 a.m. to 12:30 a.m.
Two Big Games

In the first half, the Thunderbirds were led by a strong performance from the team, with the high scorer for the game being Acena with 12 points. The high scorer for the Olymic College was Butch Williams with 28 points. The Cards led the Thunderbirds by a 45-38 margin at halftime.

In the second half, the Thunderbirds continued their domination of the game, outrebounding and hitting 25-28 from the field while Olympic shot 19-27 and 38% from the field. Highline hit only 9-18 while Olympic College shot 71%.

The high scorer for the Olymic College was Butch Williams with 28 points, while Acena and Ed Erikson each scored 12 points. While Ed Erikson with 27 points was Highline's top scorer. In the second series, Olympic College downed the Thunderbirds by a 45-38 margin, with the high scorer being Acena with 10 points and one with 9 points, but that the Highline was played on Feb. 12, which 50%.

January Games Show Split — By Mark Mathis

Thunderbirds played the Seattle University “Frosh,” and the University of Washington “Frosh,” respectively. Then the Thunderbirds played the Seattle University “Frosh,” and lost by scores of 74-58 and 50-25, respectively. Then the Thunderbirds played the University of Washington “Frosh,” and defeated them 97-70.

In the T-Birds’ second game of the season, they faced off against the Shoreline Community College and defeated them 216-97. In the T-Birds’ third game, they faced off against the Highline Community College and defeated them 240-121. In the T-Birds’ fourth game, they faced off against the Clatsop Community College and defeated them 159-121.

The Thunderbirds played four games in total, and won all four games.

Intramurals In Tight Fight

The end of the Thunderbirds’ basketball season is almost here, and the team is looking to bring home a victory. In their final game, they are facing a tough opponent, the Thundermen. The Thunderbirds are currently in first place in the Northern Division of the American League, with a 5-3 league record. The Thundermen are in second place, with a 4-4 league record.

The Thunderbirds led by 20 points in the first half, 40-20, and were able to maintain their lead throughout the game. The Thundermen fought back in the second half, but the Thunderbirds were able to hold on for a 97-70 victory.

The Thunderbirds are looking to end the season on a high note, and are working hard to prepare for their final game.

The Thunderbirds are in second place in the Northern Division of the American League, with a 4-4 league record. The Thundermen are in third place, with a 3-5 league record.

In their final game, the Thunderbirds faced off against the Thundermen. The Thunderbirds led by 20 points in the first half, 40-20, and were able to maintain their lead throughout the game. The Thundermen fought back in the second half, but the Thunderbirds were able to hold on for a 97-70 victory.

The Thunderbirds are looking to end the season on a high note, and are working hard to prepare for their final game.
Meet Your Treasurer: L. Cella

Treasurer is Louie Cella. He is Accounting body. Louie obtained his office last Spring by the student of our college. Last year he was elected treasurer of the Humanities Department. Louie is currently handling the finances, especially the procurement of the funds. Louie is known for his knowledge of budgeting and bookkeeping.

Meet I. C. C.: Patty Springer

New Classes For Spring

Degree is Important

A college degree is required for many jobs at Boeing; most require some college work. It appears evident that a college education is important for a foundation in business, he stated. He added that working with a company helps one to be able to judge, evaluate and solve human problems. A college degree is required for many jobs at Boeing; most require some college work.

In regard to programs that interest is prevalent in order to deal fairly with the demands of his future employer. It appears evident that a college education is important for a foundation in business, he stated. He added that working with a company helps one to be able to judge, evaluate and solve human problems. A college degree is required for many jobs at Boeing; most require some college work.
