Editorial Policy . . .

Meet Your A.S.B. Officers

To avoid any misunderstandings and to answer any questions which might arise concerning censorship in the Thunder-Word during the coming year, the following policies have been established.

1. Opinions expressed in the Thunder-Word are not necessarily the views of the administration or journalism advisors.
2. All letters to the editor must be signed. Initials will be used on request.
3. All letters will be published if there is space for them.
4. The editor reserves the right to edit any letter which is objectionable from the standpoint of legality, clarity, or correctness of facts.
5. Letters must be submitted (preferably typed) to the paper one week in advance. Letters can be turned in to B-37. Deadlines for copy will be announced in the paper and in the bulletin.
6. The paper will accept original works such as poems and essays from the student body. The editor, however, will not reject the work if it is written.

Any questions concerning the above policy can be directed to Denise Concolino, editor of the Thunder-Word.

A Letter To Freshmen

Welcome to Highline College. (Junior variety) on behalf of everyone here, we would like to introduce you to them. As you enter the world of higher education you should be uppermost in your minds and hearts. Keep Your Sense of Humor! As you have no doubt noticed, your introduction to this school during registration, you’ll need it.

For as everyone knows, if you can stand in line for X-rays, stand in line to register, stand in line to see your counselor, you can stand in line for anything. And as you know, it is possible to have a good time in line, and still manage to laugh when you get to the lady with the card class who tell you that you need to stand in line and you’ll have to take this repair and cake decorating, you’ll go far at this school. The trouble is to stop laughing before they carry you out.

As matriculated students, you are free to use all the wonderful facilities offered. There is a library to meet your friends, eat, sleep, study. It is newly constructed and open to use. No one will throw the library in your face, and you can wander around together. Most of the buildings on campus are new, as are the teachers, as things are likely to be hectic for a little while.

There will be classes that you will enjoy, and some that you will not enjoy, but you’re young enough to have fun. They’ll pass a rule against it.

Sincerely, One Who Knows.

A Second Year Freshman

Information-Student Deferments

The following procedures have been adopted by all of the community and junior colleges in the state of Washington. The procedures are still in the process of evolving; therefore, the following are subject to change. Information and changes will be placed in the college bulletin.

WHAT ARE THE REQUIREMENTS?

1. The student submits the Selective Service Form 100 to his draft board. Form 100 is available at registration time at the Selective Service Desk or in the Registrar’s Office. It is the student’s responsibility to submit this form to his local draft board.

2. The student submits the college with his selective service number in- cluded in his registration packet. He may turn the card in at the Selective Service Desk or in the Registrar’s Office within 39 days after his class begins. Providing the college with his selective service number indicates a request for deferment, permitting Highline College to certify his enrollment to the Selective Service System.

WHO WILL BE DEFERRED?

1. A first year student following the steps listed above is re- ported to the Selective Service System as a full-time student and will be deferred for one year.

2. At the end of one year the student may have 8 quarter credits to be deferred. The student will be reported to the Selective Service System as a full-time and deferred for a second year.

3. At the conclusion of the second year the student must have 8 quarter credits to be deferred for a third year; 12 credits for the fourth year.

WHAT IS THE RESPONSIBILITY OF THE TRANSFER STUDENT?

Highline College will notify the Selective Service System of the transfer's attendance only at this college. The student must supply to his local board a transcript of college credits re- ceived at other institutions.

WHAT GRADE POINT AVERAGE IS REQUIRED?

The student must satisfy High- line College scholastic requirements in- cluding the steps listed above to receive a deferment.

HOW WILL THE DEFERMENT BE APPLIED?

If, after obtaining a student deferment for reasons other than those for which the student has deferred, he may subsequently be drafted, his application for a deferment will be considered. If a deferment is granted, he will still be able to continue his studies at Highline College. If a deferment is denied, he will be required to serve in the armed forces.

GET ACQUAINTED TONIGHT FEATURING THE WAILERS. Nice to see a big name band on campus and the price is right too! Are we witnessing a new Highline College emerging in our midst?

A Second Year Freshman

And don’t forget filing for Freshman and Sophomore class offices will begin next week. Watch the daily bulletin for time and place.

Openings Available In Aquatic Arts

The new course, Aquatic Arts, is still open to student and local citizens according to Ev Woodward, chairman of Health and Recreation. The course is more familiarly identified as Synchronized Swimming, will be offered for the first time this quarter.

Those in intermediate or more advanced swimming are eligible. Regularly enrolled day students may add this course to their schedule today up to 5 p.m. Evening students may enroll up to 7 p.m. This is the time for this class officially as F.E. 101. See 19

HIGHLINE COLLEGE THUNDER-WORD

Wilson’s Reviews

LSD, by Timothy and others. The Psychadelic Experience; a manual for your classes just as useful as the textbooks your teachers. A real hit in the classroom. It shows how the top ten hits of the junior high school year are used in the classroom. It shows how the top ten hits of the junior high school year are used in the classroom.

Synchronized Swimming, simple but unique. For those interested in synchronized swimming, simple but unique. For those interested in synchronized swimming, simple but unique. For those interested in synchronized swimming. Not for those interested in synchronized swimming.

Major Dates To Know

September 28 p.m. September 29 p.m.

September 30 p.m. October 13 p.m. November 20

Contact us for more information.

Bits ‘N Pieces

Congratulations to the A.S.B. officers and all responsible for the Freshman orientation and campus tours. Shows what can be done with a little careful planning and good organization. Let’s see this good work continue.

As we approach the end of the third year, we look back on the past year. We have come a long way together. We have learned a lot. We have made a difference. And we are proud of what we have accomplished.

Hope this year will be as successful as the past year.

Highline Gets Grant to Set Up Learning Skills Center

A national learning skills center for college students was introduced to the public at a news conference held at the college. The center will be a place where students can go to improve their basic skills in areas such as reading, writing, and mathematics.

The center will be housed in a new building on the college campus. It will be open to students who need help with these basic skills, as well as to those who want to improve their abilities in these areas.

The center will be staffed by a team of experienced teachers and counselors who will work with students to develop individualized programs to help them improve their skills. Students will be able to use the center's resources, such as computers, videos, and books, to help them learn.

The center will be open from 9 a.m. to 9 p.m. Monday through Thursday, and from 9 a.m. to 5 p.m. on Friday.

New Teachers

Highline College has appointed a number of new teachers to its faculty. These new teachers will be working in a variety of areas, including mathematics, science, and humanities.

The new teachers include:

- Dr. J. Lloyd
- Dr. M. Foster
- Dr. R. Johnson
- Dr. L. Peterson
- Dr. S. White

Highline College is committed to providing a high-quality education for its students. The new faculty members will be an important part of this commitment.

11 New Buildings

Highline College has announced the construction of 11 new buildings on its campus. These buildings will be used for a variety of purposes, including classrooms, offices, and laboratories.

The new buildings will be located on the west side of the campus, adjacent to the main building. They will be designed to be energy-efficient and environmentally sustainable.

The new buildings will be open to students and faculty in the fall of 2023.
