**Letters to the Editor**

**Cliff And Bob — Something To Be Thankful For?**

With great gratitude this Thanksgiving, Highline College will be sending its appreciation to the citizens of the Puget Sound area who have contributed to the high school's programs.

The college has been able to expand its offerings of courses and programs due to the generous donations of our community.

This year, the college is offering new programs in areas such as business, engineering, and technology. These programs are made possible by the support of local businesses and organizations.

We would like to extend our thanks to all those who have contributed to the success of Highline College. Without your support, we would not be able to provide a high-quality education to our students.

**Highline’s Activities Council**

**An Adventure in Boredom**

With a large pool of students, many of whom are quite active, the Activities Council is always looking for new ideas to keep the student body engaged.

Recently, the council held a brainstorming session to come up with new activities for the upcoming semester. The goal was to find something that would be fun and exciting for everyone.

After much discussion, the council decided to host an annual Adventure in Boredom event. This event will feature outdoor activities such as hiking, camping, and kayaking.

The council is still looking for volunteers to help coordinate the event. If you are interested, please contact the Activities Council at (360) 496-7779.

**T-Ward Staff**

This week's T-Ward Staff is:

- **Addison Denton**
- **Amanda Blakely**
- **Alex Torres**
- **Alyssa Voss**
- **Adam Callahan**
- **Aubrey Harrison**

**Mature Student and Highline**

It’s not hard to imagine that a mature student, a high-level of energy in their daily life, could be a valuable member of the student body. The high school provides a challenging environment for students, but it can also offer the opportunity to learn from the experiences of others.

With the help of the mature student, the high school can provide a valuable perspective on the challenges faced by today's students. The mature student can serve as a role model for younger students, offering guidance and support.

The mature student can help create a more positive and inclusive environment for all students, encouraging a sense of community and inclusivity.

**Dates To Know**

- **Food Drive** — Dec. 1-6
- **Faculty Christmas Party** — Dec. 7
- **Holiday Market** — Dec. 11-15
Presenting Dr. Allan

BY JANET WARD
Highline College, a community college in the Seattle area, is the home of a visiting scholar, Dr. Allan. His presence has been a source of inspiration for the students and faculty here.

Dr. Allan has been a prominent figure in the world of education for many years. He is known for his innovative teaching methods and his dedication to the improvement of education. His lectures have been well-received, and his insights have been influential.

The visit of Dr. Allan has been a significant event for Highline College. It has provided an opportunity for students and faculty to learn from a distinguished scholar and to engage in meaningful discussions.

Kim Kwok Designs

Kim Kwok Designs

Kim Kwok Designs Own Suits, Dresses

by Dorothy Taylor

Kim Kwok Designs is a well-known clothing designer in the Seattle area. She has been designing custom suits and dresses for many years and has a reputation for her high-quality work.

Kim Kwok Designs is committed to providing customers with the best possible service. She takes pride in her work and is always willing to go the extra mile to ensure customer satisfaction.

Librarian Tech

Librarian Tech

A New Occupation

by M. J. Nelson

A new occupation has been created in the library field: Librarian Tech. This occupation combines the skills of a librarian with those of a technologist.

Librarian Tech will be responsible for maintaining the technology used in the library, including computers, software, and hardware.

This new occupation is expected to be in high demand as libraries continue to integrate technology into their operations.

Off The Record Quotes

A Source of Frustration

by Jan Montgomery

Off The Record Quotes is a popular column that features quotes from various public figures. The quotes are often humorous and provide a glimpse into the minds of the people they are attributed to.

The column is known for its ability to capture the essence of a quote and present it in a way that is both entertaining and informative.

Dr. Allan Holds Quarterly Forum

Dr. Allan Holds Quarterly Forum

Dr. Allan is a prominent figure in the world of education. He is known for his innovative teaching methods and his dedication to the improvement of education.

A quarterly forum was held at Highline College to discuss the benefits of online learning. The forum was well-attended and provided an opportunity for students and faculty to learn from Dr. Allan.

The forum covered a range of topics, including the advantages and disadvantages of online learning, the role of technology in education, and the future of educational technology.

Business Club Begins Making Plans For Year

Business Club Begins Making Plans For Year

Business Club is an organization that brings together students and faculty interested in business. The group meets regularly to discuss business-related topics and to plan events.

The Business Club is currently making plans for the upcoming year. The group is working on a variety of initiatives, including a business competition and a series of guest lectures.

Maxine Conrad, a sophomore, said, "I am going back to school economics. She feels what she is Maxine is taking her minor in rearing her own family. in a Chinese-style apron she had just bought at a town apparel shop. Jennifer feels that as the children share their ideas. She enjoys her child especially at dinner table discussions. Pat believes that the influence of violent television. Her parents are concerned about a career of elementary teaching. She thinks we will be losing anything fashionwise when they go out."
Arches Of Science Seminar Reviewed

By David Laffereque

Two departments and three faculty members of Highline College organized and sponsored the seminar on the Pacific Sciences of the World. The three departments in this case are Biology, Chemistry, and Physics. Each department presented one lecture each which dealt with topics in their respective fields. Each department had an expert who was invited to come from out of town to present the lecture. These topics included the origin of the earth, the birth of life, exploration of deep sea marines, and the use of sound waves in marine research. The seminar was well attended and received positive reviews from the audience. The seminar was a success and is expected to be repeated in the future.

Reader's Theatre Will Present Civil War Epic

The Highline College Reader's Theatre will present a Civil War Epic called "The Loyal Brown's Body." The play will be directed by Dr. John Brown, a renowned actor and director. The play will be performed in the theater located in the College Center. The performance will provide an opportunity for students to experience the history of the Civil War through drama and acting. The play is based on true events and is a historical account of the war. The performance will be a memorable experience for all who attend.

Evening School Makes Changes

Registration procedures for evening school at Highline College have been revised to allow students currently enrolled in evening classes to register in advance of new students. According to word received from Dr. Robert McFarland, Registrar.

The new procedure requires that students register in person, either on Monday, Tuesday, or Wednesday from 8:00 a.m. to 8:30 p.m. or from 8:30 p.m. to 9:00 p.m. Students may register in only evening classes.

The tougher restriction will allow the school to maintain a schedule that is more convenient for them. It will also allow the student more time to obtain registration signatures where required and to consult the advice of a counselor before they are legally bound. The new restrictions are intended to put all students on a fairer basis.

It is believed that these changes will result in a more efficient and effective system of registration.

Business Club Brings Dr. Norbert D. Einstein As Guest Speaker

Dr. Norbert D. Einstein, distinguished lecturer, economist, author and international affairs expert of the 20th century will be the featured speaker at the Business Club on Thursday, November 26. The club will meet at 12:00 noon in the Faculty Dining Room. The event will begin with a light lunch and will conclude with a question and answer session.

Dr. Einstein has been a leader in the field of economics and has been a frequent contributor to economic journals and newspapers. He has been a keynote speaker at numerous conferences and has written extensively on economic issues.

His talk will focus on contemporary economic issues and the role of international trade. He will also address the importance of education in the global economy and the challenges faced by emerging economies.

The event is open to all students and faculty members of Highline College. The Business Club is excited to have Dr. Einstein as its guest speaker and looks forward to a lively and informative discussion.
Air Pollution Problem
Growing in Area

By Dr. John Nelson

The increased number of automobiles and the growth of industry are believed to be the primary factors in the increase of air pollution in the area. According to a recent report by the Department of Health, the amount of pollutants in the air has doubled in the past ten years.

The report, which was based on a comprehensive study, found that the concentration of pollutants such as sulfur dioxide, nitrogen oxides, and particulate matter has steadily increased. These pollutants are believed to be responsible for a number of health problems, including respiratory illness, heart disease, and cancer.

The report also noted that the pollution problem is not limited to urban areas. Rural areas, which are often thought to be more pristine, also show a significant increase in pollutants.

The report recommends that measures be taken to reduce the amount of pollutants in the air. This includes reducing the number of automobiles on the road, increasing the use of public transportation, and investing in alternative energy sources.

Brouillet Comments on Impending Special Session of Legislature

By David Brouillet

Mr. Frank Brouillet, president of the Association of University Professors, has expressed concern about the upcoming special session of the Legislature. In a statement, Mr. Brouillet said, "We are concerned that the special session will be used to address only a narrow range of issues. We believe that a broader agenda is needed to address the pressing needs of the state."
Baisch Wins, 
HC Takes 3rd

Joe Baisch of Highline, the defending All-division 
player, took first place at the Highline Invitational 
meet this weekend. The meet was held at Alpental 
Ski Resort outside Seattle, and Baisch finished with a 
time of 15:02, just three seconds ahead of second place 
finisher, Frank Hamlin. The rest of the top ten finishers 

Alpental Ski Resort
To Be Open Soon

The Alpental Ski Resort, located just outside Seattle, 
will be opening soon for the winter season. The resort 
features an area that is virtually unlimited for skiing 
and snowboarding. The slopes are designed to cater 
to the expert, and also have a wall to wall area for 
beginners. There are several lifts, including a double 
lift and a triple lift, that make getting to the top of the 
slopes quick and easy. The resort also offers a variety 
of shop and store services, including a ski shop, rental 
center, and a restaurant.

T-Birds, Sams Clash

The Thunderbirds and the Saberhawks will be 
clashing this weekend at the T-Birds and Saberhawks 
Invitational. The meet will be held at the Alpental 
Ski Resort, and is expected to draw a large crowd of 
spectators. The meet will feature some of the top 
runners from the area, including Joe Baisch, Frank 
Hamlin, and Jack Pyle. The meet is a great opportunity 
for these runners to showcase their skills and compete 
against each other.

Opening the basketball season, the T-Birds will 
clash with the Saberhawks for the top spot in the 
Western Division of the North Puget Sound League. 
Last year, the T-Birds finished second in the 
Western Division with 85 points, while the 
Saberhawks finished second with 80 points. The 
game will be an exciting one, with both teams 
eagerly anticipating the opportunity to prove their 
skills and win the division.

Alpine ski conditions at Alpental are near ideal, 
with fresh snow falling every night. The resort is 
expected to open for the winter season within the 
next few weeks. The opening of the resort will 
provide a great opportunity for local skiers and 
snowboarders to enjoy the slopes and participate in 
the winter sports.

Alpental Ski Resort will be a complete 
skiing and snowboarding resort, offering a wide 
variety of services and activities. The resort is 
equipped with a lodge, a restaurant, and a 
gift shop. There are also several lifts, including 
double and triple lifts, that make getting to the top 
of the slopes quick and easy. The resort also offers 
a variety of shop and store services, including a ski 
shop, rental center, and a restaurant.

Cross-town rivalry will flare in the basketball 
season, with the T-Birds and Saberhawks 
colliding on the hardwood. The T-Birds will 
be looking to take their third straight 
conference title, while the Saberhawks 
will be looking to dethrone them.

Top Prep Runners To
Compete Here In 
Highline Invitational

The Highline Invitational, held at the Alpental 
Ski Resort, will feature some of the top prep 
runners from the area. The meet will be 
hosted by Highline High School, and is 
expected to draw a large crowd of 
spectators. The meet will feature some of the top 
runners from the area, including Joe Baisch, 
Frank Hamlin, and Jack Pyle. The meet is a great 
opportunity for these runners to showcase their 
skills and compete against each other.

Highline High School, located in the 
North Puget Sound area, is known for 
its strong athletic programs, particularly in 
track and field. The school has a 
long history of success in the 
track and field events, and has 
produced several outstanding 
runners in recent years.

The Highline Invitational will be 
a great opportunity for the 
runners to showcase their 
skills and compete against 
each other. The meet is 
eq
garanteed to be exciting, 
with some of the top 
runners from the area 
competing for victory.
Anthropologist Finds
Interest in Behavior

Mr. Campbell, who received his B.S. in anthropology at the University of Colorado, has an appreciation for the social sciences. He believes that the study of human behavior in different societies can help people understand themselves better. He is particularly interested in the evolution of man and how different cultures shape human development.

Mr. Campbell stated: "I believe that psychology and anthropology complement each other. Anthropology provides a broader perspective on behavior, whereas psychology focuses on the individual. Both disciplines are necessary for a complete understanding of human nature." He also expressed interest in doing more research in psychology, especially in the area of personality. He is currently teaching at Highline Community College and plans to continue his graduate work in anthropology.

Highline Hires New Physicist

Mr. Neish, Highline's new physics teacher, is an expert in relativity and has a master's degree in physics from the University of California. He is excited about teaching physics at Highline and hopes to bring a new perspective to the subject. He has also been involved in track and field and is a "valuable player" award winner.

Although this interest is a relatively new development, Mr. Neish has had the opportunity to share his passion for physics with others through teaching and writing. He has also done some research in the field and has published several articles on the subject.

Highline is a great place to teach, Mr. Neish said. "The atmosphere is very relaxed, and the students are eager to learn. The school also has a strong support system for its faculty." He is looking forward to working with the students and helping them develop an interest in physics.

The Lollypop Tree

This book has been popular with many readers, and the Lollypop Tree is a wonderful addition to the collection. It features a variety of stories with colorful illustrations and engaging characters. The book is suitable for children of all ages and is perfect for bedtime stories or reading aloud.

The Lollypop Tree is available at local bookstores and online retailers, and it is a great addition to any home or classroom library. It has received positive reviews from readers and is a popular choice for parents and educators.

Although this interest is a relatively new development, Mr. Neish has had the opportunity to share his passion for physics with others through teaching and writing. He has also done some research in the field and has published several articles on the subject.

Although this interest is a relatively new development, Mr. Neish has had the opportunity to share his passion for physics with others through teaching and writing. He has also done some research in the field and has published several articles on the subject.
