The new math building, which has just recently opened, is one of the eleven new buildings on campus which will feature open house. College sophomores have been selected for Who's Who listing in its annual honor-society's 1968 publication. The selected students are: Janice Mori, Carol Wiseman, Robert Merkle, Erich Thomas, Roy Wiseman, and David Packson. Sophomore listing will appear in the Who's Who volume is released during the summer. This directory is the item available to visitors during the Sunday Open House. Classes will be demonstrated in the 75 foot swimming pool.
T-Word Terminized

The most important event this week was the annual student assembly held in the main auditorium on Thursday. The assembly was a chance for students to participate in the school's decision-making process. Many students expressed their thoughts on various issues, and the assembly was an opportunity for students to exercise their democratic right to vote on important matters. The assembly was well-attended, with representatives from every grade in attendance. The assembly was successful in its goals of increasing student participation and education in the school's governance. It was an encouraging sign of the school's commitment to student participation and democracy.

Letters to the Editor

Dear Editor,

I was recently reading an article about the importance of student participation in school governance. As a student, I feel strongly that students should have a say in the decision-making process of their school. I believe that students are the ones who benefit most from the decisions made, and therefore, they should have a voice in those decisions.

In my school, we have a student assembly that meets regularly to discuss important issues. However, I have noticed that attendance is often low, and many students do not take the opportunity to participate. I think that more could be done to encourage student participation.

I believe that school administrators should make an effort to publicize the assembly and its importance. They should also consider offering incentives for attendance, such as extra curricular credits or recognition for participation.

I hope that the school will take these suggestions into consideration and work to increase student participation in the future.

Sincerely,
[Your Name]
Students Discuss New Constitution

By Jack Gillam

A group of students from the Activities and Student Body (ASB) held a meeting on Monday, April 20, to discuss the new constitution for Highline Community College.

The proposals for the new constitution were presented by the ASB officers and were well received by the students present. The constitution would replace the present student government with an ASB elected representative. The idea of the associated men’s and women’s council, instead of the present students, being given to the President of the College was also discussed.

The ASB officers would also be eliminated in the new constitution. The authors of the proposed constitution that everybody is having babies about is given to the President of the College.

The ASB officers would want to improve our paper. We would actually like to improve our paper. We are astonished by this that we forgot to ask the person what he didn’t like, so we could try to improve it. It finally came to typographical errors. In response to this criticism, we are now issuing a proclamation:

---

Constructive Criticism Doesn’t Plague T-Word

By Bob Herold

While the President: Assistant Dean, and all of the college staff and faculty are extremely talented in their field, the student body is not grossly. The place holds the President at his present position, but there is no way to get there. The people are not interested in being there. It is an extreme. The President is responsible for the student body and in the interest of the student body, we need not concern ourselves too much with it. We need not concern ourselves too much with it.

Building Names Subject Of Many Discussions

"Building new, well built, and better," was the policy on the new constitution for Highline Community College. As the new constitution was read through it, one finds that the present student government is being replaced with an ASB elected representative. The idea of the associated men’s and women’s council, instead of the present students, being given to the President of the College is also discussed.

The ASB officers want to improve our paper. We would actually like to improve our paper. We are astonished by this that we forgot to ask the person what he didn’t like, so we could try to improve it. It finally came to typographical errors. In response to this criticism, we are now issuing a proclamation:

College Adopts Policy on Drugs

The Student Affairs Committee of the Activities and Student Body (ASB) has adopted a policy concerning the use of drugs. The policy is in the interest of the student body and in the interest of the college. The college will take whatever steps necessary to control the use of drugs.

The policy states that drugs are illegal and that the college will take whatever steps necessary to control the use of drugs. The policy is in the interest of the student body and in the interest of the college. The college will take whatever steps necessary to control the use of drugs.

The Incomplete Education Of Today Engineers

In his reply, a recent letter to U.S. ARMS in the Seattle Times, Mr. Joe M. Brown, Smith College, Smith College, has written that our society teaches engineers to be engineers and not to be engineers. The fact is that the majority of engineers have to deal with a number of engineering problems, not only in the United States, but also abroad. Mr. Brown added that engineering education in the United States is generally more advanced than in the rest of the world.

Concerning the engineering education in the United States, Mr. Brown pointed out that in many cases, engineers are taught to be engineers, and not to be engineers.

Mr. Brown further explained that the engineering education in the United States is generally more advanced than in the rest of the world.

Don't Panic
Seattle Under Siege
By Alien Invaders

By STAFF REPORTER

This story is true. The names have been changed to protect innocent aliens. This is the sad tale of a young woman who was taken in by an alien invader. She was a bright student with a bright future, but her life was forever altered by the encounter.

She claimed to be from another planet, but she could not tell an alien from a human. She said that they had come to Earth to study us, but that we were not safe. She said, "I was there in this age by the strong alphabet which enabled me to witness the humanity and to read. I am a warrior of this race, and to gain control of this..."

She showed them to her. She pointed out some marks on the earth which she said were created by aliens. She continued, "These aliens have..." she paused for a moment to catch her breath. Then she continued.

"...abnormal little fingers on their hands. For instance, but their fingers are longer and more flexible. They can do things that we cannot do..." she paused again, "and they can talk, and contact with the Earth..."

She opened a secret panel in her hand and pressed a button. A beam of light emerged and hit the earth. The beam was strange, and it caused strange things to happen. She said, "Some friends of mine have been abducted. They were taken to another planet, and they were treated cruelly."

We were again puzzled, but slowly we turned and looked up. We saw something strange, something that we had never seen before. It was a strange race of people, and it was..." she paused, "How can I describe it?"

She looked at me with a demoniac smile on her face. "Do you know why you're drawn together?"

I guess my hand...

Scatter-Brained Secretaries Have No Place In The Business World

Associated Student Body Tea in the Student Center

Drama students stretch in exercise on the new stage in the Performing Arts Lab. The stage is in several sections and can be raised and lowered to form the three basic shapes.

Mr. Arthur Massie, data processing coordinator, explains the wiring of a circuit to his students in Building 8. The school's new 36040 computer is housed in the same building.

Students practice on electric pianos in the piano lab of the Performing Arts Center. The pianos are hooked up so that the instructor can listen in on them individually.

Three science instructors, Mr. Robert Wright, Mr. David Johnson, and Dr. Duane Chapman, discuss in the open court of Faculty E. The new building contains more offices and working space than the older faculty buildings.

The Counseling Center, located in the basement of the Instructional Building, contains a helpful library. New additions to the center will be the addition of the swimming pool.

Attorney-General
Speaks At Convocation

By JOHN NELSON
An all-school celebration
attended by the entire 3,000
strong student body was held
Wednesday morning. The occa-
sion was the All-school Convo-
cation, Roy Wiseman
president, John Legge, public
relations, and James Langan,
secretary.

Legge then told a series of
funny and sentimental stories
that had the young people
laughing. Among the high-
lights was a rendition of the
song "Oh, the Places You'll
Go." He said: "There are too
many princesses, and I'm
married to one of them already." He
went on to explain that
marriage was a very serious
thing, and he and his wife
were "united in a state of
eternal bliss.

Mr. Charles Sandifer was
introduced as a Canadian
Humorist, and by a
barbershop quartet comprised
of four faculty members, Dr. M. A.
Schwartz, freshman princess.

Confusion! Confusion!

The crowd. They look like they are having a good time. The music is loud and the air is filled with excitement. This is a crowd. They are cheering for their favorite wrestlers. The matches are intense and the in-ring action is non-stop. Wrestlers are flinging and slamming their opponents, trying to gain an advantage.

Basketball?

Highline doesn't have a basketball team. The campus has a small gymnasium and a few basketball courts, but there are no organized teams. The students who do play basketball often do so informally, in pickup games or intramural competitions.

Three League Wins Complete Weekend

By George Davis

The Highline College Thunderbirds scored an impressive victory over the visiting Olympic College team this past weekend. The Thunderbirds won all three matches against Olympic, Everett, and Shoreline, leaving the team with a perfect 3-0 record for the season. The matches were held on campus at the O'Neill Center, with the Thunderbirds' home court providing a familiar and comfortable environment for the athletes.

In the lower weights, Mike Johnson and Dennis Moore were victorious with one pin and one decision, respectively. Johnson defeated his opponent with a strong and decisive pin, while Moore secured a hard-fought decision. The win improved the Thunderbirds' standing in the league and solidified their position as the top team in the conference.

In the 123 lb. class, Mike Johnson faced off against his opponent from Olympic, and he emerged victorious with a decisive pin. Johnson's display of strength and technique was impressive, showcasing his skills and dedication to the sport.

In the 130 lb. class, Tim Redford and Phil Lunberg put up a strong showing with a dual decision. Lunberg secured the win with a dominant display, while Redford demonstrated his resilience and fighting spirit. The resultados indicated a strong performance by the Thunderbirds in this weight class.

In the 145 lb. class, Johnson (O) defeated his opponent from Shoreline with a hard-fought decision. The match was intense, with both competitors giving their all, but Johnson emerged as the champion.

Overall, the weekend was a resounding success for the Thunderbirds. The team's strength, strategy, and dedication to the sport were on full display as they continued to dominate the league.

Hockey Is A Rough Sport

A top National League hockey team has discovered that it had assumed too much credit for its recent string of victories. If the team, with a record of 14-2-1, had not come from behind against Lower Columbia, it would have had to be tied for the lead in the league with the State community college. The team is the Olympic Rangers. In the game, the Rangers began to unravel when a critical decision was reversed in favor of Lower Columbia. The Rangers then lost their confidence, fell behind, and only a last-second goal saved them from a loss.

Wrestlers Win Three

No. 1 T-Birds Rout Rangers Crush Chokers

By Don Landee

The leadership of the Highline College wrestling team made a difference in the team's first dual meet of the season against the University of Washington Frosh. The T-Birds, led by Larry Johnson, Chris Ballew, and Steve Ronning, defeated the Frosh by a score of 37 to 5. The meet was held at the University of Washington, and it is the first time in recent memory that the T-Birds have defeated the Frosh in this dual meet. The T-Birds continue to display their strength and dominance in the dual meet.

Kaye Hall Leads TSC In Record-Breaking Meet

The Highline College swimming team set records in the 100 yard breast stroke, 100 yard butterfly, and the 200 yard free style relay. The team, led by Kaye Hall, completed the meet with a total of 110 points, breaking the previous record of 108 points. The team's performance was instrumental in establishing Highline College as a major force in collegiate swimming.

In the 100 yard breast stroke, Kaye Hall broke the school record with a time of 1:04.7. In the 100 yard butterfly, Hall set a new record with a time of 56.3. In the 200 yard free style relay, the team's time of 1:28.91 was also a new record. These achievements are the result of the team's dedication, hard work, and the excellent coaching of Coach Bohn. The team's success is a testament to their commitment to excellence in the sport of swimming.

The team's performance in the meet was not only a victory for the swimmers but also for the entire community of Highline College. The meet is a reflection of the school's commitment to athletic excellence and the importance of competitive sports in the educational experience. The team's success is a source of pride for the school and its students, and it serves as a model for other athletic programs to emulate. The meet has set a new standard for collegiate swimming and has established Highline College as a leader in the sport.
Swim Team Gains Split With U. of W.

The Highline Thunderbirds swimmers started a new trend in the recent meet at the University of Washington. The meet, which was the last of the season, was won by the Thunderbirds, 94-86, with the splitting of events.

The girls were victorious in all but one of their events, with the exception of the 220-yard free relay where the University of Washington took the victory. The Highline girls won the 88-yard freestyle, 100-yard freestyle, 200-yard medley, and the 400-yard medley.

The meet was highlighted by the performance of Mary Gay Cummings, who won the 50-yard, 100-yard, and 200-yard freestyle events. She also swam on the winning 200-yard medley relay.

Cummings, along with other members of the team, contributed to the team's overall victory, ensuring that Highline would maintain its position as a competitive swim team.
Conference To Feature Authorities On China

Becomes the winter meeting of the Washington Association of Colleges and Schools in December. This year's meeting will be held at Bellevue Community College.

According to Mr. Geigle, the purpose of this winter meeting is to give a preview of future developments and trends in the area of higher education. The meeting will include discussions on various aspects of higher education, such as funding, accreditation, and governance.

Highlighting the meeting will be representatives from different institutions, including the University of Washington, Seattle Community College, and the University of Puget Sound. These representatives will share their experiences and perspectives on how they are addressing the challenges of higher education.

Highline College Offers High School Diplomas

The Highline College offers high school diplomas to students who want to earn a high school diploma while also pursuing college credits. This program is designed for students who are planning to transfer to a four-year college.

Students who enroll in this program will be able to earn college credits while taking high school courses. This will help them save time and money by completing both high school and college requirements in a single program.

The program is open to students who meet the eligibility requirements, such as being currently enrolled in high school and having a minimum GPA of 2.5. Interested students should contact the Highline College for more information.

Hiking Club Enjoys Anderson Island

The hiking club enjoyed a day of adventure when they went to Anderson Island. The club members packed up their hiking gear and set out on the trail. They trekked through the woods and enjoyed the beautiful scenery.

Along the way, they spotted a variety of wildlife, including birds and deer. After a few hours of hiking, the group reached the summit and took in the breathtaking view. They then took a short rest before continuing their journey.

The club members were excited to have had this experience and were looking forward to planning more adventures in the future.

Hunting Club Offers Special Student Rates

The hunting club is offering special student rates for those interested in joining. The rates are designed to make the club more accessible to students and encourage them to participate in the sport.

In addition to special rates, the club also offers a variety of training programs and equipment rentals to help students get started. Interested students should contact the club for more information on how to join.

Fine Arts Magazine In Planning Stage

The Fine Arts magazine is currently in the planning stage. The magazine will feature a variety of content, including interviews, essays, and artwork.

Students interested in contributing to the magazine can submit their work to the editorial board. Submissions will be evaluated based on quality and relevance to the theme of the magazine.

The magazine will be released in time for the spring semester, and all students are encouraged to get involved and contribute to the success of the publication.

Where Spring Is A Happening

Our new store is ready to please shoppers. Come in today and see our array of fashions. We carry a wide range of sizes and styles for all occasions. Remember, it's "Spring" for fashions.

Headquarters for Holiday Fashions

Yours

Additional information about the special student rates and hunting club can be found on the club's website. Interested students should visit the website to learn more about these opportunities.
