Louis Lomax Talks About Black Power

BY RICK RIEBEN

LOUIS LOMAX

Dr. James Black, a well-known scholar and author, spoke on the concept of "Black Power" at an open forum last Thursday. His subject of discussion was the varied meaning of "Black Power".

Dr. Lomax stated that Black Power is not a single entity but rather a collection of different ideas. He explained that people who support Black Power have different interpretations of what it means.

Dr. Lomax further explained that Black Power is not a new concept but rather a reawakening of old ideas. He said that the concept of Black Power has been around for a long time, but it has not been fully realized.

Dr. Lomax also discussed the history of Black Power in America. He said that Black Power has been a part of the African American community for many years. He explained that Black Power was used as a tool to empower African Americans.

Dr. Lomax concluded his speech by saying that Black Power is a powerful tool that can be used to create change. He added that it is up to each individual to decide how they will use Black Power.

Suspects Held In Campus Thefts

BY PREVIEWS

The security department at Highline Community College has arrested two suspects in connection with a series of campus thefts. The suspects were caught on campus last Tuesday night.

The security department has released information about the suspects. They are described as two young men who are believed to have committed the thefts.

The security department is asking for anyone who has information about the suspects to contact them immediately. They are offering a reward for anyone who provides information leading to the arrest of the suspects.

New Chemistry Course In The Spring

BY LINDA ELDRIDGE

The New Chemistry course will be offered this spring quarter. The course will be taught by Dr. James Black, a well-known scholar and author.

The New Chemistry course will cover a variety of topics, including the history of chemistry, the development of the periodic table, and the discovery of new elements.

Class size will be limited to 20 students to ensure that each student receives individual attention. The course will consist of lectures and discussions, as well as实验室 work.

The New Chemistry course will be held on Tuesdays and Thursdays from 9:00 AM to 11:00 AM. The course will begin on February 18.

Oracle I, Poetic Sculpt

BY RICK RIEBEN

"Oracle I" Photo by Helen Johnson

"Oracle I" is a poem that was written by a student at Highline Community College. The poem was written as a response to the recent violence on the campus.

The poem speaks about the pain and suffering that has been caused by the violence. It also speaks about the hope for a better future.

The poem was written to encourage people to work together to create a better future. It is a call to action for people to come together and make a difference.

The poem has been well received by people on the campus. It has been suggested that the poem be used as a teaching tool in the New Chemistry course.

"Oracle I" is a powerful reminder of the importance of working together to create a better future. It is a call to action for people to come together and make a difference.
Dear Editor,

February 14, 1969. The students of English 102, under the instruction of the cherished English teacher, Mrs. Kay Stitt, conducted an experiment, the results of which are illustrated in the picture attached.

When this book was checked out, it was never returned to the library and five minutes later, the librarian checked it out again from the reference section, placed on the bookshelf.

With this experiment, the checks-out procedures passed a few students without any undergraduate or graduate students taking the book out of the library. This has been a problem for a long time but now it has been solved by a group of students who are willing to risk their lives and get paid for it.

Any time a student asks for a book that he is not allowed to keep, the book will be put back on the shelf and the next student will be able to check it out without any trouble.

Thank you for your support.

Valentine's Day Demonstration

There are some of the members of Mrs. Kay Stitt's English class and the "bake" which they collected from the library to demonstrate the inadequacies of the present system of "checking out" books.

STUDENT'S DAY DEMONSTRATION: There are some of the members of Mrs. Kay Stitt's English class and the "bake" which they collected from the library to demonstrate the inadequacies of the present system of "checking out" books.

REPLY

Dear Students of English 102,

Thank you for your encouragement! We have investigated the situation and come up with a possible solution.

We have made arrangements with the library to allow books to be checked out on a first-come, first-served basis. This will help prevent the situation from happening again.

Please let us know if there are any other concerns or suggestions you have.

Sincerely,

[Library Administration]

Continued from page 2
back right 10 percent of the time, but do miss a few. More trouble is caused by helpful amateurs who take a book down, read a while, and put it back. They are only right 80 percent of the time. I do and extra few percentage points, we would rather you let us help; rather than knock them on the top shelf or a shelf without paid student help to re-shelve. A book out of order might as well be lost.

1. If you haven't sand it by now, go to the Circulation Counter or Reference Librarian's desk for help. If the book is checked out to someone else, we can "Reserve" it for you next, and will notify you if it is available. Other books are in special collections - available, but not on the shelf in the regular place for the call number.

2. If a book's location cannot be determined, a "missing slip" will be made for it. The name and telephone on this will assure that you will be notified if it is ever located. This is usually our indication that a book is missing before the book is reported lost.

REMEMBER, THE LIBRARY STAFF HAS BEEN HIRED TO HELP YOU LOCATE THAT MATERIAL YOU NEED - DON'T HESITATE TO ASK THE STAFF IF YOU NEED HELP.

Interested students will soon be asked - and put in Bulletin - to meet for a Students' Affairs Committee. You are urged to attend.

ESP Expert
to Baffle Audience

Hello, comrades! The guest at the Highline Community College's Literary Luncheon on a recent Monday afternoon was Dr. Edward F. fish, program coordinator for the ESP (Extra Sensory Perception) Program at the University of Washington.

Dr. Fish presented a slide show demonstrating ESP, and then his talk was designed to stimulate a lively discussion among the students.

The purpose of the University should be for the enrichment of the individual and for his enlightenment and freedom it should enable him to enjoy. The students should be free to express their views and to discuss whatever they wish whenever they want.

How many students have enjoyed the student "lounge this year?" It is my hope that students have taken advantage of the "please no food or beverages in the lounge" and carried it into the hall. I would like to see the lounge cleaned up, and the discussion turned into the lounge.

Last year the student lounge was closed for lack of student participation in maintaining its facilities. Look around you in the area neat and clean? Don't let the lounge be closed this year. This type of situation occurs in high schools.

When school gets tough, our problems are getting down, you should discuss them with someone else.

Personalities
Around the World

By GLADINE LOOMES

Mountains weigh heavily a hundred pounds even when he thinks big and he takes giant steps.

The first giant step he took was in deciding to make the move from his home in the Philippines to the U.S. After all, he had the daunting task of learning English then completing high school here so that he could go on to college. A big job when you have to earn your way.

Although Gil comes from the Philippines he still has his "hola, como estas Vd." because he "no comprendo." If you are very versatile you could try Tagalog, the native language of the Filipinos or Spanish for which Gil's home island of Samar, Spanish, according to Gil, is spokem only in the large cities and on the island of Luzon.

Samar, a medium-sized island between the big islands of Luzon and Mindanao is surrounded by the warm waters of the Pacific Ocean so when Gil and his two brothers and three sisters wanted to go swimming there were plenty of pleasant beaches. Swimming was the most important sport on the island. When it was not swimming he was in a swim in Puget Sound.

For the past two years, Gil has worked at King County and Mrs. Franco B. Balinsac at Burt. He met his wife, Adilla, there, and a few weeks later they were married. They had a son just two years ago.

Gil likes American dances but admits he doesn't know many steps. He is willing, he says, to teach someone a few Filipino dance steps in exchange for some lessons in the boogie. Currently Gil is taking 14 hours at Highline. After he graduates he plans to go on to a four-year college and study engineering. After that, what then? "Well, the world is wide and there is much to do!" Time then for Gil to take his next giant step.

Black Week: A Soulful Event

BY NORMAN RICE

The first annual Afro-American Black Week Festival was sponsored by the Black Student Union at Highline Community College. The festival was designed to be a celebration of blackness in all its diverse forms. It was held over a period of several days, with events taking place in the college's various venues.

The festival included several events and activities, including a poetry reading, a fashion show, and a music concert. The poetry readings were performed by several poets, some of whom were well-known in the community. The fashion show featured models showcasing a variety of clothes from different African designers, and the music concert featured several local bands.

The festival was well-attended, with hundreds of people coming to see the events. The students were very excited and happy to have such an event on their campus, and they looked forward to future iterations of the festival.

The festival ended with a closing ceremony, where the organizers thanked everyone for their support and for making the festival a success. The students were left with a sense of pride in their community and in their heritage.
Gossip With Love, From Faculty B

By STACY NORMIS

Ah, you say there’s nothing happening, there’s no action. How does a reporter find a story? Tell the story of a story. How does a reporter find standing of the English language? I discovered that when I was a reporter, I would spend my time talking to people who were interested in the English language. I found that the watering hole for those who thirst for an understanding of the English language was the faculty building. And the stories! Everyone would talk about English teachers and their qualifications. I discovered that English teachers are dry and stale and think of nothing but Keats or Hamlet. They have never gone beyond the scions and listened to the conversation and perceived the depth of thought that flows throughout the office.

The moment I entered the building, I felt an atmosphere of friendliness, yet importance. I was chatting with students who had discovered all sorts of people and interesting facts about them. The students were writing stories about their mail, and talking on the phone. The local point of the activity seemed to be centered around the coffee pot, which seemed to be the center of society. I realized that there’s no action around here.

New Program In Health Occupations

By STEVE RUSTON

Highline Community College is a place where you can find all sorts of people, and all sorts of activities. The most interesting activity is probably the Veterans Club. This club is currently working on a project to have the physical education requirements fulfilled as a part of the veterans’ curriculum. A letter outlining the club’s position on physical education requirements has been submitted to the Dean of Instruction, and the subject will be brought before the Institutional Council in March or April.

Hale’s strong belief that any veteran who has not presented his requirements to the college should not be given a chance to listlessly attend class is well-founded. He is determined to make sure that every veteran who attends the college will have the opportunity to fulfill the requirements of his or her educational program.

By JANET VANDEVER

Highline Community College student Mary Frances Eckert has been invited to be a member of a National Task Force on Health in College Communities. The American College Health Association is celebrating its 50th anniversary with this project.

Eckert was assigned to Task Force 1 which is concerned with the health of college students. The project is intended to improve the health of students by providing them with information about health care services available on campus. The task force will meet April 11-17 in Boston.

Wins, no losses and one tie. This will be the third varsity coming at the state wrestling tournament. The Thunderbirds are at Grays Harbor. They will be up to their capabilities they take a first. Team has taken a second and a first place against Columbia Basin, Feb. 27. Basii is tied with Highline and Basin, Grays Harbor, and Columbia Basin will also be tmgh for the year. by only one point, 20-19. These wrestlers of the 16 &leges to State Wrestlers will be going into the state tournament matches. Columbia Basin, but usually are stronger in dual meet action than the other community college teams have outstanding individuals as well, which promises that the Washington Athletic Association of Community Colleges State Wrestling Tournament will be well worth the viewing.

COACH MELTON ORPHAN shoots out instructions to one of his swimmers in their triple dual swim meet against Western Washington College, but failed to surpass the proven shown by the University of Idaho, in the Triple Dual Swim Meet, which was held at Highline's pool on Friday, February 11.

The Highline Community College wrestling team swept a dual meet at Grays Harbor on Saturday, February 12. A tie with Columbia Basin in the only blemish on the 11 meet slate. The last two contests were with teams from across the mountain. Spokane and Walla Walla. Spokane lost 26-3 and Walla Walla was downed 45-0. Each team is working into the wrestling program.

The following men will be taking part in the Thunderbirds, and the number following their approximate weight. Greg Lusk pinned Dave Hay at 115 lbs. 3 seat. Rick Mathus pinned Tom Carson at 123 lbs. 2 seat. Lee Peterson beat Bob Deluca at 137 lbs. 1 seat. Mike Moore pinned Dan Bagla at 145 lbs. 1 seat. Mike Moore beat Dan Bagla 145 Dan Bagla lost to Kelly Dooley at 152 lbs. 2 seat. Lee Peterson beat Bob Deluca at 160 lbs. 3 seat. Mike Moore beat Neal Johnson at 167 lbs. 2 seat. Lee Peterson beat Bob Deluca at 177 lbs. 2 seat. Whidden pinned Herb. at 191 lbs. no match. There will be two sessions of wrestling on the two days of competition. Each session will begin at 1:45 and last until 7:30. It will be held in Green River gym on Feb. 27 and 28.

The Highline Swim Team dominated the diving scene, by overcoming all opponents by at least 28 points in both the 1 meter and 3 meter diving competition. Jim set new team records in both cases. Another team record was set by our 400 Yard Medley Relay Team. Hanslo, Lautman, Exstrom and Johnson, covered the 400 yards in 4:08.5, just .3 seconds behind the Vandal's Idaho, in the Trip e Dual Swim Meet, which was held at Highline's pool, on Friday, February 14. Coach Milton Orphan, he made special note to mention that he tagged "the year's best efforts." He honored Marc Lautman, 200 Yard Individual Medley, Leonard Green, 300 Yard Freestyle Relay (Of 4 others). (1988, and 500 Yard Freestyle) with that of praise. The coach felt that most of the other swimmers, failed to live up to his expectations.

In the final standings, the University of Idaho scored a total of 76 points, to the T Birds 27, however "our" team did manage to slip by WWSC with a final score of 52-5.

Highline Stampeedes
F.S. Raiders 99-76

Highline scored an easy win last weekend as they defeated Fort Steilacoom 99-76. The Thunderbirds dominated the contest all the way through the contest. At half time the score was 52-32, well on the way to a big win. This is the first year of league play for Fort Steilacoom and has proved fairly successful for the rookie team.

The Raiders put up a good fight but lost ground steadily through the game. The high scorer for the game was Emmett Clark, shooting in 20 points. Roosevelt James was close behind scoring 18 points.

HCC Clarifies Athletics Recruiting

Recruiting for intercollegiate athletics on the Community College level is regulated by the state legislature. Dr. Allan states that the main purpose of the recruiting policy is to localize our athletic program. In accordance with this, Dr. Allan has submitted the following report to the board of trustees.

1. The program of intercollegiate athletics at Highline Community College should serve the purposes of the community college, as set forth by the State Legislature. The following principles are consistent with this legal purpose.

a. Recruiting should be conducted only within the community served by this College.

b. Recruiting policy for competitive sports should enhance the population in a much wider area than those programs which are unique, but are shared by many institutions.

2. To achieve the above purposes, a non-resident of the State of Washington will be allowed to compete in intercollegiate athletics only after he has been in attendance for four quarters in an accredited public or private institution of higher education within the state. Exceptions may be made where the family of the athlete has established permanent domicile in the state for less than twelve months or where there is an adequate reason for moving into the area by athletic recruiting. Judgments as to the appropriateness of the reasons will be made on the recommendation of the Director of Athletics, with the approval of the Dean of Students, and with final determination by the Faculty Committee on Athletics.

Gators Hand T-Birds
5th Set-Back of Season

Photos by Roland N. Jonason

By MEI. DUR

The Gators of Green River kept their state tournament hopes alive with a close victory over the Thunderbirds on Saturday night. The Gators downed Highline 99-95 in their last meeting of the season. The win reversed the narrow loss to Highline earlier this year 67-57.

Four players hit in the double figures to lead the scoring attack for Highline. Emmett Clark set the pace with 26 points for the evening. Roosevelt James had 13, and Jim Hayes scored 5 points. Mark Sabourin and Frank Ragsdale started the game, but were unable to score.

The rebound department was headed by Larry Datcher, who pulled down 16 rebounds. Roosevelt James was second, as he retrieved 11 of all the boards.

The loss to Green River brings Highline’s conference standing to 12 and 19 and 19 and 3 for competition this season. The Thunderbirds will close their 36-59 season with a home game against the Gray’s Harbor Cougars. The finale will begin at 8:00 p.m. on Saturday, March 4th. Gray’s Harbor sport the T-Birds earlier this season with an 82-79 decision.
Phillip Sell Discusses Engineering Program

The Engineering Curriculum at Highline

Mr. Phillip Sell, an instructor of engineering at Highline Community College, is interviewed by Jerry St. John. Mr. Sell teaches a two basic programs, one for transfer students, and another for science majors. He covers the importance of mathematics, physics, and chemistry in engineering. He also discusses the availability of a four-year degree in engineering.

Kathleen Peck To Speak On Keys To Charm

Kathleen Peck of the Highline Community College is invited to speak on "Keys to Charm," a topic of interest to many communities.

The Paramedicallist; Inhalation Therapy

Inhalation Therapy is one of the fastest-growing fields in medicine, with a rapidly increasing demand for practitioners. Highline Community College offers a program to train paramedics in this field.

Trustees Urge Requested Funding

Highline Community College Trustees asked the Governor for a $1.5 million increase in the state's $22 million annual budget for community colleges in Washington. The increase would support additional programs, such as paramedic training.

Outstanding Young Men of the Year 1969

E. Balzarini, John Eads, and Kathleen Peck are three of the outstanding young men selected for the 1969 edition of the "Outstanding Young Men of the Year" compilation.

The State Community College Office

The State Community College Office is responsible for deciding and controlling the operation budgets and capital budgets for the state's 22 community colleges. The budget for Highline Community College was reduced by $4 million.

The Capital Budget

The Capital Budget for the state's community colleges increased by $36 million for the fiscal year ending June 30, 1971. However, the State Board reduced the amount to $19.5 million, amounting to a 40 percent decrease.
