HCC Offers Courses In Law, Tax

For the first time Highline Community College is offering a four-day per week evening class and continuing education program for Spring Quarter. The evening class and continuing education program is not necessary; fees may be paid through the mail. For information call TR 8-3710.

New Technician Course Opens Spring Quarter

The registration by mail for evening classes at Highline Community College for both college and non-credit courses and non-credit courses and non-credit courses for Spring Quarter is starting March 31. Classes start March 31.

Mail Registration For Spring

Spring quarter begins March 31. Mail registration for evening classes will be open March 31. In addition to academic, technical and vocational courses, the evening classes are designed for adults who wish to improve their skills in English, mathematics, science or business.

FINANCIAL FUTURES

TR 8-3710, Box 479, Federal Way 98001.

Inter-racial Problems, April 7; 7 to 11 p.m.; fee $4.

Final Examination Schedule

Final examinations for all credit courses will be held during the last week of each quarter. In addition, some examinations will be held during the week preceding the last week of the quarter. The final examination schedule is as follows:

Monday, April 1: 9:30 to 11:30

Tuesday, April 2: 12 to 2 to 6

Wednesday, April 3: 9 to 11:30

Thursday, April 4: 9 to 11:30

Friday, April 5: 9 to 11:30

During the final examinations, all college buildings will be closed except for first floor offices and athletic facilities. Students must report to their regular classrooms for examinations.

Letters to the Editor

Why No Car?

Dear Editor,

Due to some misuse of the student lounge, new rules have been made and enforced. That turned the lounge into an anti-smoking, anti-drink and game room. Smoking is allowed and small games are minimized. Shoes and criss have been replaced by just as much noise. So we need no music, but we have to suffer through hours of droning cars.

And in classrooms that are empty, you hear the ghostly moans of "Cilla" and "You're too hot to trot." Mr. Dennis Haley

Dear Editor,

I want to voice my concern over the reopening of the Thunder Word. As far as I know, there are no restrictions on the content of the paper, and I believe that this is a good thing. However, I do have some concerns about the reopening of the paper, and I would like to raise them with you.

Firstly, I am concerned about the potential for the Thunder Word to become a vehicle for the promotion of hate speech and discrimination. I believe that the Thunder Word should be a place where students can express their ideas and opinions, but these ideas and opinions should be respectful and considerate of others. If the Thunder Word is not able to meet this standard, I believe that it should not be reopened.

Secondly, I am concerned about the potential for the Thunder Word to become a platform for the promotion of misinformation and propaganda. I believe that the Thunder Word should be a place where students can access accurate and reliable information, and that this information should be presented in an objective and balanced manner. If the Thunder Word is not able to meet this standard, I believe that it should not be reopened.

I appreciate your consideration of my concerns, and I look forward to your response.

Sincerely yours,

[Student's Name]
Highline Student Asks: Will You Help the Biafrans?

By Dick Byerley

If the fact that 10,000 people will die of starvation a day doesn't make us appreciate the importance of breaking it down to just any people dying every minute of every day will make more of an impression. These are the approximate figures given by UNICEF, predicting the number of Biafran deaths to occur if the blockade is not lifted.

Biafra is the province of Nigeria that has seceded from the mother country, and precipitated a civil war in that country. The Nigerian government's method of dealing with this move, has been to make an impression, perhaps breaking it down to dying every minute of every day will make more of an impression. The number of Biafran deaths to occur are as high as 500 per day.

The Nigerian government's method of dealing with this move, has been to make an impression, perhaps breaking it down to dying every minute of every day will make more of an impression. The number of Biafran deaths to occur are as high as 500 per day.

At the recent Activities Council meeting, club reports were presented as follows: 

**Mis-Match Club**—Attended basketball games, made signs. Two bored glimpses. Great and ugly man contest. Plans to have Homecoming weekend. 

**Phi Theta Kappa**—Plan to start singing competition next quarter. 

T.V. On The Campus

By Gladine Lemori

Have you ever wanted to see yourself on TV? If so, you may get the chance this spring quarter when a course entitled Basic Television Production is offered for the first time.

This new course is designed to instruct students in the use of modern TV equipment. Highline College has purchased four new cameras as an opening investment. Each camera is part of a basic unit comprised of camera, tripod, monitor, video tape, and microphone. Two of the units will be mounted on movable platforms so that they may be used in different areas of the campus. One of the units has a high resolution camera and this will be used by the Science Department. The remaining unit will be used by the Accounting Department.

Besides the use of the course in Basic Television Production, the cameras are also available to teachers who wish to use them as an extra teaching tool. The camera, used in this manner by the athletic coach instructor, could record a practice session and then by instant replay, correct the student the error in his technique.

The high resolution camera, to be used in the classroom, will magnify the intricate details of the performance on plants and animals and thus allow this process to be more easily viewed by the students.

Still another way of using the cameras will be to record special events that occur on the campus and to film them for later viewing.

And speaking of the future, we hope that it will not be too long before the school can acquire underwater cameras for use in oceanography and other marine science courses.

Highline College says Mr. Pennell, "I'm in the lead for the camera business."

Home Ec. Educators Meet at Highline Community College was host Saturday (March 12) to the "best of experts" of the state's community colleges and vocational schools during the spring meeting of the Washington Association for College, Adult, and Vocational Home Economists.

Included on the program was an address, "Techniques for Teaching Adults," by Mrs. Ruth Brass, retired director of Lake Washington Adult Education and Vocational Technical School, and "Teaching Methods," by Mrs. Pauline Schmitt, teaching methods specialist in such subjects as clothing, food and nutrition, family life, interior design, and consumer education.

The program was arranged by Mrs. Marian Broome, instructor of human economics at Highline College, and a noon-time business meeting was presided over by Mrs. Elizabeth Peterson, president of Clover Park Vocational Technical School.

Audio visual aids presentations were done by Donna Wai, Highline College; Lorene McLean, Yakima Valley College; Sally Faye, Everett College; Gloria Owen, Bellevue Community College; Marjorie Peake, Skagit Valley College; Marjorie Bews, Lake Washington Elementary School; JoAnn Tacona, Tacoma Vocational Technical School; Florence Buck, and Margaret Schmitt, all of Clover Park Vocational Technical School.

A.S.B. officers or by going to the A.S.B. office.

The Gallery was organized in the beginning of Spring Quarter. The main sponsors are the "hostess experts" of the Student Editors have been asked to take care of selecting material. The judges of verse and picture entries were made by Donna Wai, Highline College; Gloria Owens, Bellevue Community College; Marjorie Peake, Skagit Valley College; Marjorie Bews, Lake Washington Elementary School; JoAnn Tacona, Tacoma Vocational Technical School; Florence Buck, and Margaret Schmitt, all of Clover Park Vocational Technical School.

The Gallery Nearing Publication Date

The Gallery, Highline College's Creative Writing magazine, has announced the Editors and Judges for this Spring Edition. The Student Editors have been announced as Lona Fiske, David Tingle, L.D. Patterson, Sharon Walab, Bill Engdahl, and Gary Ferrens. These students will supervise the putting together of the magazine and will take care of selecting material.

The judges of verse and fiction are three teachers. They are Mrs. Feder, Dr. Harrington, and Dr. Chang. They will select those works which will receive awards in the magazine.

The judges of verse and fiction are three teachers. They are Mrs. Feder, Dr. Harrington, and Dr. Chang. They will select those works which will receive awards in the magazine.

Mr. Al Bayler will be the coordinator of the art department. Still photographs as well as student photographs will be accepted. Photographs entered should have attached to them technical data regarding technique, exposure, film and developing materials.

The magazine will be coming out during the spring Arts Festival in May. All students should remember that any number of pieces may be accepted. The contest is limited to 2,000 words. The entries should be typed, double-spaced and contain the writers name and address. The submissions should be given to the secretary of Faculty B.

All students whose work is accepted will be notified after the beginning of Spring Quarter.

THUNDER WORD — Friday, March 16, 1969 — Page 5
Commercial and Financial Law class.

The program will be offered during the evening

*New Courses: Mgt. Techniques*

Four courses approved for the Boeing Arts & Science Career Certificate pro-

gram will be offered during the evenings this spring at Highline Community

College. The courses are announced by George D. Deaver, director of continuing education.

The four courses all relate to management techniques; each meets one evening a week at Highline through April, May and June. Registration information may be obtained by phoning the college (782-8210) or referring to the college's Evening Class Bulletin for Spring Quarter.

The courses are:

- Management Science—management of large systems of men, machines, material, and money in industry, business, government, or defense; models of systems with such factors as chance and risk; comparison of strategies for complex studies. (Wednesdays, 7 to 9 p.m., $12 fee.)

- Group Dynamics—problem solving, group behavior, leadership skills, necessary for effective business administration. (Thursdays, 7 to 10 p.m., $12 fee.)

- Personnel Management—five weeks starting May 8 (Thursdays, 7 to 10 p.m., $12 fee.)

- Supervisor Management Functions—five weeks starting May 8 (Thursdays, 7 to 10 p.m., $12 fee.)

*HCC Gives Go Ahead To Religious Groups*

Highline Community College recognizes the value to its educational programs of religious activities which may be conducted under the sponsorship of religious organiza-

This follows the policy as seen in the above principles:

- Student organizations which are sponsored by recognized religious denomina-

- The normal programs of instruction, student and faculty activities will maintain priority.

- The sponsoring organization must meet all other campus policies related to student organizations, including the designation of a College faculty member as ad-

- Announcements of meetings and of social activi-

- Providing of legal protection, by law, and cannot be permit-

*Veterans Club Holds Banquet*

The H C C Veterans Club sponsored a banquet for Highline veterans and their guests Saturday evening, May 1, at the V.F.W. Club in Renton. Approximately 30 people attended the event, at which spaghetti, wine, and other refreshments were served. Door prizes, consisting of clothing, jewelry, and beverages, were awarded to guests. Lively musical entertainment was provided by "The Four Below," a newly formed group from the U. District.

Former Governor Albert Rosellini was guest speaker at the function. W. McFarland, Demo-

Divers Practice Their Trade

Photos by Helen Martin

By controlling the air flow, a diver, even fully weighted, can float on the surface.

Like so many perusing fleeting about the surface, these divers are gaining experience and confidence in their equipment and themselves.

Breaking the surface feet up — NOT recommended because the diver risks getting water in the helmet; however, conditions here are supervised.

Here a diver breaks the surface heads up.

Diver Ken Edwards descends into the depths to participate in a series of buoyancy control exercises. By manipulating the two valves, one on the helmet and one strapped around the body, the diver can control the amount of buoyancy needed for maneuverability beneath the sea.
A Two Year Program At Highline

Disc files are used to store information and to find it any time when it is needed.

The Colossus puts information into the computer through the punched cards.

The printer puts information coming from computer in readable form.

The computer cost $68 an hour to operate and during the summer with Green River leases it's about $120 an hour.

In the field of Data Processing, Highline College offers a two-year program. The program there are 35 second year students and about 100 first year students. The first thing a student learns is to read the punch cards, then he learns to type out a punch card.

Data Processing

BY CHRIS CALHOUN

In the center, there is one special room which contains the brain. The computer reads 500 to 800 cards a minute. The power cables for the machines are located under the floor so no one can trip over them. The price of the machinery comes to about $500 thousand dollars.

Offered At HCC Saturdays.

Besides processing all of our school's registration, grading, and turning out the payroll, the center also processes all of Green Rivers.

In the 137 lb weight division, Highline's Jan Kiviniemi, who had lost his first match but then defeated all his opponents and in the final round defeated Decoris by a score of 14 to 4.

Highline's wrestlers scored 71 points in the state wrestling tournament to take a third place finish. The team was honored with three state champs, Jimmy Rodrigues at 123 pounds, Lyle Ballew at 145 pounds, and Mike Moore at 160 pounds. George Davis also made the finals but lost his final match in the 191 pound class.

Lyle Ballew received the highest honor of the tournament by being named "Outstanding Wrestler". Ballew defeated all his opponents and in the final round defeated Decoris by a score of 35 to 0.

In the 115 lb weight class Highline's Rick Mattus defeated Saruwatari by a score of 5 to 1. He was then defeated by Jacobson of Grays Harbor.

At 123 lbs. Jimmy Rodrigues defeated all his opponents and was dubbed state champion for the tournament.

Wrestling at 130 lbs Dave Ashley pinned Metchett of Shoreline but was then defeated by Wieland of Skagit Valley.

JIM RODRIGUEZ, center, captured Highline's first individual title with a victory in the 137 lb. class.

Steve Peterson representing Highline's Jan Kiviniemi defeated all his opponents and in the final round defeated Decoris by a score of 14 to 4.

In the 145 lb weight division Dave Greene lost his, his first opponent, Brown of Yakima but then defeated by Dubal of Olympic. Dubal went on to take the championship title.

At 152 lbs. Mike Moore earned state title by defeating the four strong wrestlers. In the final round Moore defeated Paladay of Grays Harbor 3 to 0.

Dave Greene defeated all his opponents and in the final round defeated Decoris by a score of 35 to 0.

In the 135 pound weight class Highline's Rick Mattus defeated Saruwatari by a score of 5 to 1. He was then defeated by Jacobson of Grays Harbor.

At 123 lbs. Jimmy Rodrigues defeated all his opponents and was dubbed state champion for the tournament.

Wrestling at 130 lbs Dave Ashley pinned Metchett of Shoreline but was then defeated by Wieland of Skagit Valley.
The Statewide Community College Basketball Championship Games started on March 6. The Highline Thunderbirds went into the tournament with a 14-4 record and a second place hold in the Western Division. During the '68-'69 season we lost not only 4 basketball games but also two talented basketball players, Roosevelt James and Bernard Williams.

Going into the Championships our team had only one thing in mind and that was to win. Team spirit was still not as high as could have been. Going to State is a big honor but the students at Highline Community College failed to realize this and offered no more support than they did during the season.

**Wenatchee 107 - Highline 66**

Playing the first game of the 1969 Community College Basketball Championships were the Highline Thunderbirds and the Wenatchee Knights. The Wenatchee team had a lot of height which proved disastrous to the T-Birds when it came to rebounding. The Knights were an aggressive ball club who not only outshot the T-birds but also outrushed them. Highline’s scores were unable to hit the hoop for the necessary points and the final score was Highline 66 - Wenatchee 107.

Highline 66 - Bellevue 44

The Highline Thunderbirds made a great comeback in the second game of the season against Bellevue Community College the number one team in the Eastern Division. Highline led through most of the game trouncing Bellevue in a final score of 85-70. Highline played a good game both defensively and offensively.

Shoreline 100 - Highline 85

Saturday the Highline T-Birds played the Shoreline Samurai who had a 104-3 record. This game decided who would hold the fifth and sixth place in Community College State Basketball Championships. It seemed like a repeat performance of the Wenatchee game - the T-Birds couldn't hustle fast enough to keep up with the pace that Shoreline set. The final outcome of the game found the T-Birds with sixth place and the Samurai with fifth. This game completed the Basketball season for this year but there's always next year.

**Intramural Basketball**

"Soul String?" "The Heat?" "Bubba?" "Rod's 5th Graders?" "?? Sound like new bands? They are just four of the ten basketball teams involved in the winter intramural program, under the supervision of Dale Ballinger.

The other six teams include the undefeated "Chargers", the "Hustlers", the "Trackers", the "Pirates", and the "Stragglers". The undefeated "Chargers" are paralleled by "Rod's 5th Graders" who are also undefeated and last year's defending champs. The battle for top team seems to be forming between the two and it should really be a hot game if they meet on the court.

Upcoming in the spring intramural program is Softball, Badminton, Water Basketball, Horseride Pitching, Track, and possibly a Freethrow Contest. All of these sports will be subject to the student interest in the intramural program. Winter Quarter there were about 100 students involved in intramurals and for spring quarter there will be twice as many.

Swimmers Take 3rd In 1st T-Bird Classic

By MIKE STONE

Highline's swimmers placed 3rd in the First Annual Thunderbird Classic, which was held at Highline's pool on Friday and Saturday, March 7th and 8th. Highline accumulated a total of 436 points during the two-day meet, overcoming Washington State University and the University of Washington, who tied at 435 and 433 points respectively.

The competing teams, Simon and Fraser, University of Puget Sound, Washington State University, University of Washington, and Highline JC, broke 11 of 13 records. These records are the fastest times in Highline's pool to date, and were set during competition, and by any competitor. Simon and Fraser broke 11 of the records, University of Puget Sound broke 2, and our team broke 8 out of their team. We are very proud of them and we're sure that they will be able to do even better next year.

Coach Orphan feels that "This is the first meet in which the team has put in any significant effort as a group. When asked who were the outstanding swimmers, he stated that there were "too many outstanding efforts to mention any certain individuals."

Considering the outcome of this meet, the season seems to have been quite successful. Although our team was somewhat below par, it's vital to remember that we are the only junior college in competition. If Highline can show decent progress, the only junior college in competition. If Highline can show decent progress, the other teams will show interest next year.

Coach Orphan said that the T-Bird Classic "looks like it will be a very large event this year." He guesses that between 13 and 17 teams will attend. Just a few of these are Lewis & Clark, University of Idaho, Eastern Washington, Central, University of Northern Montana, Pacific Lutheran, University of Oregon, and Portland State.

The Coach and team extend their thanks to the Student Body, for over 400 hours of volunteer time which were put in, to make the Classic a success.

Mountaineering To Be Offered At Highline

"In springtime a spry man's fancy turns to rappelling, etc."

And, at Highline Community College courses in basic and intermediate mountaineering will be offered as part of the Spring Quarter community service evening class schedule.

Although the basic and intermediate classes will meet together initially, the classes will be split up depending on ability and interest for field trips and practice climbs. Mitchell said. The first class date is Wednesday, April 2, from 7 p.m. to 9 p.m. in a classroom at Highline College.

This class is for people - not jack rabbits or mountain goats - who may have always had a yearning to hike around in our Canary's or Cascade's. It will be led by a company that can "be interested by waking that special attitude, the eagerness, expecta-

The advantage of this machine, according to Miss Janice Bagnato, who teaches Secretarial Science, is that each girl can take dictation at her own pace, without the distraction of interspersed keying. The student has on her desk a receiver and a head- phone. Each receiver has a speed control. There are four speeds and the student simply sets the control in the speed she desires. The sound is carried by an antenna which is attached to the wall. Sixty rolls of tape were purchased with the machine.

Secretarial Science

Dictation Lab

During this winter quarter, the Secretarial Science Department purchased and put into operation a new piece of equipment known as the Edison Dictation Lab.

This machine, fairly new to the market, is designed to facilitate the teaching of shorthand. It is a composite of many machines, a tape recorder, a typewriter, which can be used separately if desired. The machine, portable, measures approximately 25 inches high by 18 inches deep by 14 inches wide. The advantage of this machine, according to Miss Janice Bagnato, who teaches Secretarial Science, is that each girl can take dictation at her own pace, without the distraction of interspersed keying. The student has on her desk a receiver and a head- phone. Each receiver has a speed control. There are four speeds and the student simply sets the control in the speed she desires. 10. Pink Floyd: Dark Side of the Moon - The band's groundbreaking concept album, including "Stairway to Heaven" and "Time.

Time to Call Legislators

At a recent meeting of the Fiftieth Annual legislators hold in Olympia, there was a discussion about the need for more funding for education. The legislators were concerned about the state's budget, and they wanted to know what the students at Highline were doing to make their voices heard.

Home Economics State Meeting

Highline CC was host to the annual Home Economics State Meeting. The meeting was held on Friday, March 14, with various speakers and activities throughout the day. The event was attended by many students and faculty members from the College.

Boeing Mgt. Method At Highline

Fuel management approach to the management of the company is discussed by Boeing in the presentation. This method is called the Boeing Management System (BMS). The BMS is a comprehensive management system that integrates all aspects of the company's operations. It is designed to improve efficiency, reduce costs, and increase productivity.

This Is DECA Month; State Meet Is Planned

In the year of the DECA State Meet these heroes of the DECA are being recognized. The DECA is a business education program that prepares high school and college students for leadership and success in careers in the business and marketing fields.

For the past three years out of state students have come to the state meet, but this year there will be a highlight. The state meet will be held in Spokane at the Spokane Civic Center. There will be 15 community colleges and vocational schools from across the state participating.

Boeing is hosting the event and will be providing support. The week will include presentations, workshops, and a networking opportunity for the students.
