Letters

Memory of 'Mr. Mac' Will Live On

Dear Editor:

To many people Grant McAlexander is now a statistic on the records of a geese-by-generation but we fortunate students who were able to have been soed under his delightful wit and humor, feel ourselves, I hope, a more broadminded, compassionate and understanding generation; more equipped not only to love each other but to meet our generation; more equipped to love each other than we were. How many teachers still treat their feelings and attitudes? Mr. McAlexander was a friend to both Chris-to non-student alike, will not be missed by students that might have the right to voice their dissatisfaction concerning issues.

The majority of the people on this campus now have the legal right to vote in all elections. A good plan to start practicing is to register to vote now. I believe that voting is a great habit. Perhaps your one vote won't make a monumental difference in an election, but you have your right to vote and you have a right to voice your dissatisfaction concerning issues.

Without boasting or the appropriate bureaucracy and the ability to register, I wish to register a conc-mark: I heard that we're doing our registration before obtaining a parking permit? It seems to me that this is a lot of bother to extract from the president of the student government a parking permit. It seems to me that this is a lot of bother to extract from the president of the student government a parking permit. It seems to me that this is a lot of bother to extract from the president of the student government a parking permit. It seems to be a problem to find a clean spot.

To many people Grant McAlexander was not only a very short time. When I learned of his death I was stunned and felt a great sense of loss. Not once did anyone look at me. Not just a personal loss, I felt that a unique man had been taken from us.

This letter may give the impression of school or personal novel but how many of us know people sixty or forty years ago that have not turned seven with time? How many teachers still treat each student as an important and try to understand their feelings and attitudes? Mr. McAlexander was this type of man, an exception, to the rule. By his devotion and concern for his students he will not only be missed by students that knew him but also by students that might have known him.

One who knew,
Tim McGraw

ToKnow Him

Dear Editor:

I knew Grant McAlexander for only a very short time. When I learned of his death I was stunned and felt a great sense of loss. Not just a personal loss, I felt that a unique man had been taken from us.

This letter may give the impression of a school or personal novel but how many of us know people sixty or forty years ago that have not turned seven with time? How many teachers still treat each student as an important and try to understand their feelings and attitudes? Mr. McAlexander was this type of man, an exception, to the rule. By his devotion and concern for his students he will not only be missed by students that knew him but also by students that might have known him.

One who knew,
Tim McGraw

The Whys, Wherefores

Without boasting or to the appropriate bureaucracy and the ability to register, I wish to register a conference. I heard that we're doing our registration before obtaining a parking permit? It seems to me that this is a lot of bother to extract from the president of the student government a parking permit. It seems to me that this is a lot of bother to extract from the president of the student government a parking permit. It seems to be a problem to find a clean spot.

For five dollars, Highline Community College should be satisfied with a receipt, a parking form and a driver's license through, why anyone would have a car and not be a license beyond me.

If the purpose of the registration is to support the number of the car, I've just thought about it. I wrote down my number from memory and the beacon turned on and moved me from house to house.

If the purpose of the registration is to support the number of the car, I've just thought about it. I wrote down my number from memory and the beacon turned on and moved me from house to house.

one who knows,

Dean Grover

Less we forget

Grant McAlexander, veteran Highline Instructor, is passed from the scene. The Thunderbird has had the opportunity to inquire as to what tribute will be paid to the man who has been a faculty member for 15 years. Mr. McAlexander has made his mark on Highline through his loyalty and faithfulness.

I interviewed Mr. McAlexander last year when I was a reporter on the staff. I was impressed with his deep interest in Highline, its students and the youth of today in general. From his well kept library, I learned that he is a hard working, dedicated teacher who has always looked at life with pride. He seemed to glory in their accomplishments.

The Thunderbird received a letter from Mr. McAlexander during fall quarter, which was never received. We wish to publish it. It read:

To: Solving, Mrs. or Mrs., as the case may be.
From: G. McAlexander
Subject: 'Less we forget...'

'Congratulations. Your Oct. 13, 1973 Thunderbird is the most outstanding issue yet, this includes organization, photography, effectiveness of writing, selection of stories, etc.

You must indeed be blessed with an inspired and talented group of individuals making up the staff. And, verily, they must have a good editor.

Many happy returns!!!

G. McAlexander

apathy prevails

Next Thursday and Friday, HCC students again get the chance to display their apathy for student government elections. A full slate of officers will be elected, if anyone turns out to vote.

In the past, the representatives for the 5,700 HCC students have been chosen by anywhere from 80 to 300 students. So, if the trend continues, there will probably be 500 students that will vote to fill the 13 spot for the next city council and 216 students that will vote to fill the 13 spot for the next city council.

Apathy toward elections seems to be a fault of our whole American society. Only in presidential election years do the most people feel that they should get out to vote, and then only because they dislike one candidate more than another.

Only in presidential election years do the most people feel that they should get out to vote, and then only because they dislike one candidate more than another.

Mr. Mac cared, and was often called 'Mr. Mac,' was unique in that his purpose was to develop the ability to effectively study the social sciences, and the principles taught could be applied to other college courses as well. While we like to think that he helps enter college in the study habits, Highline College students recall that he was a school who emphasized development of the student rather than development of the subject matter that Mr. Mac cared. In fact, he believed so strongly that a personal touch was needed in relating to young people, and tried to reach each student, often through personal interviews and questionnaires. This dedication to his students, this individual approach, is what set him apart from the teacher who emphasizes interest in learning, high grades, personal knowledge, and for his students he was a school who emphasized development of the student rather than development of the subject matter. His attention to individual potential, for his students he was second to none. Highline College students recall that he was a school who emphasized development of the student rather than development of the subject matter.

Grass Is Classroom Setting

Springtime came to Highline in the latter part of March and a class took to the outdoors. The sunshine was much appreciated after the long cold and rainy days.
There is a new face in Highline's Audio Visual division. It's Bill Brown, who will help produce pictures, video tapes and transparencies presented by the AV lab. Mr. Brown worked for the counseling center in 1969, filming and narrating orientation movies and slide-and-screen presentations on the college's special programs. During this time, he would spend much of his time in audio visual, and one day a week working for the counseling center.

Brown's a former disc-jockey, the kind that was popular in the early days of rock and roll, and an agnostic magician. Interested in photography since a youngster, Brown says the late, late show from the Nippon black and white films is what he knows about films and photography.

Despite his love of old originators of cinematic art, Brown appreciates what is presented as a serious art form. His interest in films is very much appreciated inside the counseling center, where his work is often used in counseling sessions.

Brown is a member of the Visual Erdman Associates, and one of the categories he feels strongly about are films about the counseling center. He produces films and narrates orientation films, which are aimed at the counseling center's audience.

Interest

Students interested in applying for financial aid for next year should visit the Financial Aid Office by April 15 and pick up appropriate application forms.

At Highline Community College, there are many options for students to pursue various careers. The college offers a wide range of programs in fields such as technology, business, and healthcare.

Financial Aid

The Financial Aid Office is currently open to assist students in applying for various types of financial aid. They are available to help students understand the application process and provide guidance on different aid options.

Visit Highline

Visiting Highline Community College is a great opportunity to explore the college's facilities, meet with faculty and staff, and learn about the various programs and services offered.

Highline Community College is conveniently located in the heart of the Tacoma Metropolitan Area, providing easy access for students from all over King County and beyond.

Welcome to Highline

Highline Community College is a welcoming and supportive environment that encourages personal and academic growth. The college is committed to providing a high-quality education to its students, and offers a wide range of academic programs and support services.

For more information about Highline Community College, visit their website or contact them directly to schedule a campus tour or attend a virtual information session.

Eggs, Eggs: Who Has The Eggs?

by James L. Smith

Did you find any eggs? The Child Care Center held an Easter Egg hunt for the children on Friday.

Under the supervision of Ed Beuchampe, AIB Presi- dent, the egg hunt was held in the student government offices. From there the 24 young hunters proceeded to the office of Mr. Philip Swanson, director of student activities. They were supplied with their own bags of candy to keep the egg hunt going.

Mr. Philip Swanson is a generous coordinator.

The children are on the search and their job is to find the eggs. Some of the children held bags of candy and others had to use their own bags.

Eggs are placed in various offices throughout the campus. The children had to search for the eggs in the offices of the student government, the Panther, and the AIB office.

In the offices of the Dean of Students, Jesse Cuskey, the children were on their own to find the eggs. Miss Helen Jamieson, Dean Cuskey's assistant, held one of the children on her lap and a supply of eggs was placed in her lap.

The children were given eggs to use as they searched for more eggs. There were a few notable quotes from the children, such as: "I found two eggs!" and "I found a chocolate egg!"

Miss Helen Jamieson said, "I have never seen children so happy to find eggs. It is a great way to celebrate Easter."

The children were happy to find eggs and everyone enjoyed the Easter Egg hunt. The children were given a treat after the hunt and everyone had a good time.
PETE'S BROTHER MIKE AT HCC

by Chris Coon

Mario Puzo's novel THE GODFATHER has been successfully translated to film and all the actors involved did an outstanding performance. The movie lasts three hours and cost $15 million to produce and it is well worth viewing. The showing will be April 12 at 11:30 a.m. and 7:30 p.m.

THE GODFATHER stars Marlon Brando as the head of a New York crime family. The film is based on Mario Puzo's novel which details the rise and fall of the Corleone family. The film is directed by Francis Ford Coppola and features an all-star cast including Al Pacino, James Caan, and John Cazale.

Although not a conscious effort of the screenwriter, the film has a strong sense of the power of family and the importance of loyalty. The characters are well-developed and the dialogue is rich and complex. The film is a critical and commercial success, winning five Academy Awards and grossing over $100 million at the box office.

Survival IS Film Topic

by Chris Coon

The famous school of leadership in Wyoming is being spotlighted in a feature-length film. "Thirty Days to Survival" is the story of a group of hikers who are stranded in the mountains. The film is directed by Francis Ford Coppola and stars a cast of up-and-coming actors.

The purpose of the film is to show the importance of teamwork and the value of the knowledge gained from the best hikers and experienced guides. The film is a critical and commercial success, winning five Academy Awards and grossing over $100 million at the box office.

A Rush Act Exposes Skull

by Fred Bower

One day during the production of a film about a young man who was shot over his daughter, the director observed that the skull of the victim was intact. The director realized that he had been misled by the actor playing the role and decided to portray the true story.

The film is a critical and commercial success, winning five Academy Awards and grossing over $100 million at the box office.
**Film To Open**

The premiere of the concert for Bangladesh, starring Eric Clapton, Bob Dylan, George Harrison, Billy Preston, and others, will open April 18 at the Moore Theatre in Seattle. Filmed last fall in New York City, the concert was organized by George Harrison to aid the United Nations Children's Fund for Bangladesh. The concert was named by Newsweek, "a triumphant success. An historic event." New Yorker magazine wrote, "This is extraordinary. Nothing quite like it has happened before."

The concert featured the first public performance by Bob Dylan in over two years. The first for Seattle, George Harrison in six years. It was the first time the two ever appeared on the same stage.

Harrison and his band followed by George Harrison and Phil Spector.

Tickets are now available at the Moore Theatre box office, 201 Fifth Avenue, Seattle. Box Office Hours: 11 a.m. to 5 p.m. weekdays until 7 p.m. Phone: 221-0218. General admission price is $5.00.
Pool Makes Play On A Spring Day

Children from the Child Care Center on Campus played in the pool on a warm spring day. They are attended by some of the students who help in the Day Care Center. Warm spring days allow walks for the campus children.

by Nancy Schaefer Hoppe, Jr.

Highline Booknotes

Spring quarter is a lovely time to be on the Highline campus. Blue skies bring classes out onto the lawns, and there's no better place to take a break than the lawns, and there's no better place to take a break than the green. Be sure to have a book handy for the many days, it's really inspiring to be reading something worthwhile out in the open enjoying the fresh air. Pick out something new in the library to absorb, summer is just a few months away and often tends to delay any serious reading until the fall.

KRUSHCHEV REMEMBERS

We have grown up with Krushchev as the representative of Russia. Now that his leadership is behind us, we have an opportunity to examine his point of view on such issues as the Cuban missile crisis, the.S. invasion of Cambodia, and the Hungarian pacification in 1956. For sure the Russian revolution has the Western world been able to read the memoirs of a Soviet leader, and Krushchev's reminiscences should be of special interest to those "cold war" generation. MYSTICS & ZEN MASTERS

by Thomas Merton

The complexities of our modern world have left many searching for some meaningful way to relate to life. In this book, Merton feels we need to gain new perspectives on spirituality; our spiritual and physical survival may depend upon these perspectives. His book is a study of Eastern religious experiences by our half of the world. Merton hopes to bridge this gap through discussion of Eastern mysticism, and enable us to appreciate rich and ancient spiritual experiences. BUILDING TO SCALE

by Jackie Smith and Theodore Hoppe, Jr.

Instructions, step-by-step, on how to build a scale model from an architect's plans are outlined in this volume. The book illustrates the procedures used, as well as describing tools and materials needed. Building techniques appropriate for both buildings and techniques in building scale furniture and figures, handle the models' layout and detailed structure. This little book will be of interest to those interested in architecture and construction, as well as those who seek knowledge about the use of three-dimensional models in education and industry.

EXPERIMENTAL CINEMA

by David Curtis

This little known little book explores the history of experimental film-making throughout the world, discussing some little known filmmakers. Curtis analyses the varying film approaches, and shows us that film can be theatrical, painted, abstract, and structured. From the time of the French revolution, the time of the French revolution, the films have been shot and directed by computers. Lents said, "The cinema must and shall become the foremost cultural weapon of the proletariat," and Pope Pius XI recognized that cinema is the "foremost cultural weapon of the proletariat." The new approaches to film-making are a reflection of our changing times, and thus deserve our attention.

HIGHLINE 50,000 JOBS

SUMMER EMPLOYMENT CAREER OPPORTUNITY PROGRAMS

The National Agency Of Student Employment Has Recently Completed A Nationwide Research Program On Jobs Available To College Students And Graduates During 1972. Catalogs Which Fully Describe These Employment Positions May Be Obtained As Follows:

- Catalog of Summer and Career Positions Available Throughout The United States In Resort Areas, National Corporations, and Regional Employment Centers. Price $3.00.

Free Sickle Cell Test to be Held

by James L. Smith

From the Afro-American Student News Happenings 2722 Southlake Ave. Each count of interest.

Sickle Cell Anemia. Peoples free clinic at 2711 East Union will offer Sickle Cell Testing on Tuesday and Thursdays. This program to the people has been established by the Black Panthers Party, 2711 East Union, Seattle.

Many doctors are unaware of the disease. Patients with Sickle Cell Anemia are often treated for disease with similar symptoms because sickle cell in the patient is not recognizable or suspected. Many doctors are unaware of the disease. In fact, where malaria is prevalent, patients must be told likely to die of cell cell trait is an extremely serious and painful disease that causes early death, and occurs almost exclusively in children born to black parents who have what is known as the sickle cell trait in both parents.

The Sickle Cell Trait is found in the red blood cells of about one out of ten Black People. Simple and reliable blood tests can identify sickle cell carriers. The same "Sickle Cell" comes from the sickle shaped red blood cells resembles the "sickle shaped" loop used to cut grains or grain.

Millions of people throughout the world the sickle cell trait. But itself the sickle cell trait is no threat to health. In fact, where malaria is prevalent, patients must be told likely to die of cell cell trait is an extremely serious and painful disease that causes early death, and occurs almost exclusively in children born to black parents who have what is known as the sickle cell trait in both parents.

The Sickle Cell Trait is found in the red blood cells of about one out of ten Black People. Simple and reliable blood tests can identify sickle cell carriers. The same "Sickle Cell" comes from the sickle shaped red blood cells resembles the "sickle shaped" loop used to cut grains or grain.

Millions of people throughout the world the sickle cell trait. But itself the sickle cell trait is no threat to health. In fact, where malaria is prevalent, patients must be told likely to die of cell cell trait is an extremely serious and painful disease that causes early death, and occurs almost exclusively in children born to black parents who have what is known as the sickle cell trait in both parents.

Life Insurance Soliciting On Campus Warrants a Bit of Investigating

by Doug McGannagh

I was approached recently by a life insurance agent on campus, who offered a policy for my approval. The agent, who represented a large well-known insurance company, told me, "Statistics show you are in a better risk because of your age, consequently your premium payments will be lower for the rest of your life."

I was rather skeptical for two reasons, although I wouldn't want to do with $25,000, and secondly I cannot afford the premium. This incident prompted me to investigate the life insurance "on-campus" game and my conclusion is that unless a college student has children, as many of us do, it is not always worthwhile to buy life insurance. This is one of the safest looks imaginable, from the creditor's standpoint.

First of all, payment is almost always guaranteed because of the arrangement called a lender reserve. For every financed insurance policy an agent sells, a certain percentage of his sales commission is withheld by the insurance company and returned to the bank or financial company. (The commission on the first annual premium of a life insurance policy is the amount added to the loan. In the event the student defaults on the loan, the agent of the insurance company will get the premium from the bank.)

In addition to signing a policy agreement, the student-policyholder must sign a policy assignment form. If he does, the insurance company is made the first beneficiary so it can collect the unpaid premium and interest.

The insurance company has itself repayment of that first year's premium and the account interest on it. Built into the typical college student's policy is a separate savings account into which deposits are paid automatically. The money comes, of course, as an add-on to the premiums paid by the student at the beginning of each year. After five years or whatever the term is, the balance in the savings account will equal the amount owed. At that point, the insurer takes possession of the savings account, seeds it with the amount of the loan and arranges as a mortgage on the kind sold to students in a new 30- to 60-month plan called a "beneficiary."

Such a note, signed by a college-student policyholder, is one of the safest looks imaginable, from the creditor's standpoint. First of all, payment is almost always guaranteed because of an arrangement called a lender reserve. For every financed insurance policy an agent sells, a certain percentage of his sales commission is withheld by the insurance company and returned to the bank or financial company. (The commission on the first annual premium of a life insurance policy is the amount added to the loan. In the event the student defaults on the loan, the agent of the insurance company will get the premium from the bank.)

Warrant a Bit of Investigating

One must be informed of the facts before signing any note. This incident prompted me to investigate the life insurance "on-campus" game and my conclusion is that unless a college student has children, as many of us do, it is not always worthwhile to buy life insurance. This is one of the safest looks imaginable, from the creditor's standpoint.

T-Bird Cindersmen Open Season Right

The Highline College track team started the season right by beating both Yakima Community College and Shoreline Community College on March 17, at Highline.

HCC Track Coach Don McConnalphy testified that, "the times and marks set at the meet were not exceptional however for a meet this early in the season, they were good."

One such example, was the 100 yd. dash, where after two false starts, HCC's Mike Carr ran the race in 10.40 seconds, with teammate Vern Graybeal close on his heels. Both Carr and Graybeal went on to finish in the time order in the 220 yd. race as well. Carr attributed his success to the fact that he was wearing green and it was St. Patrick's Day (Mike is very Irish).

Both because 8's team colors are green and it was St. Patrick's Day (Mike is very Irish).

In third place, sprinter Vern Graybeal entered the shot put and finished high jump.

The high jump took on a semblance of a professional competition, as the long-distance run ruled the state circa 1964-66. A pack of T-Bird runners took over in the mile run and swept the event with Len Bromangal winning with a time of 4:32.3, and javelin with the T-Birds picking up all other franchises.

In the 100 yd. run a fierce battle for first place was fought by HCC's Paul Heiber and Recever Saucier, but Steve Quinlend of Highline who had been second in both mile and 2-mile, started a strong kick in the last 75 yds. in order to win the event in a time of 10.30 minutes.

Steve Heister won the 440 intermediate hurdles with a time of 52.5 seconds, followed by Bob Hall in 56.3 seconds.

Steve McClinton - Sports Quiz

1. Match the player with his nickname:
   a. The Duck: Don Smith
   b. Nite Train: J. Richard Snyder
   c. Roley: Roley Carpin
   d. Bubba: Mike Carr

2. Lenoy Wilkins has led the Sonics three straight years in an N.B.A. contest, who led them their first and last year?
   a. Chamberlain
   b. Smith

3. Name the starter battery for the Seattle Pilots in their opening game.
   a. Johnson, Nixon

4. Who was the only college player that took a strikeout for a base hit? (He is a pro now.)
   a. W. Finley

5. Name the player who knocked out Pete Cross in a recent N.B.A. contest.
   a. Finley

6. Name the "M" boys who played on the same professional baseball team (both are retired.)
   a. O'Malley, McKee

7. Name the Chicago Cubs superman and veteran of 18 years who has never played in a World Series game? (He retired and coaching.)
   a. Maris

8. The following N.B.A. stars all played on the same team: Al Allen, Tommy Hawkins, Nate Thurmond, Guy Rodgers and Wally F Canniff. Who tells you how many games did they win and for what team did they play?
   a. Finley

9. Was Babe Ruth pitching or playing the outfield during his amazing baseball career?
   a. Pitching

10. In tennis, Arthur Ashe is a well known figure, however, Seattle has an excellent representative in professional tennis. Who is he?
   a. Ashe
WHETHER WEATHER COOPERATES!)

There have been some longed-for steelhead in our rivers recently, but even as the season continues to limit its precipitation thoughts we must hope for a decent chance of finishing the season off in grand old fashion. The sun is shining as I'm sitting over this column and my thoughts are a million miles away. There is one particular area my thoughts are centered on. This is the Skookumchuck River above the reservoir. This area is just as wild as it ever was, the water crystal clear. The steelhead can be seen building just above the rapids and when a large spinner or spoon is pulled through the water you can hear it strike. Yes, this is the picture of peaceful contentment that I'm picturing. Next time you can't get out the energy to do your work try laying under a tree and thinking of your favorite stream and the challenge of steelhead.

LOWLAND LAKE SEASON TO OPEN

April 23 will be the opening day of the lowland lake fishing season. Once again this year we are seeing some very large fish. If you have been stocking your lake this year you will have a chance to take advantage of these large fish. As this is the last week of the season, make sure to take your limit of fish and enjoy the water.

THE HIGHLINE COLLEGE WOMEN'S TENNIS TEAM

Standing L. to R. Mary Jo Michaniewicz, freshman from Puyallup High; Wendie Harper, sophomore from Jefferson High; Debbie Rogers, freshman from Federal Way High; Liz Yankis, sophomore from Highline High; Linda Lovell, freshman from Mt. Rainier High; Robin Barrett, sophomore from Glacier High; Jan Lovendig, freshman from Mt. Rainier High; Debbie Rogers, freshman from Federal Way High; Liz Yankis, sophomore from Highland High.

Spring T-Shirts

ONE-WEEK SPECIAL

$2.25-$3.00

Springtime is T-shirt time and we offer a wide selection.

Get your new red-white-blue shirt now.

Women Subject Of New Class

A new class will be held at HCC from 7 to 9 p.m. Tuesday April 11 through May 3. The class is titled "Women and Literature." The course will be led by Doog McConaghey, a five before year English and has led similar seminars. The class fee is $6. It is cosponsored by the community College administration.

Advice On Advisement

Many Highline students have indicated that the career area is a constraining area of concern. There may be students who are exploring new areas who would like to be exposed to these new areas of concern. If a student were to be exposed to these new areas, it would be difficult to have a professional student who would be exposed to these new areas.

The Women's Program will be held in the Career Center. The program will be held on Wednesdays from 11 a.m. to 12 p.m. and on Thursdays from 10 a.m. to 12 p.m. The program will be held in the Career Center and will be led by Eve Shaw, who has led similar seminars in the past.
