Check Requirements:

Registration Starts Next Week

Advanced registration for Winter Quarter, 1972-73 will begin on Wednesday, Nov. 15. Booker Watt, registrar, announced that currently enrolled matriculated students with at least 28 credits as of Sept. 1, whose last name begins with the letter "W," will register first. Currently enrolled matriculated students should receive their registration packets and registration appointment dates by the mail early next week.

Students must have a record of Chest X-ray and/or a Tuberculin Skin Test with results made within six months of registration in order to register at their assigned time. A veteran may use his DD 214 Discharge papers as proof of chest X-ray if the date of it is within one year.

Tissue tuberculin Skin Testing is available in the Health Center, Student Health, 1211, or at the Public Safety Building, 3rd and James St. – JU 3-5010, White Center, 3rd and 19th Ave SW – CHI 4494.

Veterans who have served in Cambodia, Laos, Thailand, or Vietnam since August 1, 1964, who qualify for payment of resident tuition rates will pay $7 per credit, or $9, as a full-time student.

Veterans who have not previously paid this special rate, must present a copy of their DD 214 Discharge papers at registration time to qualify for this rate. Any veteran who qualifies for this special rate, and has resided in Washington for at least 12 consecutive months immediately prior to entering the military, is entitled to the $250 Washington State Veterans' Bonus. Applications for this benefit are available from the Veterans Affairs Secretary in the Administration Office.
the broader view

The concept of the Long House in the planning stages at Highline holds great fascination. It allows the Village of a Campus engaged in culture, as well as educational values and enthralls thoughts of expansion into even broader aspects of a center for community thought. It allows that the facilities and studies to conceive what the future of this country should be, beginning at the community level.

We are already late in looking at land use, pollution, population control, nature and the time has come when they must be priority subjects. It will take great minds, flexible minds, to find the answers to the many problems that are developing from the increasing population, the constant misuse of land. We need some great planners in this country and a reeducation of values. They should begin at the community level.

It is difficult to conceive of this state with all its greenery, its timber, lowering with high-rise apartments and houses like houses, one on top the other, but it was probably equally as inconceivable in California some time back.

Our valleys are now being filled with concrete; it is called industrial expansion. It should be called value destruction. Our of-timber, towering with high-rise apartments and rich cultural values.

get involved

If you have been labelled a "bleeding heart" or "knee jerk" (to me, anyway) that makes a great available at Highline that may appeal to you. Though the Community Involvement Program bills itself as a Community College level; Engineers, BA's, all of which I do. Nothing is perfect for the people we, in which we do live and on which future generations can live. Respect for the people who have the right to do their own thing, respectively yes, for the roads that form the foundation.

It is a very important thought — that a Community College could become a center for community thought. That it could play a meaningful role in dispelling racism, filling a true respect for the land and the way we use it — and it all started with Long House and rich-cultural values.

let's give thanks

Thanksgiving Day is a time to come and go to the time our next issue will be in press, which prompts us to focus on some early Thanksgivings.

Thanks for the efforts toward a possible peace. Thanks for the opportunity to vote for our favorite candidates and rejection on the local, state, national and levels.

Thanks in all its forms of appreciation for the variety of weather that makes it possible a wealth of flowers and trees.

And finally, thanks for a campus where 27 buildings, over 300 courses, and a faculty of divergent backgrounds and interests.
Alternate Service Required

SEATTLE WASH. — "Young men who are classified as conscientious objectors by their local draft boards, are required by the law to serve a period of 24 months in an Alternate Service program," state selective service director Dick Marquand explained.

"This Alternate service program must be in the nature of public, and not limited to the activities of charitable or religious organizations; nor can it be for the benefit of the general public, or for the improvement of the public health or welfare, but must be educational and scientific activities in support thereof. When such activity or program is not proriency devoted to the benefit of the members of such organizations, associations or corporation, it is for an increasing the membership thereof."

"Employment in an activity of an organization, association, or corporation which is either charitable or scientific or educational is not to be considered as Alternate Service, but we do have some conscientious objectors employed within the State in an Alternate Service program. Employers tell us they are extremely pleased with the caliber of work being performed by conscientious objectors.

"The State Department of Employment which may be considered to be Alternate Service is limited to the employment of nonprofessional workers in the area of social service under the direction of the local welfare agency. This employment is for the benefit of the poor, but it does not provide for the general welfare of the public."

"Employment by the U.S. Government, by the State or local government, or by the District of Columbia is for the benefit of the public and is not an Alternate Service program."

"Employment by a nonprofessional worker in an organization which is primarily engaged in a charitable or scientific activity conducted for the benefit of the general public or in carrying out a program for the improvement of the public health, including educational and scientific activities in support thereof, when such activity or program is not primarily devoted to the benefit of the members of such organization, association, or corporation, or for increasing the membership thereof, is Alternate Service.

"Employment in an activity of an organization, association, or corporation which is either charitable in nature performed for the benefit of the general public or for the improvement of the public health or welfare, including educational and scientific activities in support thereof, when such activity or program is not primarily devoted to the benefit of the members of such organization, association, or corporation, or for increasing the membership thereof, is Alternate Service."

State Dept. Doesn't Care

Letters Cont.

Dear Citizen: People of Seattle want to be involved in the beginning of any planning process, not after all the decisions have been made. Our state government is aware of the problems. Seattle's future will begin next month through the Seattle 500 Commission. The Commission's work, its programs, objectives, will provide the backbone for a new concept of city governance and will also produce recommendations for procedures for citizen and government participation in city government. The Commission will be launched at an afternoon conference on Sunday, November 25. The theme of the conference will be "Seattle, Year 2000." Our keynote speaker will be Alvin Toffler, author of Future Shock. On the following Monday, November 26, the Commission will meet for its first working session.

"For the Commission to be successful it is essential that many citizens join the task forces and that various points of view be represented. To date, the recommendations and reports adopted by the task forces deal with the education of the City. The task forces are presently working on the task of developing a plan for city governance and will be reporting their findings to the Commission."

BSU Elects Officers

The Associated Student Body of Highline College recently held a leadership conference and elected officers of the ASBCC. The conference, which was held Saturday, October 28, involved students from all of the colleges in the Community College system. The conference was sponsored by the ASBCC and the theme was "Charitable Activity for the Benefit of the General Public." The officers elected were: President, Larry Woodley; Vice President, Arthur Dever; Secretary, Brenda Edwards; and Recording Secretary, Barbara Williams.

"Mr. Woodley, president; Arthur B. Dever, vice president; Brenda Edwards, secretary; and Barbara Williams, treasurers." ASB

U of P Seeks Relief For Bengali Refugees

STOCKTON, CAI.— The thirteen million refugees who have gone home to Bangladesh are facing widespread destruction. In some instances while villages have been destroyed and abandoned the government has not taken any positive action to aid in rebuilding. In other instances, the Bengali government has gone home to a land where low crops remain to be harvested and, therefore, little food is available. The Bengalis need financial support. On November 21, there will be a National "Fest" for Bangladesh, to raise funds to help the Bengalis in their time of need. The Bengalis are organized through the Associated Students of the University of the Pacific (ASUP) and the National Association of College and University Food Service Directors, and Concern for Bangladesh.

At this printing Highline has made no plans to participate in the "Fest" for Bangladesh.

Post Mortem Election Night

Four More Years To Make The Point

by Selvig Bower

It was early to bed for the President, the earliest recalled in the history of the nation. Before most Washington voters had consumed their dinners and many were still waiting at the polls to mark their ballots, the announcement came that President Nixon had won 273 electoral votes, seven more than needed to secure his position.

Senator McGovern telegrated his congratulations to the President with the power of a rebuke. "Thank you, Mr. President, for your hard work with him for peace and understanding. Within the shadow of St. Paul's, I annumplished an appeal to speak on the victory and to be a leader for all, as the President has done. "The greatest victory, the greater the responsibility." Before the lights dim on the T.V. sets of the nation, the President has all the electoral votes as opposed to 17 for McGovern, 56 in forty-eight states, the only massachusetts and the District of Col umbia have been given his opponent. New York City has gone Republican for the first time since 1937. "Littleton" (1861) while in Washington State, re-elected Dan Evans values his pleasure with the Nixon victory.

Rhetoric Disguises Apathy

by Dwayne Grover

Now do you face the prospect of four more years of Richard Nixon's bestiality? Hardest of all to take will be the words of America over radio and T.V. He will be lying. They are too stimulating for Nixon's audience, they have a knock of asking the wrong question at the wrong time. Instead, we'll see the President at his desk with the presidential seal fixed on the curtain behind him, the American flag flaps at his side. Every third sentence will begin with the word "I, as the president seeks out his last sense of sincerity. It's not the malaise of Lyndon Johnson's "My fellow Americans..." it's just plain rhetoric. He'll talk to us in rhymes. He's been using them for 22 years. We'll return to the last spark of serenity. The American Republic is united in a way of oblivion, and nobody will care anymore. When unemployment rises again, we'll be shown foreign countries in the news. When the rate of inflation increases, we'll be told that we have the lowest rate of inflation in the world. Besides, disposable income is still up as the rate of inflation. It's too bad about those with fixed income and those with no income at all. Rhetoric.

We can look forward to one or two more appointments to the Supreme Court. men (and women) who will be "strict constructionists". Does it say in the constitution that black children can attend the same schools as white children? Where does it say that the use of property taxes to finance education is reversible? Where does it say the death penalty is cruel and unusual treatment? Rhetoric. What will he tell us when internationally supervised elections don't take place in Vietnam? Or if they take place and communities win? What will he say when the civil war between north and south continues? Will he tell us again that the American soldiers did not die in vain? That they gave their lives so that the Vietnamese may someday know what the word freedom means?

'Bleeding Hearts' Stole Convention

by Doug McCauslough

It has been close to four and one-half months since I attended the Democratic National Convention. It also has been four and one-half months of forced support of George McGovern as a lesser of two evils. Only now that "St. George" has had the hell beat out of him, can I begin to express my previously hidden thoughts. Only now can I warn all people in the political process of the false do-gooders that keep the Democrat party out of this year's presidential election.

This year's convention process was filled with the type of policies that have tainted liberal-hearts for the past 100 years. EXAMPLES: Willie Brown, the California delegation leader, telling his four floors when to vote when faced with a creden tial challenge vote...or...the passing around of a sheet telling McGovern voters how "George" would like them to vote.

What Mr. Brown and Frank Mankhowsky wanted to impress upon their lieutenants, was to stay seated and vote the way they should. Exactly what the McGovermites had been previously ideologically opposed. Of course good liberal types always want to have people vote "the right way," President Wilson persuaded a military force into Mexico when the Mexicans were not voting the way they should. President Kennedy assured the American people that "we are in Vietnam to introduce proper elections procedure (at gun points)." President Johnson also warned the Democratic Republic citizens to vote for the right government in 1962. What was objectionable about McGovern's convention? It was run on the domestic equivalent of those liberal do-good intentions that took us in Vietnam and fiasco that we democrats seem to always get involved in.

Now begin to wonder whether McGovern and his staff, had they been elected, would have pulled the type of shenanigans in the White House that the Nixon administration has done in Miami.

McGovernites began their crusade by indicating Mayor Daley from the Democratic process. Then after the convention, they not only relied on him, but helped to pick up a few votes on Edward Hanrahan's candidates in Illinois.

This is the typical parallel of our liberal crusades. Academic do-gooders feel they know how the peasants ought to vote. In fact, "self-determination" is so good, that which emerges from this process must ultimately be also good. But if this is not to be the case, e.g., if the people heighten awareness for the Daley cause - then it is because they cannot see their own true interest; they vote under a misconception and the system must be "adjusted" to get the "right" answer.

The bleeding-hearts figured they can take the voters who knew McGovern, then evil forces (Nixon) have chosen the voters out of that knowledge. Thus any means are now allowable to overcome the disadvantage. Mayor Daley can steal enough votes for "us" - i.e., Hanrahan and Good, and other McGovermites, to overcome the downstate Republican vote.

The McGovermites idealistic plights is a familiar one. It is the story of Vietnam. We went over to get rid of corrupt dictators - something we namely accomplished in the case of Dien - and then got stuck with Thieu. Arriving to replace old manipu lations, we were soon forced to adopt them - anything to save the crusade, including the very things the crusade was first aimed against!

Bright liberal do-gooders do the strangest kinds of bad (dumb) things. Forced to crawl in order to win, they do not even win. But that, of course, is always somebody else's fault. I hope that the Democratic party years to come - especially in 1978 - disregards the voidful minority which pushed the caucuses. Disregard the lying of "Don't jump on our nomination," or "Give us the people's choice." A candidate which placed second in the ac tual plural primary vote.

McGovern and his supporters have no one to blame but them selves. The people have truly spoken. George, who means you might just like to let someone else run in '78.
SWEA Delegates Attend Statewide Leadership Conf.

The Highline Community Col-
lege chapter of Student Wash-
rank held their first meeting of
the 1972-73 term on Wednesday,
Oct. 11, at the Administration
Building. The S.W.E.A. chapter
was formed to provide an oppor-
tunity for students interested in
national, state and local issues
relevant to the education of stu-
dents. The purpose of the chapter
is to promote the interests of
students in the education field
and to provide a forum for the
exchange of ideas and informa-
tion. The chapter is open to all
students interested in education
issues. For more information,
contact the S.W.E.A. advisor at
the Administration Building.

Listening Lab Buzzes

The second meeting of the
Child Development class will be
held on Thursday, Oct. 12, at
7:00 p.m. in the Library. The
class is open to all students and
is designed to provide an oppor-
tunity for students to discuss
issues related to child develop-
ment. The class is led by Dr.
Josephine Smith and is invol-
untary.

Veteran's Committee Serves Board

OLYMPIA, WASH. — State
Veterans' Action Committee of
the State Board for Community
Colleges was announced Vet-
ner's Day. The committee is
chaired by John C. Han
and is composed of state
veteran's council chairmen.

Beginning Journalism
Has Change of Time

A special webinar on June,
will be held online at 12:00
p.m. CT. The webinar will be
open to all students interested
in journalism. For more infor-
mation, contact the journalism
advisor at the Administration
Building.

Attorney General
Describes Job to Class

Attorney General Bob
Ehrlich spoke to his fellow
students about his job as At-
torney General of the States.
Mr. Ehrlich discussed the
requirements of the position,
the challenges he faces, and
the importance of the role
in our society. The class
was held on Monday, Oct. 9,
at 10:00 a.m. in the Library.

Fifth

Dimension

In Concert

The Fifth Dimension, one of the world's most well-known vocal groups returns to Seattle for one performance, Saturday, Nov. 23, at 8:30 p.m. in the Seattle Arena.

Playing to near-capacity crowds in their previous Seattle performances, the Fifth Dimension are famous for their colorful costuming and choreography, as well as their myriad of hit records.

Their first hit, Up, Up and Away, won them Grammy Awards in 1969. The Fifth Dimension was awarded the Grammy Award for Best Rec-

ord of the Year with Aquarius. Let the Sunshine In. Other hits include Wedding Bell Blues, Sweet Blindness, House

Seal Picnic. Save the Country, One Less Bell to Answer, and their latest hit, If I Could Reach You.

The group consists of Marilyn McCoo and Florence LaRue, their latest hit, If I Could Reach You.

Gam In Rep's

'Camino Real'

Rita Gam, film and stage

actress has signed with the Seat-

tle Repertory Theatre to play the leading role of "Marguerite" in Tennessee Williams' CAMINO REAL, SRT's second production of the 1973-74 season.

Showings of CAMINO REAL will begin later this month.

Miss Gam has many Broad-

way credits including GIRL IN

MY SOUP with Gig Young, THE YOUNG AND THE FAUlT, THE INSECT COMEDY, and FLAG IS BORN.

region she made her film debut in THE THIEF with Roy Milian, a picture without dialogue. Since then, she has made it

movies including NIGHT PEOPLE with Gregory Peck, ELITE with Jane Fonda and Don Sutherland, and the Otto Preminger production, SUCH

GOOD FRIENDS.

In 1962 she received the Ber-

lin "Silver Bear Award" nam-

ing her "Best Actress" for her role in Jean Paul Sarte's film NO EXIT.

On the stage Miss Gam has played a variety of roles including "Masha" from Chekar's THE THREE SISTERS, "Eliza" in Molier's THE MISEN, and "Cleopatra" in Shakespeare's ANTHONY AND CLEOPATRA.

Gam is also the author of THE BEAUTIFUL WOMAN.

'Shotgun' Here

The Band "Shotgun" will spotlight the Friday Rock Concert of Nov. 17 at HCC. The one-hour event will be held in the student lounge at 5:30 p.m. It is free to all students.

'Simon,' 'Mickey' At Series' End

The concluding three programs of Jim Smith's Fall Film Series include in their fare a foreign film, an American made film, and a program of "shorts.

The films will be shown on Tuesdays, Nov. 14, 21, and 28 in the Lecture Hall at 3:30 p.m. The showings are free to on-campus audience.

The final programs are:

Nov. 11, SIMON OF THE DESERT. Throughout his career, Lail Ballew has constantly attacked the Church but never without some element of humor. SIMON OF THE DESERT has been called his most controversial work. "A released, entertaining fable that manages to attack Christianity as savagely as have more serious films.

The film is based upon the life of a 13th Century saint, Simon Stylites, who withdrew from the world to commune with God atop a pillar.

Simon, on top of a 30-foot pillar in the middle of the desert, hopes to spend a life in repentance and meditation, and avoid all possible worldly temptation. Simon is a human saint though - he sometimes forgets the end of prayers and is tempted to go home to his mother.

Weaving in and out of the film is the devil, portrayed by Silvia Pinal. Simon appears at one time as an innocent little girl rolling a hoop, then turns to reveal a worldly wicked face. Later she becomes a bearded Christ, with a lamb he kicks away. Finally, she emerges from a coffee which is still across the ground. She tells Simon that they are leaving on a trip. Simon succumbs to temptation, joins her, and winds up in a discotheque.

Nov. 21, MICKEY ONE. Arthur Penn's 1969 film depicts the plight of a nightclub comic from unipointed gangsters. The life of Mickey (Warren Beatty) becomes a perennial nightmare - he is about to become the enemy of the enemy - but he finds another to whom he is dear; or desperate. He ultimately changes his name, his livelihood, and his friends to protect himself. MICKEY ONE is symbolic in that Mickey's identification is an analogy of modern man's alienation.

Nov. 28. Several short films will be shown.

Eats 'N' Treats

by Tim Hillard

Eggs, Inc. - Where The Omelette Reigns

The omelette comes to life and becomes a delicacy at John Hughes' Eggs, Inc. located at 607 Prime Ave. It offers a very family-type atmosphere with wall decorated with love posters, and service by candlelight in the evening.

Although the omelette is not your idea of a lunch or dinner entree, Eggs Inc. with its various egg combinations will certainly try to meet your dietary need. The breakfast and lunch menu gives the patron an opportunity to try your own omelette by paying the basic charge of $1.50 and then adding desired ingredients such as toast or hash browns, hash browns, pepper, asparagus, dried beef, tomatoes, crab, chili, paneer and of course some bacon which is just a few from which to choose. To this creation add hash-browned potatoes and homemade biscuits and your meal is complete.

Dinner at Eggs, Inc. is a bit different. The menu offers you variations of omelettes ranging from the "Yeast" (American cheese and sour cream added to the "Barbunya" green peppers, etc.) to a slice, brown and white rice and biscuit up your dinner off. For the non-egg lover, two meat and poultry entrees are offered at dinner time. Dinner prices range from $2.75 to $5.50, but the price is well worth it.

Eggs, Inc. is open seven days a week, Monday-Saturday from 11 a.m. - 2:30 p.m. reopening at 5 p.m. and closing at 9 p.m. Monday-Thursday; 10 p.m. on Friday and Saturday. For those of you who were expecting guests quite a crew of weekends to be prepare to wait; however reservations are necessary. No alcoholic beverages are served.

Guitarist Returns Here

by Chris Cen

As George Van Piger, classic guitarist, will perform in the HCC Lecture Hall at 12:30 p.m. Nov. 14, this is the return engagement of this former composer, teacher, and performer. He has played here before - both times receiving a standing ovation.

Piger, born in 1964, began his music career by performing on stage at the age of 7. His first composition was written then, showing his potential.

He became interested in guitar at the age of 14, and took up the piano at 16. He was a student of Carl Stylites, who withdrew from the middle of a pillar.

He returned to states for successful tours of colleges and has given many concerts. Piger also teaches the Classical Guitar.

It has been said that Piger will perform one of the greatest American patriotic songs of my day.

Album Review

Listenin' In ...

Album: SAIL AWAY
Artist: Randy Newman
Label: Reprise 23 366

SAIL AWAY reflects America with the eloquent qualities of good rock and roll lyrics as often confused with pretentious symbolism. Randy Newman's ability to create this excitement through his down-home character and his timeless piano work, reinforces my belief that Randy is an important songwriter of this decade.

The album's title track opens with a rolling orchestration of piano white-caps break against comical lyrics, suggesting Simon Legre's excelling performance as a guitar pick up his band. . . . Uncle Emil Newman does the conducting on this and some of the other tracks. . .

Lonely at the Top is a reminder of Judy Garland or Marilyn.

By cooker (who is also produced by Larry Wariner) does some bold guitar work on the Night I had A Dream, a short adagio. The album also features Jim Keltner and Earl Palmer with sitting in.

The concluding tune, God's Song, is a blazing Thirties rag piano piece, which makes this my favorite cut. This also a prime example of Newman's potential for film scores on Broadway. Containing qualities of Emerson Lake and Palmer and David Bowie, Summer has already scored COLD-TURKEY and conducted the music for PERFORMANCE.

Old Man is another great side track depicting with class a bypath experience that makes death a welcome release. The selectable lyrics of political science suggest we drop the "big one" in a manner that . . .

The closing tune, God's Song, comes off all way as his religious and love songs do . . .

All things considered the only main negative aspect of the album in that some of the tunes have been done before. . . .

by Peter Westman

Failing Successfully Coming To Lecture Hall

by Dr. Dale Turner

Dr. Dale Turner, Seattle minister and famed convention speaker, will be in the HCC Lecture Hall on Thursday, Nov. 30, at 3:30 p.m. The topic to be discussed will be "Learning to Fail Successfully."

Recognized as one of the top ten speakers in the country, Dr. Turner directs his motivational messages to the public.

Listening, counseling, and giving seminars at the University of Washington, he was Professor of Religion.

Besides being a former football coach, Turner was a former student of Grand Rapids, Mich. Junior College, he was Chaplain for the football team.

Due to Turner's summer trip spent in Tokyo, Japan, working in their Steakhouse, "The city of Leavenworth, Wash. chose him for "Man of the Year." He has returned from Los Angeles to Vancouver, British Columbia, to Atlanta, and between.

HCC Singers Combine For Concert

As part of the excellent presentations by the HCC Concert Choir and Vocal Ensemble, a show will be presented Nov. 11, at 8 p.m. in the Lecture Hall. This complimentary show is open to the public.

The program includes Sacred and secular music from the 18th Century and present day tunes. The Vocal Ensemble will feature solos by Anne South and Peter Westman, the choir will be singing Brahms and will perform Gordon Weller's arrangement of "Doxology."
Is It 2001

Remember in "2001" when Dr. Floyd and his accomplices walked down a hallway and touched the "monolith." Well, next time you're downtown, stop in front of Seattle's "monolith" and wonder... could it have been...?

You can descend to the bottom of the structure by stepping onto escalators.

Or 1st National Bank

Story and Photos by John Brott

The bank is in many ways an imaginary railroad track reaching for the sky.

To be tall and 16 stories high is the idea behind the First National Bank.

Back outside again you look up one more time, noticing two window cleaners who never stop washing the windows of the monolith.

You're all done, and now you're leaving. Just "puff," and you'll exit very conveniently.
Faculty Interview

Hoem Views Europe's Change

Kenneth Hoem, foreign language instructor at Highline, received his B.S. and M.A. degrees at the University of Washington. His recent European tour took him to the Scandinavian countries for the fifth time. His first visit there was in 1957, he describes as "a dream come true." Hoem has Scandinavian heritage in a father born in Norway and a mother of Swedish and Norwegian descent. He teaches both Norwegian and French on campus and found the knowledge of the languages practical in both this tour and his previous ones abroad.

by Selvig Bowser

Fifteen years have lapsed since Kenneth Hoem first arrived in Trondheim. The uncle and aunt he stayed with have since passed away and change has come to the country.

As asked about these changes, Hoem replied, "Yes, in Norway particularly. Fifteen years later Norway is at the most-- out of a dream--country. Sweden is probably that an unattractive setting this summer. "Before long there is just not going to be any room for traffic," Hoem said in reference to Oslo. "There's talk of peripheral parking areas and no traffic going into the center of town." Housing in 1927 was a big problem. "It hadn't caught up from the war years. The people lived in old apartments in the center of town. They were nice.

Hoem grew up with the Scandinavian languages at home. He took a year of instruction in the language at Pacific Lutheran from a man from Oslo, then put it to use when he cated an uncle and aunt in Trondheim in 1957.

This summer's tour in which he again explored the lands of Scandinavia, took him to France, Spain and Morocco and in the transit, some lands in between.

He left the states on June 14 and returned on August 26.

Program in Stockholm had escaped too well this type of housing worked and the conditions was, "not very well," it left Hoem with a feeling of vagueness. "I always get depressed in places like that," he said. "I'm not sure the people there do.

"Stockholm has an impractical skyline, or did have, but there are these huge concrete buildings sticking up." Hoem it program in Stockholm had escaped too well this type of housing worked and the context was, "not very well." It left Hoem with a feeling of vagueness. "I always get depressed in places like that," he said. "I'm not sure the people there do.

"Terribly grim and ugly... ants in hills... bees in hives..."

The most marked change for an American was in the prices. You could live in hotels and eat cheaply with the American dol- lar at 3L. Now it is more expensive to live there than here. Hoem explained, "the problems that modern nations have, traffic, not enough roads-- those are especially bad in Oslo.

A vacation in Norway is almost prohibitive for the Nor- diet The resort and hotels are too expensive. The people for the most part, take a backpacking trip to Spain or Portugal. They usually book accommodations at resort hotels are cheaper in Spain even with the plane fare added. Hoem explained, and most of the people he spoke were planning their vacations abroad.

However, Hoem thought more people in Norway owned summer cabins than do the same here. The cabins are located in the mountains and in some areas you can see cabin villages snuggled there. Others are a little more remote and one couple of Hoem's acquaintance traveled there miles on foot to their cabin home.

Hoem found Oslo in the three of Urban Renewal. Sub- ways were being installed and the digging机器 made for very charming. If you have one or two, you are lucky." He spoke of the new housing coming up in Oslo and elsewhere in Norway and parts of Sweden. For the main, they are modern. Hoem added, "They are grim," he said. "Terribly grim and ugly. From a distance they look rather imposing. Get up to them and they look like ants in hills or bees in hives.

Hoem described the units as about fifteen stories high and just stuck in the middle of the landscape. Many people live that way. He explained, "We have a terrific amount that are alike, being into the center. It is their solution to the need for housing. It is not a very good one."

Hoem could see how the country would have a problem with construction. Foundations have to be blasted because of the rocky terrain, but he felt cement blocks were not the answer. "Building should be for people," Hoem said. "Something happens to them when they live this way. It affects their lives. It is State Planning. People like them don't have very much im- agination. They think in numbers." Hoem related that, "a TV, Sweden, but a breakfast in a train station was impressive. It offered cereal, hot and cold, juices, milk, rolls, tea, all kinds of bread, cheese, sour milk, yogurt, jam, coffee, and herring. "There is always breakfast in Scandinavia." Hoem said.

From Stockholm to Gothen- berg via the Gata Canal is a fantastic scenery for a time, he found. It was middle of August when Hoem was meeting in Stockholm during Hoem's visit. He felt that the Swedes had gone farther in the three-way thens we have here. They have three-way toothbrushes. Convenient, Hoem felt, but it creates a problem in disposing and a charm that he found in "97, is now lacking. Then he found coffee in cups, agar in bowls and cream in pitchers. The cream is now powder, the mug is in a packet and coffee in paper cups. Eating was too expensive in this manner. The prices are good for first class travel all over Europe. You can get all around Paris this way, it is an elabo- rate system. The signs tell you where to go. And it is much simpler to use once you get the hang of it and really quite inex- pensive. We did walk a lot in Paris. That is the way to see it!"

Paris is illuminated at night and Hoem saw it from the Eiffel Tower. They are the trellis of Norway.

As asked about the anti-America- n American, Hoem replied, "I am expected to hear a lot about America, but I didn't. Maybe they are tired of it. He did not feel any hostility towards Ameri- cans. He felt the people were casual and friendly. Versailles is a "must" on a European tour, the grounds and the Palace, as said that one could spend several days there, Hoem thought.

He found that the 14th of July, which is equivalent to our Fourth, came and went without much celebration. The traditional street dances were not to be found and he concluded, "May- be something is happening there, as here in our Fourth, just kind of blending." He found the modern type building in France, but not in England. The people in England are more practical in the language at; particularly, his mother of Swedish and Norwegian in Norway and a mother of Swedish and Nor-

SCC

3,000 more people in the U.S. can now talk to each other over the telephone lines. Now among that group are those in the Special Projects for the Deaf at Seattle Central Community College.

The telephone-teletype machine was set up in the deaf programs office at the college with the help of a telephone and teletype serviceman who is primarily deaf.

The machine consists of two parts. The teletype operator and then the telephone and a special box that the phone receiver is placed on which starts the whole mechanism going.

The receiver is placed on the special crate that the tele-

graph is activated. The caller dials the number. A small light on the box tells the person what is happening. It blinks quickly if the line is busy or follows the sound of the ringing as the call is answered going through.

When the call is answered, the light is steady until the ting begins.

Each TV unit is hooked up to lights in the house. When the person receives a call he takes the receiver and places it in his teletypewriter and then the message starts coming out on the paper.

The American Telephone and Telegraph Company releases its surplus equipment to the deaf people. Otherwise the telephone and special box is provided by the telephone company at a cost of $35.

The Board suggested that SU wait and ask for reconsideration of their application re-apply in 90 days. If, during that time, the state legislature passed a bill regulating 18-year-old drinking, the application could be given better consideration.

What's Happening On Other Campuses?

by Brian Mac

The Associated Students of Highline Community College are inviting you to come"Boogie" they are opening tonight, November 10, in the Pavilion. Music will be from nine to twelve. The Image, a popular group, will be the featured attraction. The Board previously rejected SU's application for a liquor license on the grounds that it would be illegal to serve liquor at the University according to state law.

W e tried to stress the distinc-
tion between laws that refer to the U. W. and those relating to private institutions," Orton stated. "The Board granted that the law didn't strictly apply to the University but in practice had always been applied this way."

The application has the sup- port of the University administra-
tion and Board of Trustees.

The Board suggested that SU wait and ask for reconsideration of their application re-apply in 90 days. If, during that time, the state legislature passed a bill regulating 18-year-old drinking, the application could be given better consideration.

Stephanson Teaches Sociology
To Women Inmates

By Frances Eckert

Stephanson teaches Sociology for the Highline Community College and is currently teaching at the Tacoma Correctional Facility on a regular basis. The courses he is teaching are at the Highline College Center, but the student salary for his teaching at the Center is paid for by the Center itself.

Stephanson is now taking classes for his degree in Sociology at Western Washington University. He has been teaching the course since January of this year and has found the experience to be very rewarding.

He feels that the courses offered by the Center have not been allowed to the inmates because they are not considered to be college credit.

However, he has found that the women inmates have not been allowed to participate in the courses held there.

Stephanson, in addition to his teaching at the Center, has also taken courses at the Tacoma Community College and the University of Arizona in Tucson for the past three years.

The Pacific Northwest History Club offers courses for college credit. Classes are held on the Tacoma Community College campus and are sponsored by the Continuing Education Department.

The chapter would like to see Pacific Northwest History offered as a course that will be open to the inmates of the Center.

Buchan Slates Class For Community

By Micky Wycoff

Chi Omega is now accepting applications for its Autumn Imagination class. The class will be held on the campus of the University of Washington and will provide an opportunity to develop personal skills in a positive and friendly environment.

The class will be open to all community colleges throughout the state. In addition, it will provide an opportunity for those who are no longer on campus.

More information about the class can be obtained by contacting the Tacoma Community College Honor Society.

Honor Club Hosts Halloween Party; More Events To Come

By Micky Wycoff

The Pi Sigma chapter at Highline Community College invites you to attend its Halloween Party. It will be held at the Olympic Hotel on October 31st. There will be a banquet and an informal participation with students and faculty. The purpose of the event is to provide an opportunity for those who are no longer on campus.

The chapter would like to see Pacific Northwest History offered as a course that will be open to the inmates of the Center.

Use Your Imagination

By Micky Wycoff

Most of us think we have imagination, but how many can put it to use? The chapter would like to see Pacific Northwest History offered as a course that will be open to the inmates of the Center.

The chapter would like to see Pacific Northwest History offered as a course that will be open to the inmates of the Center.

Ghosts And Goblins Invade Campus

It was hard to tell who enjoyed the Halloween party the most... Phi Sigmas or children. Bandits, devils, ghosts, clowns, monkeys, Carrie, Mickey Mouse, Fat Boy... they all played, ate, and mugged for the camera. Except the Witch who shyly hid from the lens. The Child Care Center resounded with laughter. Then the party climaxed with a Trick or Treat visit to administrative offices on the campus. It was a Big Day in every way.
Murphy Comes to Highline from WSU

by Clint Anderson

New to the Highline College basketball scene this year will be Brian Murphy, a 6'8" center from Washington State University.

Many area sport fans will remember Murphy from his playing days at Glacier High School. As a senior at Glacier he averaged 16 points and ten rebounds a game and was named to the N.P.I.C. all-star team at center.

After looking over his choice of colleges, Brian decided on Washington State College because of the Cougars head coach, Marv Harshman. Shortly after Murphy signed his letter of intent, Harshman picked up his whistle and moved to Seattle to coach the Washington Huskies. So Brian ended up playing at Washington State while Harshman was coaching at Washington College.

Murphy averaged seven points and as many rebounds per game in helping his team to

'T-Birds' Fly To Second

by Doug McConnaughey

In a closely contested battle, the Bellevue Community College Cross-Country team edged Highline College for the Seventh Annual Thunderbird Invitational title. The meet was held last Saturday on the Highline course.

The Bellevue "Helmsmen" had a low score of 37, with 12 points as compared to the T-Birds' sixty-eight points. Eight teams and forty-three runners were represented at the invitational.

Steve Quinell was the number one man for Highline with a time of 35 minutes and 44 seconds. He finished ahead of two Bellevue runners and the winning time of 35:31 minutes was a day of light rain showers, making Highline's mile cross-country course into a trail of mud. The course record was drawn a time of 33:20 minutes.

The final results of Saturday's race were as follows (low score winning): 1st Bellevue C.C.; 2nd Highline; 3rd Clark College - "Penguins" - 1:18:39; 4th Lower Columbia C.C.; 5th Wade C. College - 1:23:14.4. The University of Puget Sound Varsity didn't play as an important role as was expected, with John Sullivan placing fourth in the race. Sullivan was several steps behind Quinell, with a time of 35 minutes and 67 seconds to become the "tipo" number on the list.

Chris Greyrell, a freshman from Highline, took an eighth place standing while running with a clocking of 22:31 minutes. Mike Murray, another freshman, was the third running man of the race, until he fell back five minutes and ten seconds. Murray, a "ring-and-neck" with Quinell, was still weak from the flu.

Missing from Saturday's race was Joe Stewart, who was picked to finish high in conference standings next week. Stewart has been out of action for three weeks while nursing a pulled muscle.

Two freshmen, Bill Pegram and Kirk Hendrickson, placed eighth and twenty-third respectively. Pegram an alumnus of Kent-Meridian High School, ran the meet in 22:33 minutes, while Hendrickson, a graduate of West Seattle High, ran 22:34. The HCC Coach Mike Johnson stated in reference to the meet, "I don't think we could have had better.

Harder up to running pair and Stewart in the meet, we have really have to beat Bellevue. The meet at the conference meet is definitely going to occur between HCC and Bellevue C.C.

The final results of Saturday's meet were as follows (low score winning): 1st Bellevue C.C.; 2nd Highline; 3rd Clark College - "Penguins" - 1:18:39; 4th Lower Columbia C.C.; 5th Wade C. Karate Program
Growing Steadily

by George Davis

Forty-nine students are learning karate at Highline under the direction of Junki Chung. Class activities include basic blocks, kicks and punches that are used in karate. Instructor Chung attributes the large interest in his class to students wanting to learn self-defense, and people desiring to better their attitudes. Chung, a second degree black belt holder, explained that 'while speed, timing, pressure points and body weaknesses are stressed in class, good health, human relations and developing an important nature are equally important.

Mediated and psychological attitudes are practiced in class while self-defense is being learned. When someone yells "Osi," he is expressing his determination to punch himself and to never quit. The meditations periods are held so that the student may join his spirit with nature. They are common when the Zen technique of karate is being taught.

Chung is hoping to make Highline one of the top karate schools in the nation by generating a lot of student interest.

The instructor claims that muscles aren't needed to become a karate expert because one learns the twelve deadly points into separate categories: beginners, intermediates and advanced. These future plans will only come about with the interest and help of the students and faculty, according to Chung.

Highline's Karate Club is also growing steadily and now has 25 members. The club's activities are much tougher than the class as members must kick the wall 50 times daily and deliver a minimum of 100 punches. Sparring against opponents begins as the club progresses.

Notable members in the club are Kenny Yaros (Purple 1), Gene Bostrian (Purple 1), Bob Briggs (Blue 4) and Dan Kato (Blue 3). These men have won BB Begins Nov. 24

OPEN THANKSGIVING DAY

We're waiting to serve you at Old 99 and the Kent-Den Moines Road. Open at 11 a.m. — just three minutes from the campus.
Program Offers 15 Credits for Study of Cities

by Dineen Gruver

"Urbanized America: Jungle or Paradise" will be the topic of General Studies 260 winter quarter.

According to the course guidelines, "the program will focus on how things are, rather than how they might be. The emphasis will be the effect of urbanized America on the individual."

Three instructors will oversee the general studies program: Davidson Dodd (political science), Catherine Harrington (English), and Mike Campbell (Anthropology).

There is room for 26 students in the program. Dodd suggests interested students contact one of the three instructors as soon as possible. There are no prerequisites. All that is necessary to enter the program is the signature of one of the instructors.

This is the fourth quarter a general studies program has been offered at highland since it began spring quarter, 1971.

Through student and instructor evaluation, the program has evolved into something similar to programs offered at Evergreen State College.

General Studies 260 will be divided into two parts: Contracted studies (15 credits) will be a regular classroom session scheduled Tuesdays and Thursdays at 11:30 a.m. A weekly seminar session (5 credits) has been scheduled at various times. The student can pick the session that best suits his schedule.

In addition, General Studies 260 will be optional for those students taking GS 280. It also is a five credit course.

Contracted studies offers the student the opportunity to do some independent study. The student signs a contract with a sponsor (one student signs a contract with three instructors as soon as possible). There are no prerequisites. All that is necessary to enter the program is the signature of one of the instructors.

This is the fourth quarter a general studies program has been offered at highland since it began spring quarter, 1971.

According to Dodd, "if a project can be helped and evaluated by someone other than one of the participating instructors, a subsponsor can be arranged."

It is also possible for several students to work on one project.

Under contracted study, Dodd suggested, there has to be some feedback between the student and the sponsor.

Credit for the program will be given on a pass-fail basis. "The granting of credit in both coordinated and contracted studies will take place when both student and instructor are satisfied that their mutually agreed upon goals have been achieved," Dodd said.

Use for the program. They will include, "a selection of novels and social science writings, particularly from the disciplines of anthropology, political science and urban studies," Dodd did. "I think people will find that this is an alternative way to education." Dodd said. "The traditional roles of student and instructor have been changed...both are engaged in the learning process."

Topic areas will be The City in Perspective, Identity, Alienation and Interpersonal Relations; Bureaucracy, Technology and Planning; Change and Innovation; and Crime and Violence. The last week of the program will be devoted to conclusions.

SPECIAL EVENTS CALENDAR

(All events will take place in the Lecture Hall unless otherwise noted.)

Nov. 14, 12:30 — Gil Piger, classic guitarist returns.

Nov. 15, 8 p.m. — HCC Concert Choir and Vocal Ensemble.

Nov. 16, 12:30 and 7 p.m. — HCC Readers' Theatre.

Nov. 21, 12:30 — McChord Air Force Rose Bowl will play.
