Neuenschwander retiring

in Nov. 1, Monday

A former English instructor at Highline College has been retiring at the end of April after 13 years of teaching. Dr. Neuenschwander's plan to retire in the fall has been announced by the community college. She has been teaching at the college for 35 years, Mr. Richard W. Stroh, principal of the college, said.

During his 13 years at Highline College, Neuenschwander has served in several capacities, including Chairman of the English Department, as instructor of English 101, and in various positions related to administration. He returned to the class in his present position as instructor of English 101.

Neuenschwander has some very important decisions to make about her future plans. She has been on the faculty of Highline College for 35 years, and she is looking forward to the future. She will continue to teach as much as she can, but she will also be missed.

Funds barely adequate for operation in '75

Funds for the 1974-75 college year, beginning July 1, at Highline Community College will be $400,000, or 20 percent more than last year. While the current level of $330,000 is enough to cover the college's expenses for the current year, it does not provide enough money for the college to operate at the community college level. In the past, the college has been able to operate at the community college level, but it cannot do so in the future. The college has already requested an increase in funding level for the current year, beginning July 1, at Highline Community College.

Woman breaks tradition

For the first time in the college's history, for this Twelfth Commencement, the principal speaker will be a woman. Mrs. Marian G. Gallagher, her association with both students and the law since 1937 forms a unique combination of experience, with which to inspire the graduates of Highline Community College.

Mrs. Gallagher is a professor of law and the law librarian for the University of Washington, positions she has held since 1939. She is, of course, a symbol of success in several professional areas, and she achieved that distinction long before the present-day emphasis on professional careers for women.

Professor Gallagher is a graduate of the University of Washington School of Law of 1937 and of St. School of Librarianship (1938); she served as assistant law librarian at the university from 1937-39 and a law librarian and assistant professor at the University of Tah 1939-44, and then returned to Washington, the Washington Bar since 1937. Her association memberships include Order of the Coif, American and Seattle-King County Bar Associations, American Association of Law Libraries, American Library Association, and the Washington and the Pacific Northwest Library Associations. She served by Presidential Appointee on the 1974-76 National Advisory Commission on Libraries, and she was a member of the legal and a task force of the Washington State Advisory Council on Libraries.

In addition to administrative and teaching duties in the university's School of Law, she holds an assistant professorship in the School of Librarianship, with responsibility for law librarianship courses open to students who hold the B.L. or J.D. degree.

Mrs. Gallagher has served on law school accreditation teams and as paid consultant on law library affairs to the law faculties of fifteen United States and Canadian law schools, running in size from Harvard Law School to Pepperdine Law School in the southwest.

Gallagher is a professor at the University of Washington, law since 1937-39; and of its School of Law, she served as assistant law librarian at the university from 1937-39 and a law librarian and assistant professor at the University of Tah 1939-44, and then returned to Washington. The women's law school has been recognized for its unique combination of experience, with which to inspire the graduates of Highline Community College.

Central’s Uninflatable Family Housing!

After you finish your 2-year program at the J.C., you'll probably continue your education at one of Washington's four-year institutions.

But, if you've got a family to think about, any old place to live when you move just won't cut it.

And that could seriously cut down your chances of finding the type of housing accommodations that you need and within your budget.

At any rate, it can be a real pain trying to find housing in one community when you're trying to go to school in another community.

Central Washington State College in Ellensburg maintains nearly 500 one-, two-, and three-bedroom apartments designed specifically for married students and student families.

All the apartments are furnished and Central provides the utilities, including free laundry facilities, FM/TV cable, recreational areas both indoors and out, and fenced in play areas for children in many of the complexes.

We also guarantee that as long as you continue to live in the same type of campus housing, whether it be married student housing, single student apartments or residence halls that we will never raise the rates.

And that is what makes Central’s housing program the one to check out! If you'd like to visit our campus, we'll provide you with free overnight accommodations and a complimentary tour (if you visit us while classes are in session).

To arrange your visit, CALL COLLECT at (509) 963-2711 or write to the Director of Housing, Room 206 Bridge Hall, Central Washington State College, Ellensburg, Washington 98926 and we'll send you our full-color brochures on family programs or residence hall programs.

We'll be doing a lot of things to make your home here a lot nicer place to live.

Central’s Uninflatable Family Housing!
New course for women is success

A new program was added to

Higline's curriculum this past

quarter—B. S. in. Fine

Arts. The course, Women's

studies, is aimed at students who

want to learn about the

past and grow with the

future.

"This is not a women's lib-

type of offering, but an anti-

disciplinary look at women in so-

ciety: past, present, and future. It

covers every aspect of a woman's

life—physical, legal, medical, so-

cial, business, and religious.

Those who choose to

join the class will be able to

explore their past and grow

with the future.

Actually, we have a mini-

mum of 30 instructors for the

class; we have many faculty

people devoting their time and

energy.

"Most people would not ac-

quire this course interest

through many classes or a life-

of experience. This idea

helps the students reinter-

pret their past and grow with

the future.

"Also, it's a tremendous

way for students to sample areas

of interest, as well as gain expe-

rience in a wide number of

instructors on campus."

"Students hear H.C.C. students

Service and learning com-

bined the quarter in Kathleen

Frantilla's Storytelling (Li-

terature III). Seventeen students

went into elementary schools

and parks to educate and

entertain young people of the

community. This "folk art" was

created by the course in Children's

Literature.

Those who gave service were

June Cobert, Constance Gen-

ner, Karen Clench, Kim

Dahl, Ken Hinch, Mary Lee

Spearman, Kathy McCann, Mar-

garet McCaughey, Mike McNeary,

Elisabeth Meindlendorf,

Terry were Janet Olsen,

Kathy Orr, John Paff, Steve

equal women

All women are equal to men. Not in physical strength, endurance or weight but most certainly in an intellectual sense. Although I have met some very athletic women who would wish us to mention a dark alley after the sun went down. It is good to see more and more women fighting for their rightful position beside the male sex in the fields of business, journalism, and the arts. The clash of motherhood and apple pie will never pass away from the scene, but the movement from kitchen to bedroom to identification with men in a more equal basis is good, and I trust more women will continue their efforts toward individual equality.

We can have no interest in women's liberation if they have already all they are dreamed of. It is the women who are left behind, upon the do Nothing. Some women are fighting for their own rights, but are tied to the very best in the world. My advice to objectionists would be: Spend a month in opposite situations with the female side of the household and see what it means. I know no of one who has done it. Not will they ever have plans to do so.

Women are much freer today than they were yesterday. They can now vote and have their rights. A woman can样 talk of impeachment. Arguments on both sides of the Constitution are written provisions for the impeachment trial of the President. The impeachment of the President is a constitutional procedure to remove the President from office. It is a way for Congress to remove a President from office if the President is found to have committed a high crime or misdemeanor.

Women are recognized as having certain "unalienable" rights. One of these is the right to life, liberty, and the pursuit of happiness. These rights are protected by the Constitution of the United States. The Constitution guarantees these rights to all Americans, regardless of gender, race, or ethnicity.

My advice to objectionists would be: Spend a month in opposite situations with the female side of the household and see what it means. I know no one who has done it. Not will they ever have plans to do so.

The following Letter to the Editors can be read without the original, unedited and unmarked form without further comment.

To the Uninformed People Who Don’t Know What They’re Talking About

I am astounded by that commentary the Thunderword’s “student, athlete, and citizen” can come out in a tabloid format with unedited language and unverified facts.

I suggested the Thunderword’s “student, athlete, and citizen” be put back into the student, athlete, and citizen Department. This is a great argument because the editors have not put together any questions on this topic.

I went to the Thunderword Office and asked how they got their information about me. The editor’s name was unverified, so I admitted he got his story about me from Bill Sander.

I never said any grapevine. Since this is a rebuttal, students are basically apathetic, and the writer will be put into women’s sports, in order to put the women’s sports budget in line with the Athletic Department. This is the best example of the Thunderword’s letter to those who take heart.

There once was a tree, it was called Gaterwood. All the beauty of a caste was placed there. Then one day due to the plan of men, his life was turned around. What I’m trying to say is that we have lost a great being on this campus just the student lounge. There is no implication of right or wrong. I’m just happy that people will try next time to prevent this from happening.

The area between the student lounge in the new buildings is 137 feet. This room is not to come with their families, to come back to Highline and hear life was thus ended. No implication of right or wrong, the Athletic Department, the policy making committee, is the speaker who is at entertaining as she is stimulating, and I urge every student who can possibly do so to graduate or not to come with their families and friends to this important event.

Dr. R. E. Perry, nothing more

To the students on this campus, I would like to say some things that I want to say this past year, I have served as Vice-President of the Student Body and have worked for student rights, large or small, on the state level or on this campus. I have worked hard to see that at least two members of the committee, the students, will be in a position each year to influence these decisions through the lips and vote of two student representatives.

The Executive Board of Student Programs has also been a vital anything can be 2007 more than a speech. The writer stated that Nick Gat, explained that no money was spent on him or that he was illegally recruited. Sanderson feels that although most students feel that the Athletic budget should be put into women’s sports, in order to put the women’s sports budget in line with the Athletic Department, this is the best example of the Thunderword’s letter to those who take heart. It is very true that I played basketball here. I am extremely proud, but I must say that Athletic Department for the student body is the only organization in the school that I been called everything from a show of appreciation for students not to come with their families, to come back to Highline and hear life was thus ended. No implication of right or wrong, the Athletic Department, the policy making committee, is the speaker who is at entertaining as she is stimulating, and I urge every student who can possibly do so to graduate or not to come with their families and friends to this important event.

I am aware of the students who will be here next year, and I hope it gets larger too, especially for American and Administration on this campus don’t have it. They have been called everything from a show of appreciation for students not to come with their families, to come back to Highline and hear life was thus ended. No implication of right or wrong, the Athletic Department, the policy making committee, is the speaker who is at entertaining as she is stimulating, and I urge every student who can possibly do so to graduate or not to come with their families and friends to this important event.

To all students, Faculty, and Administrators: ASBIC Vice-President thanks

To all students, Faculty, and Administrators: ASBIC Vice-President

To the female population on the MCC campus: I’m lacking the hee necessary of Lightning Rock, to talk to someone to talk with and to have a go old time is tremendous.

The 20 year old white female, who is not a student, is sitting on the couch. She is the one who has to go to the women’s bathroom, but she is not interested in going because she has been called everything from a show of appreciation for students not to come with their families, to come back to Highline and hear life was thus ended. No implication of right or wrong, the Athletic Department, the policy making committee, is the speaker who is at entertaining as she is stimulating, and I urge every student who can possibly do so to graduate or not to come with their families and friends to this important event.

Joe J. Heather ASBIC President

Hare Krishna visits HCC

Three Hare Krishna were among those here last week. Photo by Pat Nyman.

Commonly known as the "Hare Krishna people," the International Society for Krishna Consciousness was founded in this country in 1966 by its Divine Grace A. C. Bhaktivedanta Swami Prabhupada as he affectionately knows his disciples. In the Acarya, or Spiritual Master of the Krishna movement.

Although there are unlimited natures of God, the Hare Krishna devotees recommend the Mahabharata or Bhagavad Gita. The Hare Krishna movement aims to demonstrate God Himself when He incarnated as the celebrated Lord Chaitanya Mahaprabhu only five hundred years ago. If one repeats this only once with sincerity, he is immediately released from the vices of material contamination. The devotees repeat this mantra about three times daily.

Chanting isn't all the Krishna People do. They maintain the largest inverse manufacturing company in the world. Spiritual Sky Scattered Products. They also have their own publishing company and their own recording company as well.

In Christianity, of course, in order for one to be saved, one must accept Jesus Christ as the personal Saviour and admit that one is a sinner.

In the Krishna movement, in the Krishna consciousness, the instructions of the Spiritual Master are to be eaten, fast, or eggs, no taking of any type of drugs or intoxication including coffee, tea or cigarettes, no sex life other than with one's lawed wedded wife, and finally, no gambling.

I had the opportunity to go down to the Krishna Temple in Capital Hill last week and see for myself the inner workings of the group.

It was explained to me that the congregation was rather small because many of the devotees had gone to Spokane for Expo '74 to chant and spread the teachings of Krishna. But, it is the ones who were left conduct business as usual with an evening service, a class on the Bhagavad Gita, the Krishna "Bible" and a simple but delicious meal. I participated in all by watching and taking notes.

Never before had I experienced such a feeling of unity among people. As I felt that right at the temple. Everyone was happy. Everyone was at ease with himself and God. During the service, there was the beat of drums, and the regular metallic ring of the brass cymbals. The mantra was repeated many, many times, along with enthusiastic and uninhibited dancing by the congregation.

Also last week, the devotees went out to Highline to sing and chant in the Lecture Hall. They were well received by an interested audience of about 75 people.

Anyone interested in further pursuit of the Bhagavad Gita or the Krishna movement in general can call or visit the temple at 801 11th Avenue East (Capitol Hill).
Don't swoon over Clint Eastwood or Burt Reynolds, and there are even girls that are left indifferent by the likes of Paul Newman, but this cinematic Romeo. Girls flock to see his movies which include 'The Sting.' Newman and Redford play two loveable crooks, not so beautiful, or simply average she is left starry-eyed by 'Butch Cassidy and the Sundance Kid,' and a very entertaining movie called 'Little Fauss and Big Halsey' in which he played an over-the-top on a toothbrush, too, which he did throughout an entire movie possibly fellows should take a hint. I should walk, talk, spit and chew gum. It's the sexy way he chews gum. He's even sexy while chewing gum, too, which he did throughout an entire movie called 'Little Fauss and Big Halsey' in which he played an over-the-top and undisciplined motorcycle circuit rider with a beard or without, with long hair or short, Robert Redford has what it takes to set girls on the edge of their seats, and possibly fellows should take a hint. I am not saying that everyone should walk, talk, spit and chew gum like Robert Redford, but I'm saying is that if a fellow did he may meet more marvelous members of the opposite sex. Speaking of sex, I think it appropriate to close with Redford's own view on the subject, which may give a noble clue to his appeal. Robert says, "I don't like sexless or loveless sex! I like romance. I believe in love."
Shakespeare at Highline: 

Romeo and Juliet

Juliet and Romeo get their first glimpse of each other at a Capulet party.

Tybalt, a brash and restless soul, was usually rampaging with a Montague.

Lady Capulet, Juliet and her nurse have a few words concerning Juliet's future.

Juliet continues in the play's tragic course as she learns that Romeo had been banished for Tybalt's death.

Having killed Tybalt in revenge for Mercutio's death, Romeo becomes wretched in grief.
Faculty marches in full color

All members of the faculty will be in academic gowns with hoods and caps in colors representing 40 different colleges and universities when the Commencement procession starts at 7:30 a.m. June 5.

Weather permitting, the procession will start at the Student Center and proceed down the walkway to the Pavilion. The order will be: The President, Joint Board of Trustees, Faculty, and the President's Party (including speakers and board of Trustees).

The academic regalia dates back to 1209 and the University of Comerio in Italy. The custom spread to England in the second half of the 14th Century.

The academic regalia is carried by the university colors in satin. The academic major is indicated by the color of the border on the hoods and cap (as follows): Philosophy, grey; Arts, white; Education, light blue; Science, gold; Engineering orange; Fine Arts, brown; Music, apricot; Physiology, sage green; Theology, scarlet; Business Administration, blue.

Originally, the hood was a Tippet or shoulder covering worn by the beggars from the 15th century, hoods became ornamental, draped over the shoulder and down the back. Most of the faculty members are wearing the mortarboard style of cap which originated at Oxford.

Foreign students

Foreign students enrolled in HCC classes are from a wide variety of different countries and nationalities.

HCC has foreign students representing Brazil, Canada, Colombia, Denmark, Ethiopia, Finland, Hong Kong, India, Japan, Kuwait, Nicaragua, Peru, and the Philippines.

The major concentration of foreign students come from Ethiopia, Hong Kong, and Japan, having the five countries filling the difference with one or two students.

On campus, there are approximately twenty-five foreign students. As of Spring Quarter, foreign students have variety of countries represented.
Finally, the one you've...
all been waiting for: the T-Word Staff

by Mickey Swepe

up the good work Pat, and remember the newspaper is the watchdog for politics and sports.

When Pat Patterson was asked if she would like one of the spring issues she replied, "But I won't know what to do!" and at that moment we knew we had leadership material. Pat went on to do a really good job as editor; her good job as editor is truly an example to Carol Burnett. Her summer job consists of tour dressing up in a yellow-turtle-neck body stocking: that probably gives you an idea of what Pat will do in school under the G.I. Bill. (That translates to Get It while you can.)

Mike Saunderson also edited one of the spring issues. In addition to being one of the Arts and Sports editor and perhaps the best person on the staff for laying out pages. Mike was elected by a landslide margin to the ASB Vice-presidency for next year and being a very quiet and when he does speak soft person he didn't want to write about himself so he had me do it. Did I get in everything you told me, Mike?

Tony Medina, our ace photographer and assistant manager respectively, Karen Olsen and Skip Partis, top news repor- ter/photographer and business manager respectively, Karen and Skip didn't get into the newsroom much this quarter but they were forever creeping up in the conversation, "Where are Skip and Karen anyway?" They shall always be fondly remembered around the T-Word and if we ever see them again, well, we'll tell them in person how much we've missed them. But seriously they have contributed to the cause even though they didn't hang around like the rest of us. It's hard to understand how anyone could sit and write headlines for about four hours but lo and behold Kevin Smith did just that. I won't go into the sordid details of the chains and whips and the body else. That. I won't go into the sordid details of the chains and whips and the body else. That's a strange blend of Marty Feldman, Monty Python, Gary Owens and a little bit of Hudson and Landry thrown in for good measure. Of course I'm talking about none other than Roger Darthitt. Roger is absolutely convinced that Colleges better than hollow logs and the best thing to happen to jazz since Judy came over the rainbow. Hang in there Roger, someday you'll find the truth.

Now it's time for Mickey Swepe, well a fitting testimonial for this young lady would be a small bronze plaque placed by her favorite typewriter on her favorite desk, and as soon as that plaque is up I'm going to see what can be done about giving it a fence.

We L. Monday came to us from the Gallery staff where he was an editor for a quarter. Wanted to move up on the lux- bury scale huh, Bill! Well, you picked a pretty good place to learn about four dot journalism, the T-Word uses the four dot method about as much as anybody else.

And certainly not to be left out are Karen Olsen and Skip Partis, top news repor- ter/photographer and business manager respectively. Karen and Skip didn't get into the newsroom much this quarter but they were forever creeping up in the conversation, "Where are Skip and Karen anyway?" They shall always be fondly remembered around the T-Word and if we ever see them again, well, we'll tell them in person how much we've missed them. Spokane's Expo a winner

By Betty Streblau

Service men with drawn automatic guns trained our way. More of these men were atop our building. During the ceremonies, plain clothes secret service men faced us below our front row and constantly filled us row by row.

The opening ceremonies were to start at 10:15 a.m. and they did, with the 100-piece band and 1000 voice choir on the bridge to the right of the official barge. At 10:35 another huge barge came down the river carrying rows of U.S. and foreign officials. The large tied up in the official barge and the dignitaries transferred as their flags were raised.

First came spectacular smaller barges representing the six participating countries.

As he said “I now declare Expo '74 open,” 50,000 helium filled balloons rose from the international barges, the chair lifted across the river, bells rang, and trumpets sounded from the roof above us.

In part the President said: “And what impressed me as I read of how Expo came about was that the idea did not come from Washington D.C.; it came from Washington State. And it is that spirit, that spirit of individual enterprise, that spirit of doing rather than depending upon someone else to do it for them, that spirit which has led and continues to lead this great region to develop the West and the Northwest.

Previous to the opening of Expo '74, there had been criticism aimed at it being a trade fair. But there was high praise for the environmental aspects of the exhibits as the fair opened. The city's renovation of an old rail yard into an $80 million world's fair site was the biggest boost to this theme. Cleaning up pollution in the Spokane River was another environmental symbol. During the opening ceremonies 1,974 rainbow trout were planted in the river by the State Game Department and they started jumping amongst the floating ducks.

As opening day fairgoers roamed through 10 international pavilions, four state pavilions, 10 special buildings and 32 industrial exhibits all keyed to the environment. In summary, this World's Fair was an emotional experience for me. One is fascinated visiting foreigners from throughout the world and learning of their countries. This fair has the added dimension of the environmental theme; the ideas are frightening but hopeful. As one stands on the banks of the raging Spokane River, one gets a sense of pride and of hope. Expo '74 is bound to have a successful six months run, and decades of environmental impact.
116 students win honors for service

All veterans planning on Summer or Fall quarter enrollment should contact the Veterans Registration Representative immediately or VA, officials announced this week. It is noted that veterans pursuing farm cooperative, flight, apprenticeship and on-the-job training have until August 30, 1974, to complete training.

The two deadlines do not apply to veterans released from active duty after June 1, 1970. However, the GI Bill went into effect on July 1, 1974. These veterans have eight years after their date of discharge to complete institutional training.

Eligible veterans may be entitled to the entire Spring enrollment of more than 1,000 students. Last year at this time 812 were enrolled in one of Hightime's full or part-time programs.
The Student Washington Education Association, Highline College Chapter, was honored at the recent SWEA State Convention by the election of three state officers by delegates from the other colleges and universities throughout the state. Elected were Theresa Hanlon, State Second Vice-president, representing community colleges; Cathrine Pipal, Director District 111, which includes Highline; and Margo Sentelik, Director, District 11, which includes the University of Washington where Margo will enter in the fall.

The Highline College Chapter of S.W.E.A. elected these students to officers for 1974-1975: Bill Marshall, President; Richard Warner, Vice-President; Odin Payne, Treasurer; and Mindy Henderson, Secretary.

Co-Advisors for next year will be Frank Albin of Business Administration and Ms. Mary Johnson of Humanities, according to Ms. Eleanor Hein0 who has served as advisor for the past ten years.

Shaunlee Birge, outgoing S.W.E.A. State President and Dr. Wayne Hall, State Consultant, have announced plans for the Summer Meet to be held at Washington Education Association Headquarters in Seattle on June 10 beginning at 9:30 a.m. Special invitations have been issued for the new state and local officers to attend.

Program stresses peace, protection

Preservation of the peace and protection of life and property are only two of the myriad of duties designed to prepare a student for a career in civil law enforcement, under the Administration of Justice program here. The campus patrol program is a class-lab learning experience. Students combine academic study with applicable experience. During internship, the student is required to attend a certain number of classroom hours, and upon a voluntary basis participate in campus patrol activities.

A unique feature of the program is the internship which provides practical experience in the justice system. The college security department is charged with patrolling school property, security of buildings, traffic control, criminal investigation and record maintenance. What does a student receive that is beneficial to his collegiate experience? The answer to that question might best be made by Jack Chapman, security and safety supervisor here. "Actual experience on patrol is of unlimited value to those interested in a law enforcement career. Students get involved in actual criminal and enforcement cases, broadening their exposure to the line and field operations of law enforcement agencies in today's complex society," Chapman states. Century City, Southcenter, Highline, West Seattle, Kent, Burien
Murray, Greyll Conference champs

For the first time in five years, Highline CC has two conference champions in track. Tim Murray ran the mile in a blistering 4:02.2, tying the school record and winning by 1.64. Murray also won the 800 in 1:52.4, winning by 2.83 and the mile in 4:02.2, winning by 1.64.

T-Bird Coach Dan McCamisgany said that Murray's time was tremendous, especially when you consider the weather conditions. It was windy and cold for most of the meet.

Murray was running neck and neck with an athlete from Seattle CC and leading the race by 1.64. Murray pulled out and claimed a decisive victory.

Soccer club to battle Raiders here tonight

The Highline College soccer club, amid accusations and controversy, will take to the field tonight in an effort to settle a group match.

T-Birds will play host to the Seward Valley Ragin' Rafters, who defeated Seward 2-1 last season. A win or tie will put the T-Birds in the playoffs.

Highline was leading the State League with a 2-0 record. Last week they were informed of a protest from the other teams. Their 4:02.2 mile winning performance earned them the conference title.

The T-Birds will host the Seward Valley Ragin' Rafters in the final game of the season. A win or tie will put the T-Birds in the playoffs.
