

New business course offered for fall quarter at Weyerhaeuser Co.

A course in Administrative Office Management will be offered by Highline Community College Fall quarter in conjunction with the Weyerhaeuser Company, Federal Way. It is especially designed for women and men who are employed as administrative assistants or who may soon be eligible for such positions. The course will be offered Tuesday and Thursday evenings from 7:00 to 9:30 p.m. starting Tuesday, September 24, at the Weyerhaeuser Company corporate headquarters in Federal Way.

"The course is definitely for men and women who are seeking to qualify themselves for management positions," noted Margaret Powell, Program Director for Office Occupations at Highline College. The course is serving as a pilot for one- and two-year programs in administrative management.

Among topics to be covered during the course are several sessions on human relations, personnel policies, current personnel practices, effective supervision, training and promoting of personnel, management by objectives, analyzing office jobs, salary administration, work measurement, information

systems and records management, forms design, and office layout.

The various sessions will be taught by specialists from industry who have gained recognition in their fields.

Tuition for the five-credit college course (Office Occupations 270) is \$41.50 for State residents. More information about the course may be obtained from Mrs. Carole Johnson of Weyerhaeuser, 924-3340, or Miss Powell, 323-7766. Registration should be made at Highline College from 8:00 a.m. to 9:00 p.m., Monday through Thursday, or 8:00 a.m. to 4:30 p.m. Friday.

The Weyerhaeuser Company is located northwest of the Auburn exit of Interstate Highway 5. Parking space is reached via the east entrance to the company grounds off 32nd Avenue SW.

ENTERTAINMENT GALORE . . . Movies, speakers, guest soloist, the Big Band Sound, Billard's expert, talent show and the jazz ensemble will be performing this year in the Lecture Hall. Thunder Word photo by Roger Douthitt

Vol. 14 No. 1

Highline College Midway, Wash.

Sept. 23, 1974

Reps. from schools and the services

Nearly 3,000 juniors and seniors from 13 high schools in south King County will be on an education "shopping trip" on the Highline campus September 26 from 9:45 a.m. to 2 p.m. This is the annual High School-College conference and is the second time the area's students will be on campus while college classes are in session.

Thirty-three different universities, colleges, and vocational schools will be represented along with all the armed services. Highline college students may visit with the representatives. (Ask student guides for room locations)

Universities represented will be: Gonzaga University, Pacific Lutheran University, Oregon State University, Seattle University, University of Washington and Washington State University. Four year colleges expected are: Central Washington State College, Eastern Washington State College, Fort Wright College, Mt. Holyoke College, Saint Martins College, Seattle Pacific

College, The Evergreen State College, Western Washington State College and Whitworth College.

Vocational Technical schools coming are: Clover Park Educational Center, L. H. Bates Vocational-Technical Institute, Lake Washington Institute and the Renton Vocational-Technical Institute.

Community Colleges represented are: Bellevue, Green River, Highline, Seattle Central, North Seattle and South Seattle. Armed forces representa-

tives will be: United States Air Force, United States Army, United States Marine Corps, United States Navy and the University of Washington R.O.T.C.

Apprenticeship programs will also send representatives.

The participating High Schools will include: Tyee, Evergreen, Glacier, Highline, Mt. Rainier, J.F.K., Seattle Christian, Foster, Lindbergh, Hazen, Renton and Sealth and West Seattle.

ON WAY TO CLASS . . . Unidentified freshman was heard to say, "All this for a Coke and a hamburger?"

Thunder Word Photo by Jim Jones

Fall Elections

Fall elections will be held Oct. 14th and 15th for the remaining nine senatorial positions. Any students interested in becoming a senator drop by the student government offices to pick up a petition from this week and next week only.

Campaigning will start Monday, Oct. 7th and last until election day. Posters and hand bills are encouraged. Voting will be done between 9 a.m. and 3 p.m.

The specific responsibilities are: To attend scheduled meetings of the Student Senate and any meetings that are called by the A.S.H.C.C. Vice President or President. To assist in the planning and budgeting of the Student Activities Budget and the A.S.H.C.C. Student Budget.

To assist in the implementation of the A.S.H.C. budget. To advise clubs and organizations and set down recommendations and guidelines for their use. To administer any student initiated program. To act as a liaison with faculty and administration for the student body.

To see that there is student

representation on all committees and councils whether by senator or students. To follow the A.S.H.C. Constitution and to insure their decisions coincide with it. To be responsible to the A.S.H.C.C. President for their decisions. To insure to the A.S.H.C.C. Vice-President that each senator has a working knowledge of the A.S.H.C.C. Constitution.

The responsibilities of each senator to the A.S.H.C.C. office: Participate in one hours work in the A.S.H.C.C. office each day for the A.S.H.C.C. To keep a time card of hours spent in the A.S.H.C.C. office (not include senate meetings) so payment can be made to them at the end of each quarter.

The responsibility of the A.S.H.C.C. Executive Board: To determine if a senator shall be paid each quarter. The Executive Board of the A.S.H.C.C. shall be the A.S.H.C.C. President and Vice-President and the Coordinator of Student Programs.

For further information contact the A.S.C.C. office.

Coordinator chosen for student programs

J. Bruce Mackintosh, 27, has joined the staff of Highline Community College as Coordinator of Student Programs. Mackintosh replaces Ingrid Simonson, who resigned last spring.

The new coordinator hails from Seattle, Washington, where he received his early education. He then went on to Iowa and Parsons College for a B.A. degree in Psychology. He served Parsons as assistant director of student activities from 1969 to 1971.

From the University of No. Iowa, Mackintosh received his M.A. in College Student Personnel Services. He served that campus as program assistant to the University Union.

Mackintosh's services at both Parsons and the University of No. Iowa relate strongly to the type of duties he will take up at Highline.

"I look forward to a creative

and challenging year," Mackintosh said as he viewed his new campus.

NEW COORDINATOR . . . Bruce Mackintosh will be replacing Ingrid Simonson as the new Coordinator of Student Programs.

'Gas savings' are rip-offs

Consumers should be extremely wary of any reported "gas saving devices." Attorney General Slade Gorton warned today.

Many bogus "gas saving devices" are represented to be the sure answer to the gas conservation campaign. Marketing efforts soliciting consumer acceptance often include attractive product brochures, unsubstantiated performance tests (generally out-of-state), and phony automobile demonstrations.

This "Consumer Alert" is the result of a preliminary injunction obtained by the attorney general's Spokane office, involving a "gas saving device" known as "Astro Jet."

"Gas saving devices" reportedly guarantee a variety of automotive advantages. Typical claims, given installation of the "gas saving" devices, include: greater economy, reduced engine maintenance, longer engine life, extra power and increased performance.

Many courses are available from HCC in the evening hours

A wide range of courses will be offered in the evening hours by Highline Community College, fall quarter. The evening program is comprised of regular college credit courses in both academic and vocational areas, continuing education courses, and community service courses.

The Evening Bulletin, which details the classes offered, registration information, service to the student, and cost involved, is available on campus at the registrar's office or by calling 878-3710 . . . extension 341, for a mail-out. "It is possible for a student to complete a two-year college transfer program by attending evening classes only." Dr. Shirley B. Gordon commented in regard to the many academic offerings for evening hours.

The academic area includes classes in mathematics, the humanities, fine and performing arts, natural sciences, social sciences, health and physical education. Occupational areas are represented in such fields as the Administration of Justice Programs, Data Processing, Engineering - Technology, Transportation, Marketing and Selling, and others. Developmental study courses are available to assist the student in college work. Highline College's continuous education classes for college credit are offered at various sites throughout southwest King County.

Four industry - related courses in this field will be held in the Southcenter Theatre and will include industrial first-aid, offered no-credit. . . no fee. The course is designed for business and industrial supervisors and owners to meet Washington State standards in this regard.

On-campus continuing education courses are available in arts and crafts; beginning conversational languages, including French, Swedish, Spanish, Japanese and Italian; writing for fun

and profit; business courses in various fields and many related topics.

A wide selection of arts and crafts is offered in the continuing education program in the high schools throughout southwest King County. Included are such crafts as tile painting, pottery, silk screen printing, and cooking arts.

New classes for the fall calendar include: "Off-Loom Weaving," a class in loom construction, threading and weaving, and tapestry. . . "Auto-Knowledge for Women," designed to show the woman how to make minor repairs, handle road failures and protect her automobile investment. . . "Woman's Basketball Officiating," the rules of play and scoring. . . "Woman's Gymnastics and Judging," directed to physical education teachers and recreation directors and others who wish to be trained in judging gymnastic events.

The college has a variety of high school completion courses which are offered in evening sessions at Evergreen and Federal Way High Schools. High school completion can be an in-classroom

situation or can be contracted study arranged with the instructor.

This fall, five new courses in high school completion will be conducted in day-time sessions on the college campus: U.S. History I and II, Washington State History, General Mathematics and Readings in Science.

Highline offers nine classes in Adult Basic Education in the fall. There is no advance registration required for these courses and there is no fee. The college also offers GED testing for a high

school equivalency certificate throughout the year and courses for new citizens and English for the Foreign Born.

Registration for the evening classes at Highline College began on September 3, and classes start the week of September 23.

The registration office on campus is now open from 8:00 a.m. to 4:30 p.m., Monday through Friday; evening hours when the office will be open till 9:00 p.m., Monday through Thursday. Information can be obtained by calling the college at 878-3710.

GROUND BREAKING. . . Fred King, Architect; Dr. Orville Carnahan, President; James Scott, Associate Dean; and Dr. Gordon, Vice President pose with a friendly bulldozer at the new building site.

Silent running

CMY Potts, Ron Rifkin, Jesse Vint
Universal, directed by Douglas Trumbull
Color; Rated G, Probably A-2; 90 minutes

Set in the year 2008, this space odyssey tells of one man's dedication to saving the only botanical specimens extant from the earth and his relationships with machines, nature, and himself in total isolation. "One of the most controversial films of the year. Bizarre, imaginative, technically brilliant!" — McCALLS MAGAZINE. The director of this splendid visual trip, Douglas Trumbull, was Stanley Kubrick's assistant on "2001," and is hailed by LIFE MAGAZINE as follows: "A first feature by Douglas Trumbull, who was responsible for many of the best special effects in 2001, it retains that film's awe of the beauties of space. But it goes several steps beyond in its witty satire of Space Age technology." Joan Baez adds her voice to the film to further add to the mood of quiet isolation.

President speaks letters

Welcome to the College, you returning students and all of you new students.

We are anxious to get acquainted and reacquainted, find out what your goals are, help you set goals if you wish, and then do all that we can to assist you in obtaining those goals.

Some of you know what classes and other assistance the College has to offer, but others of you are not acquainted with Highline. Please get acquainted, learn of all the services available and take advantage of the opportunities that are here for you.

If you do not know what a comprehensive community college is, find out, so you can benefit from those unique things that are available.

A recent statistical survey suggests that about 15 per cent of you were high school seniors last year; that 2/3 of you are over 20 years of age, and almost 50 per cent of you will be part-time students. Most of you plan to work part time and 90 per cent of you will be commuting from your homes. These and other statistics show that Highline has a more varied and diverse group of students than any other educational agency in the state, except another community college.

Enrollment may exceed 9,000 students this year, with some classes starting as early as 7:00 a.m., and others lasting until 10 p.m.

If you wish to transfer to a four-year college, we have an excellent curriculum for the first two years. If you are seeking training for more immediate job entry, we have some of the state's best occupational programs. If you are undecided and are seeking assistance, our counseling services are outstanding. If you do not fit any of those three categories, I am sure we still have something for you.

Our door is open to all segments of the community and we are anxious to provide all of the educational and counseling services that we can.

Highline has an exceptional faculty and staff. Our student body officers are sincerely interested in meeting student needs and interests. Your stay and involvement at the College should be very enjoyable.

Support your student government, get involved, and this will be a productive year.

Speaking for the entire College, let me again say "welcome" and enjoy the college experience.

DR. CARNAHAN

Welcome to Highline Community College.

Outdated as it appears, student government is a viable organization on any college campus. The old cliches about governments on college campuses are a thing of the past. Even though, less than a fifth students voted in the last elections, I feel that this group, Lynn, the senators and I, can represent you equally.

This year we will attempt to involve as many of the students as possible in activities and in the many clubs and organizations on this campus. This year's Film Series is one of the outstanding events that will be held in the Lecture Hall. On September 25th, the series begins with "Jesus Christ Superstar," to be shown at 2 and 5 p.m. In addition, all senate meetings are going to be held in the Lecture Hall, hopefully.

The "Thunder Word" has requested that student government provide a column in every issue this year. It is our attempt in student government and of the "Thunder Word" to create a working relationship with the student body. We are going to provide the newspaper with every tape recording of every meeting and secret transcripts of meetings that took place this summer in the lounge.

I appreciate any student dropping by the office and ask any questions about the operation of student government. The office is located in the left end of the Student Lounge on the second floor.

Remember, any interested student who might want to become a senator drop by the office and pick up a petition form from our secretary.
Mike Saunderson

MIKE SAUNDERSON ... ASHCC vice president.

LYNN ELICKER ... ASHCC president.

New faculty

Eight new faculty members will be welcomed to the campus this year. Some are one-year replacements and others are full time appointments. Two others have been given new assignments.

J. Bruce Macintosh replaces Ingrid Simonson as Coordinator of Student Programs. Robert Mapstone replaces Phil Sell for one year as an engineering instructor.

Dr. Mrinal Roy is a one-year replacement for Mike Campbell as an anthropology instructor. New full time nursing instructors are: Evelyn Parks, and Estelle Sylvester.

Christiana Stelz is a one year appointment as Drama instructor and Charles Miles is a full time instructor for speech. Betty Strehlau will serve as Public Information Officer on a part time basis along with her Journalism and Business teaching assignments.

use "open door"

To students who are new - welcome to your college!
To students who are returning - welcome back to your college!

You are starting a new year in your "open door" college and we want you to help us make your life here an enriched learning experience. You can do this by seeking out the many doors that are open to you, explore, ask questions, look for the learning opportunities that are available to you. Help us make our college life one of mutual giving and sharing.

You can have a better college life and make it better for other students if you find the doors to the many activities that are available and become involved as an active citizen of Highline College Community.

Stick with us until you have achieved the goals you have set for yourself. Let us help you achieve them and help us to be a better college because you are here.

DEAN CASKEY

Highline is growing; building program begins

by Don Smith

Construction began this summer on a \$3.1 million occupational program classroom expansion at Highline, the first major enlargement of college facilities since 1968.

The new buildings will be joined in an "L" shape on a wooded slope in the middle of Highline's 80 acre campus that leads from the student union and cafeteria building toward the sports pavilion and fields. Puget Sound and Maury Island will be visible from the buildings.

All of the space in the new buildings will be for expanded and new vocational and occupa-

tional programs and for child development and home oriented programs for the community.

A 200-seat lecture auditorium planned for one building can be used for other college and community purposes.

With the proposed new library planned for 1975 in the same area, the buildings will form the new Instructional Center of the campus according to Dr. Shirley Gordon, vice-president of the College.

Each building will go to three stories and contain ramps and elevators. Specialized areas for many occupational programs will promote student identification with their majors.

The buildings also will allow experimentation with differing instructional approaches.

The instructional center will be a day and night operation. Building exteriors will be block construction. Vertical shadow lines and colors will add interest and complement existing facilities on the campus.

"I'm very enthusiastic about the project and am looking forward to its completion and the start of the new library in 1975. The area will greatly enhance our entire college program," said Dr. Gordon.

Funds for Highline's expansion are coming from the Referendum 31 bonds approved by

BREAKING GROUND. . . Work has begun on the Phase III construction project to enlarge the campus to meet the growing needs of higher education here.

HIGHLINE'S GROWING . . . Architect's view of a \$3.1 million occupational program classroom expansion presently underway at Highline.

the legislature and subsequently approved by the state's voters in the Fall of 1972.

New occupational programs to be housed in the buildings include service station management and operations, technical equipment repair, and graphic arts and photography.

Current programs that will have expanded space in the facilities include nursing, respiratory therapy, administration of justice (law enforcement and corrections), hotel-motel operations, transportation and travel (flight attendant, air cargo, and reservations and sales, small equipment repair, business occupations, and home and family life programs.

Among the special equip-

ment planned for inclusion is a crime lab, hospital operating room, mock court room, mock interior of a jet transport, flight simulator, and an NCR posting machine for hotel-motel management students.

The college has been investigating the feasibility of starting a two-year Dental Assistant program to serve the needs of South King County and is working with the State Board of Community College Education in seeking approval to plan for the program.

The college was founded in 1961 and moved to its present location in 1964. The Phase I building program included 16 buildings; Phase II brought the total to 27 buildings; this Phase III will round out the total to 30 when the library is completed.

Highline Community College is a comprehensive institution offering many transfer, occupational and continuing education programs and classes. Enrollment this past year was about 8,000 day and evening students.

Highline hosts veterans day

"There are many services that veterans do not take advantage of simply because they do not know they are available," Steve White, veterans coordinator at Highline Community College stated in regard to the upcoming Veterans Awareness Day.

On Awareness Day, Oct. 8, the college will host various service organizations such as SEA-VAC, American Legion, Upward Bound and others, from 9 a.m. to 2 p.m. Veterans in the community are invited to come to the campus at 240th and Pacific Highway South to meet with representatives of the various organizations.

White gave some examples of the types of service that are available to the vet: financial aid, help in appealing claims to the V.A., discharge upgrading. "Hopefully this Veterans Awareness Day will open new doors for veterans who need help," he said. "They are welcome to come with their problems at any time."

The Veterans Coordinator office is located on the Highline campus in Wayhut 213, phone 878-3710, ext. 343.

EARLY CONSTRUCTION. . . Highline was founded in 1961 and moved to its present location in 1964. This Phase I building program included 16 buildings; Phase II brought the total to 27 buildings; the Phase III construction presently underway will round out the building total to 30 when the library is completed in 1975.

Al Hayes here to help Vets

Veterans of all ages from the Spanish American War era to recent conflicts can now bring their problems in regard to veteran's affairs to the office of Alvin Hayes at Highline Community College.

Hayes is a representative for the Regional Office of the Veterans Administration in Seattle, and comments, "It can be a great time saver for the veteran and a lot nicer. He no longer has to drive to Seattle, but can come to my small office and have his questions answered while he is sitting here."

Hayes can give full service regarding education benefits, hospitalization, home loans, pensions, compensation for disabilities, assistance in finding jobs, referrals and assistance in legal matters.

He not only serves the veteran, but others such as a child or widow of a veteran whose death or permanent total disabilities were service connected; the child or wife of a serviceman missing in action or a prisoner.

The Regional Representative can be found on the second floor of the Instructional Guidance Center on the Highline campus and can be reached at 875-3710, ext. 343.

Hayes is a veteran of the United States Air Force and has been a resident of Tacoma since 1968.

TRANQUIL SETTING . . . Water, rocks and shrubbery blend together to create a relaxing mood near the library.

PERFORMING ARTS . . . One of the outstanding departments at Highline is the music program. Shown here is the piano laboratory.

Opera star to teach analysis, listening course

Opera lovers, and those who do not yet know if Opera is meant for them, will have the opportunity for in-depth study with Edmond Hurshell, former

leading baritone with the Vienna State and Metropolitan Opera Companies at Highline and Shoreline Community Colleges.

A course entitled, "Opera Previews," enables the student to meet directors, stars, and production personnel at upcoming N.W. performances. It will feature analysis, background preparation, guided listening, lecture and discussion seminars in the classroom, as well as visits by featured artists and field trips to productions.

Hurshell will also offer a myriad of vignettes garnered from over twenty years of international experiences in performances throughout the world.

"It is a course for singers, would-be singers, opera buffs, and the common - garden - variety of Opera lovers," Hurshell commented. "For those who do not know if they love opera, we will show them."

Hurshell has studied both in the United States and abroad and his Opera engagements have taken him the world over. He has spent 22 years in all phases of Opera and has held Opera Workshop at Cornish School and Opera Preview at the Opera House in Seattle.

"This course was inspired by the attention I gained in lectures to Opera Guild groups and pre-performance talks at the

Opera House," Hurshell said. "We will of course go much more into depth and detail."

"Opera Preview" will be offered at Highline Community College in the evenings from 7 to 10 p.m. Highline evening classes begin the week of Sept. 23. Information on the Highline class can be obtained at the Campus in Midway, Washington, or by calling 878-3710.

Shoreline classes will be held on Wednesday evenings beginning Sept. 23, from 7 to 10 p.m. Shoreline information can be obtained at the campus in Seattle, or by calling 546-4561.

Gemstones featured in the evening

Gemology, the study of the physical and optical properties of gemstones and the folklore that surrounds them, will be surveyed in an evening class at Highline Community College, Fall quarter.

The student will use both natural and synthetic stones in the classroom and guest lectures will be conducted by a diamond expert and an opal dealer.

The class will be introduced to gemstone cutting and faceting, with one period devoted entirely to gemstone identification.

Guy Fender of Kent, a long-time gemstone enthusiast and lapidarist, will conduct the class.

Gemology is scheduled to meet in the South Science Building at Highline for 7-10 p.m., each Thursday, beginning Sept. 26.

Dr. Carnahan to head presidents

Dr. Orville D. Carnahan, president of Highline Community College, has been elected president of the Washington Association of Community Colleges, the council of community college presidents.

The 29 college and district presidents meeting as the WACC are the principal advisory group to the State Board for Community College Education. WACC also serves as the "umbrella" for study and policy-development commissions in such areas as instruction, student services, business affairs, and management information systems for the state's 27 community colleges.

Sweeney to play in Oregon

One of the stars of last year's Highline basketball team, Nick Sweeney, will play this season for George Fox College in Oregon.

The 6'-3" forward, who had two fine seasons for Highline, will have two more years of eligibility left for the "Bruins." Sweeney was captain of the HCC squad, and was voted "Most Inspirational" by his teammates last season.

Known as an aggressive rebounder for one his size, Sweeney averaged 13 boards per game last year, and as a freshman averaged eight rebounds and 13.8 points per game.

Playing for West Seattle High School in 1972, Nick was named "All-Metro" at the center position. The honor was based on a fine season: 20.8 points and 13 caroms per contest.

Sweeney will attempt to spark the Bruins to the NAIA District 2 championship, an honor they missed by a single point last spring.

"T-Word's" Research Team explores many facets of the fareway

by Scott Janzen

(Note: This is the first in a series on the many fine nine-hole golf courses in this area. Next issue: the short nine at Jefferson.)

Too many beginning (and even further advanced) golfers ruin their game playing the regular eighteen-hole courses. The duffer steps up the par four, 425 yard hole knowing darn well he won't have finished the hole until nearly seven to eight shots have been taken.

He or she not only ends up frustrated, and ready to give up the sport, but also holds up play for those unfortunate souls who had thought they were going to get a round in. The answer for the golfer whose skills have not reached a true ripening is the short, nine-hole course.

One course that is a good test for duffers of all abilities is the Colony Park Golf Course in nearby Kent. The nicely kept

grounds are almost free of trees and other hazards, which tend to chew and swallow many a golf ball.

The shortest hole is 86 yards; the longest one stretching 190 big ones. It costs a little more than most other nine hole courses, around two dollars depending when you play.

A research team from the "Thunder Word" sports department played nine to test it out. The first hole (125 yards) is perhaps the easiest hole on the course. There is plenty of room on the spacious green to plop a light seven or nine iron shot.

Hole number two measures an easy 131 yards, and is a par three like all of the holes on the entertaining course. Unfortunately, fours and fives are what we mostly contended with.

The 164 yard third hole was a good test with the five iron, and the research team was somehow near the green with their first shots. Golfer No. 2 parred this hole. Number four (157 yards) brought opposite

luck to the other half of the duffing duo, who sank a long putt for his first par of the round.

Every course has its "monster" hole, and Colony Park's 190 yard fifth hole certainly qualifies. Both duffers used three-irons, and laughed hysterically as their shots hooked like nine irons in the wind. No need to report the scores on that hole.

Going into the home stretch found the favorite hole of the valiant (or stupid) research team, the 121 yard sixth. The tee-shot of one half of the inept duo fell but eight feet short of the pin. He choked on the uphill putt for a birdie, and settled for a par.

The divot-diggers moved next to the 163 yard seventh. Twelve shots (between them) and a thousand tears later, they stepped coolly up to the eighth hole, a scant 86 yards away. It fools you, being only an easy nine iron away.

Two bogeys later, stood the 120 yard ninth (and last) hole. With a good, mediocre slice it is possible to land in the clubhouse and bean relaxing duffers. A good seven iron will do the trick here.

Overall, Colony Park is a good test for any golfer. The best this season there is a 25 (two-under par) by Joe Russo. The dynamic duffers didn't feel too bad in shooting a 39 and 45, as shooting a 36 is a fairly decent round out there. Next issue: the intriguing short nine at Jefferson in Seattle.

Pigskin Proposals

Move over Royal Brougham; here come the "Thunder Word's" fearless predictions of Pacific Eight Football games. The predictions are for games on September 28 and October 5.

The forecasters include Mickey Swope, our Editor-in-Chief and lone female on the panel; Mike Sanderson, who predicted at an amazing rate of over 90 per cent on his high school newspaper, the Chinook; Don Smith, who hopes the Huskies will lose all their games this year so Owens will be fired; and Scott Janzen, sports editor and weekend jock.

The forecasts:				
GAMES	Mickey	Mike	Don	Scott
Army at Calif.	Calif. by 10	Calif. by 20	Calif. by 14	Calif. by 3
San Jose St. at Stanford	Stanford by 7	Stanford by 18	Stanford by 17	Stanford by 7

FREE GOPHER

College credit, management training, scholarships, adventure can all be yours when you enroll in Military Science courses at Seattle University, while continuing to attend Highline Community College at Midway. Tuition is free and all course materials are provided. No military obligation. You can gopher this new program by contacting Professor of Military Science, Seattle University, Seattle, WA 98122 (Phone 626-5775) by October 2.

Volunteer program offers credits

The Highline College Community Involvement Program offers college credit and perhaps more important, the good feelings that come from helping others less fortunate. Those are thoughts of Barb Manderville, student coordinator for the volunteer program here.

The following areas are just a few of the myriad of programs available for student participation.

Probation and Parole: Volunteers are needed to work on a 1-1 basis with adult and juvenile probationers or parolees as a counselor, role models or just being a friend. Volunteers will be working with probation officers. Most agencies require a nine month commitment and train the volunteer.

Mental Health: Volunteers are needed to work with mentally disturbed children and adults as counselors, working in group encounters and consultation. Most agencies require a nine month commitment and train the volunteer.

Crisis Intervention: Activities include answering phones, assist with walk-in crisis situations, and refer people to other agencies for help.

Youth Services: Needed here are foster parents, big brother and sister, recreation, arts and crafts instructors, drug counseling, and many more. Training and commitment vary according to job.

Health Services: Most programs are very flexible and usually create a job for the volunteer according to his or her special interests. Some examples are nurses aides, nutrition experts and laboratory assistants. Training and commitment vary here according to duties.

Tutoring: Help is needed on a 1-1 basis with youth and adults to help with basic education requirements. The agencies train the volunteer and the commitment varies.

Elderly programs: Volun-

teers needed to read, play games, present programs (slides, hobbies), nurses aides, and recreational assistants. Programs are very flexible and the commitment varies according to the volunteer's abilities.

Special Projects: There are many special projects which do not fall into the categories. Some of these are: Helping set up a cultural community center; helping to fill United Way kits; receptionists and secretaries; research project assistants, and many more.

Some agencies the college is involved with at the present time include: Valley General Hospital, Federal Way Boys Club, CHANNEL (Youth and elderly drop-in center), Midway Manor and Good Samaritan Convalescent Hospitals and tutoring children at the Muckle-shoot Indian Reservation.

These are some of the many placements available to students seeking volunteer work and General Studies college credit. All interested students are urged to contact Barb Manderville at extension 210 or visit the Community Involvement Office located in the North end of the Student Lounge.

OPERA STAR TO TEACH. . . The world famous opera star Edmond Hurshell will be teaching an in-depth course in analysis, background preparation, guided listening, lecture and discussion seminars. The course will be highlighted by Mr. Hurshell's more than 20 years of experience and visits by featured artists and field trips. "Opera Preview" will be offered in the evening program from 7 to 10 p.m. beginning this week.

'Watergate' is now in library

Highline Community College library has obtained the most complete set available of Congressional Hearings of the Watergate Affair which resulted in the resignation of President Nixon.

Dr. Junius Morris, Library Director, states that the library has over forty volumes of government documents in the case, including the Senate Hearings which were televised in the summer of 1973.

One volume records all of the testimony collected by the House Judiciary Committee in their investigation to determine whether sufficient grounds existed for impeaching the President; another gives the transcripts of tapes submitted by President Nixon's office of the Committee.

"These volumes will make very interesting browsing for those who would like to see for themselves the evidence which led the Judiciary Committee to recommend the impeachment of a President of the United States for the first time in over a century," Morris commented. "I want to remind the people in the community that all are welcome to come in and use the materials in the Highline College library."

drugs refund

"Operation Money Back," in which consumers will be able to claim cash rebates based on their purchases of certain antibiotic drugs between 1954 and 1966, was launched today by Attorney General Slade Gorton and his counterparts in five other states.

The program is the result of a settlement in U. S. District Court by the six attorneys general and five manufacturers of broad-spectrum antibiotic drugs.

The claim form will include the information which most citizens will need to help them in completing and submitting it. It will list the applicable drugs and examples of the conditions they most frequently were prescribed to treat (including ear and respiratory infections, flu, acne, strep throat and cystic fibrosis).

"This program is without precedent in the United States," Gorton stated, "and our purpose is two-fold: First, we want to rebate money to citizens because of the alleged overcharges on their purchases."

Any citizen who has not received a claim form by the end of August may get a copy at the nearest public library.

Earn extra money !

AS A MEMBER OF THE 104TH DIVISION YOU'LL EARN FROM \$5.12 TO \$9.86 FOR EVERY HOUR YOU TRAIN WITH US. THAT CAN HELP PAY FOR VACATIONS OR A CAR. IT CAN ADD TO YOUR SAVINGS, OR HELP PAY FOR YOUR EDUCATION, OR JUST BE EXTRA POCKET MONEY.
