

Highline College's Youth Re-Engagement & Success Programs are comprised of ELL ExCEL, HS Success, Pathway to College and High School Plus. Our programs support youth ages 16-21 and older as they obtain their high school diploma while earning college credits.

Each program supports the academic needs for a distinct group of students but our structure allows students to transition from one program to another as they make academic gains and demonstrate college going behaviors. We accept students from all school districts.

## PROGRAMS

### ELL EXCEL

English Language Learner Excellence & Commitment to Education & Leadership serves both newly arrived immigrant & refugee students as well as students that are currently enrolled in high school, but are struggling to meet state graduation requirements. We provide scaffold instruction, academic support, individualized advising, and help students develop the skills necessary for both high school graduation and college success. Qualified students are currently or previously qualified for ELL classes & services.

### HS SUCCESS

High School Success helps students adjust to the demands of high school completion on the college campus. Students that complete HS Success cohort classes can work on their high school diploma exclusively or transition to PTC so that they can earn both high school & college credits simultaneously.

### PATHWAY TO COLLEGE

Pathway to College supports students through an academically rigorous cohort model & a series of support classes that help student master college going behaviors. Successful students can obtain a number of college credits by working on a high school diploma & an AA degree simultaneously.

### HIGH SCHOOL PLUS

High School Plus is a program for adult learners 21 years and over who want to earn their high school diploma. The program expands options for students by including opportunities to earn credit for experience and learning from work, life, or military service. Students may attend classes or earn credits through competence testing.

*INFO SESSION DATES*

## ELIGIBILITY

- Between 16-21 years old and older
- Turned 16 years old before September 1st
- Be out of school or on the verge of dropping out
- Be behind in high school credits (for age & grade level)
