

Multimedia Design

Associate of Applied Science - Transfer

Program description

How many videos, animations, motion graphics have you watched this week? Ever wonder how these were created? Multimedia Design brings video, audio, graphics, photography, and web design into one technical skill. Highline College recognizes the need for well-rounded artists in this exciting and booming industry. Graduates will be skilled in using a variety of mediums to create informational or promotional videos, brochures, web designs, or interactive presentations using industry-standard software and equipment.
