

Residential Interior Design

Certificate

Program Description

Interior Designers know how to plan and visually present a space to either an individual and business client. Interior designers are knowledgeable in every aspect of interior planning from material and production specification to health and safety issues, building codes and other technical aspects.

Key Advisors

Tamara Hilton, thilton@highline.edu

Program Map

The following program map contains recommended courses to complete your degree or certificate. This document does not replace meeting with an advisor. In order to discuss your educational goals and plans a meeting with an advisor is very important.
