

Substance Use Disorder Professional

Associate of Applied Science

Program description

The Substance Use Disorder Professional (SUDP) specializes in working with individuals to help them overcome their dependency on alcohol and drugs to become self-sufficient. With coursework in addiction, client evaluation, referral and treatment, cultural implications, counseling, prevention and intervention, family involvement, and legal issues, you will be equipped with the knowledge to work with a diverse population. With this program, you will earn an AAS and complete the educational requirements needed to become licensed as a Substance Use Disorder Professional in Washington state.
