

Sociology

Associate of Arts -
DTA

Program description

Sociology is the scientific study of human social systems, institutions and interactions— from family structures to communities, to global political and economic relationships between nations. Students who take sociology courses can expect to study topics such as social classes, racial discrimination, gender roles, crime, school systems and other social issues that are relevant to the study of people and social structures. The Department of Sociology offers courses that facilitate the knowledge of society for students who wish to work with people and communities. [Learn More](#)

Key advisors

Dr. Darryl Brice, dbrice@highline.edu
Aaron Modica, amodica@highline.edu
Doug Avella-Castro, davella@highline.edu

Program map

The following program map contains recommended courses to complete your [AA-DTA degree](#). This document **does not** replace meeting with an advisor. Meet with an advisor to discuss your educational goals and plans. It is important to ensure you are taking pre-requisite courses for your transfer institution of choice.

Distribution Areas - [List of Courses](#)
